- Monthly Flow
- Termination Details
- New Effectuations

Covered California's Membership dashboard summarizes monthly trends in effectuated health plan enrollments. Effectuated enrollments include consumers who have paid their first month's premium following plan selection; this is also referred to as "active health coverage". Data is refreshed monthly and includes counts of effectuated consumers as of the date of publication. However, termination data may take up to three months to settle, so enrollment counts will be refreshed with each monthly publication.

New Effectuations March 2026

Covered Lives in March

2026	1,785,000
2025	1,931,000
2024	1,730,000
2023	1,674,000
2022	1,712,000
2021	1,558,000
2020	1,481,000
2019	1,391,000

Monthly Enrollments by Cohort

The chart below summarizes counts of monthly effectuated enrollees based on the timing of their initial enrollment. For example, a new enrollee who effectuated during Open Enrollment in January will continue to appear in the Open Enrollment cohort until that enrollment is terminated, or until the plan year ends. In March 2026, 1,785,000 enrollees had effectuated coverage compared to 1,931,000 in March 2025.

Membership Stats by Month

Effectuated enrollees include consumers who have paid their first month's premium following plan selection. Terminating enrollees include consumers who have active health coverage and choose not to continue their coverage in the upcoming month. Terminating enrollees are categorized based on the month of their last day of active coverage (e.g. a consumer with a coverage end date of February 28th who has no subsequent effectuated plan in March will be counted as "Terminated" in February).

Key Highlight: 48,000 new effectuations took place in March 2026, a 27% decrease from March 2025. The overall termination rate in March is slightly higher than last year at 4%, compared to 3% in 2025.

All

	2024		2025		2026	
	FEB	MAR	FEB	MAR	FEB	MAR
Effectuated Enrollees	1,739,000	1,730,000	1,936,000	1,931,000	1,811,000	1,785,000
New Effectuations	141,000	55,000	153,000	66,000	109,000	48,000
Terminating Enrollees	65,000	58,000	71,000	62,000	74,000	65,000
Termination Rate	4%	3%	4%	3%	