SECTION I – OVERVIEW OF OFFER REQUIREMENTS

1. GENERAL INFORMATION

1.1 Purpose

The California Health Benefit Exchange (Exchange) seeks the assistance of a consultant¹, under the direction of the Exchange, to plan for setting up and managing a service center. This will include providing strategic and tactical support for the Exchange in developing and assessing alternative approaches for servicing callers who seek information or wish to enroll in new coverage options starting Summer 2013, as well as approaches providing other services such as incoming mail handling, payment processing, and outgoing communications. The work will also include preparation of solicitation documents required under the chosen approach. The specific tasks and deliverables associated with this RFO are included in the SOW in Section II.

1.2 Project Background

Soon after the passage of national health care reform through the Patient Protection and Affordable Care Act of 2010 (ACA), California became the first state to enact legislation to establish a qualified health benefit exchange. (Chapter 655, Statutes of 2010-Perez and Chapter 659, Statutes of 2010-Alquist.) The California state law is referred to as the California Patient Protection and Affordable Care Act (CA-ACA).

Starting in 2014, the California Health Benefit Exchange will be offering a state-wide health insurance exchange to make it easier for individuals and small businesses to compare plans and buy health insurance in the private market. Although the focus of the Exchange will be on individuals and small businesses who qualify for tax credits and subsidies under the ACA, the Exchange's goal is to make insurance available to all qualified individuals and to all California businesses with less than 100 employees.

The vision of the California Health Benefit Exchange is to improve the health of all Californians by assuring their access to affordable, high quality care.

The mission of the California Health Benefit Exchange is to increase the number of insured Californians, improve health care quality, lower costs, and reduce health disparities through an innovative, competitive marketplace that empowers consumers to choose the health plan and providers that give them the best value.

The California Health Benefit Exchange is guided by the following values:

- **Consumer-focused:** At the center of the Exchange's efforts are the people it serves, including patients and their families, and small business owners and their employees. The Exchange will offer a consumer-friendly experience that is

¹ The term "consultant" should be understood to include multiple individual consultants, as appropriate, whose services are offered by an entity.

accessible to all Californians, recognizing the diverse cultural, language, economic, educational and health status needs of those we serve.

- **Affordability:** The Exchange will provide affordable health insurance while assuring quality and access.
- **Catalyst:** The Exchange will be a catalyst for change in California's health care system, using its market role to stimulate new strategies for providing high-quality, affordable health care, promoting prevention and wellness, and reducing health disparities.
- **Integrity:** The Exchange will earn the public's trust through its commitment to accountability, responsiveness, transparency, speed, agility, reliability, and cooperation.
- **Partnership:** The Exchange welcomes partnerships, and its efforts will be guided by working with consumers, providers, health plans, employers and other purchasers, government partners, and other stakeholders.
- **Results:** The impact of the Exchange will be measured by its contributions to expanding coverage and access, improving health care quality, promoting better health and health equity, and lowering costs for all Californians.

The Exchange is an independent public entity within California State Government. It is governed by a five-member board appointed by the Governor and Legislature. Four of the members are appointed for four year terms, two by the Governor, one by the Senate Rules Committee and one by the Speaker of the Assembly. The California Secretary of Health and Human Services is a voting ex-officio member of the Board. The Board elected the California Secretary of Health and Human Services Agency as Chair, signaling its intention to actively coordinate and collaborate with existing state agencies involved in providing health coverage to Californians.

The Exchange works in close partnership with:

- Department of Health Care Services (DHCS), which oversees and administers the California's Medicaid Program (Medi-Cal);
- Managed Risk Medical Insurance Board (MRMIB), which oversees and administers the California's Children's Health Insurance Program (Healthy Families, Access for Infants and Mothers Program), and both the state and ACA funded high risk pools (Major Risk Medical Insurance Program and Pre-Existing Condition Insurance Plan);
- Two agencies that regulate health insurance in California, the Department of Managed Care and Department of Insurance; and
- A broad range of stakeholders whose constituencies will be impacted by health care reform.

1.3 Conflict of Interest and Follow-on Contracts Advisement

All offerors are reminded of their responsibility to ensure compliance with state statutes and regulations that apply to Conflict of Interest and Follow-on Contracts before submitting an offer.

2. OFFEROR QUESTIONS

Offerors shall submit any questions regarding this RFO by the due date specified in the Key Action Dates table on the cover of this RFO. Only e-mail inquiries addressed to the contact person listed on the RFO cover will be accepted. Offerors shall provide specific information to enable the state to identify and respond to its questions. When submitting inquiries, please reference this RFO number (HBEx9). At its discretion, the Exchange may contact an inquirer to seek clarification of any inquiry received. Offerors that fail to report a known or suspected problem with the RFO or fail to seek clarification and/or correction of the RFO, shall submit an offer at their own risk.

3. OFFER RESPONSE CONTENT

Issuance of this RFO in no way constitutes a commitment by the State of California to award an agreement. The state reserves the right to reject any or all offers received if the state determines that it is in the state's best interest to do so. The state may reject any offer that is conditional or incomplete. Assumptions made by the Offeror in responding to this RFO do not obligate the state in any way. Additionally, assumptions may make the offer conditional and be cause for the offer to be rejected. Responses to this RFO will be assessed based on determining the "Best Value" and the selection, if made, will be to a single Offeror.

The SOW and the offer will be made a part of the resulting Agreement.

The table below lists the evaluation categories and the weights each will carry in the overall evaluation of each offer:

Individual staff experience as described in resumes.	20%

The consultant will work with Exchange staff and consultants to develop this material.

➤ Vendor Qualifications

While the Exchange does not intend to arbitrarily exclude qualified bidders, it does believe that vendor qualifications are an important predictor of success. Qualifications should be carefully crafted to support success-oriented evaluation criteria to be applied to responses to the solicitation.

➤ Vendor Scope of Work

The consultant will work with Exchange staff and other consultants to develop this material. Details of Business, Technical, Usability and other requirements will be provided in appendices and will not be the primary responsibility of the consultant. A robust understanding of the requirements, however, will be needed by the consultant to support drafting of Service Center models, sizing and requirements, required deliverables and related components of the vendor scope of work. The vendor scope of work should also include the descriptions of the roles and responsibilities of interfacing entities, including, but not limited to DHCS, MRMIB and county welfare departments.

In addition to the development and implementation the vendor may be responsible for developing and executing training for Service Center Staff which the consultant must be prepared to include in the solicitation document.

The consultant may also be responsible for defining and documenting Service Center Processes and Procedures which the consultant must be prepared to include in the solicitation document.

This section shall also include any performance criteria not covered in the technical appendices referred to above.

➤ Evaluation Criteria

The consultant will work with Exchange staff and other consultants to develop:

- major evaluation categories, criteria within categories and, as appropriate, specific factors within criteria;
- evaluation weights for categories, criteria and factors, as appropriate, that effectively reflect Exchange values in the evaluation results and maximize the probability of project success while making appropriate allowance for risk;
- a scoring system to be used by evaluators that balances simplicity and ease of use with objectivity and fairness;
- materials to be used by evaluators for training and documentation of the evaluation results;

➤ Proposal Preparation Instructions

The consultant will prepare the instructions to be followed by vendors when preparing their proposals. The instructions should be designed to minimize repetition and redundancy within vendor proposals, and result in a clear mapping of proposal contents to evaluation criteria.

➤ Terms and Conditions

The consultant shall work with the Exchange and any legal, procurement or other entities to develop the contract terms and conditions to be included with the solicitation documents. The consultant should be prepared to offer examples of

usable pre-existing language for various common terms and conditions, as well as to accept for inclusion various standard terms and conditions to be provided by the Exchange.

- Continuously monitor and assess the application and use of standards, methods and tools.
- Review and assess system design changes for reasonableness of resource, schedule and budget estimates. Document deficiencies, and make recommendations. As policy or operational enhancements are proposed to the system, Consultant will review documentation and justifications provided for reasonableness, document where the design change requests are deficient, and provide recommendations for improvements where necessary.
- Review system diagrams, models, technical workflows, technical specifications, technical design deliverables and other technical design artifacts developed for compliance with contract terms and conditions, conformity with applicable standards, and quality of work.

In the event of such termination, the Exchange shall pay all amounts due to the Contractor for all work accepted prior to termination.

12.1.3 The Exchange shall, within five (5) business days after receipt of the Contractor-detailed explanation and/or proposed corrective action plan, notify the Contractor in writing whether it accepts or rejects the explanation and/or plan. If the Exchange rejects the explanation and/or plan, the Contractor shall submit a revised corrective action plan within three (3) business days of notification of rejection. Problems or issues shall normally be reported in regular status reports or in-person meetings. However, there may be instances where the severity of the problem justifies escalated reporting. The Exchange personnel notified, and the time period taken to report the problem or issue shall be at a level commensurate with the severity of the problem or issue. The Exchange personnel include, but are not limited to, the following:

The Exchange reserves the right to reject or refuse admission to any subcontractor personnel whose workmanship, in the reasonable judgment of the Exchange, is deemed to be substandard. Also, the Contractor warrants and agrees that all subcontracts shall include a provision that the subcontractor shall indemnify and hold harmless the Exchange to the same extent as provided in the Agreement. Any Agreement between the Contractor and its subcontractors shall require the subcontractors to adhere to the same performance standards and other standards required of the Contractor.
- 16.3** When a subcontractor ultimately performs all of the services that a contractor has agreed to provide and the prime contractor only handles the invoicing of expenditures, then the prime contractor's role becomes that of a fiscal agent because it is merely administrative in nature, and does not provide a commercially useful function. It is unacceptable to use fiscal agents in this manner because the agency is paying unnecessary administrative costs. Contractors may not subcontract 100 percent of the tasks of this SOW.
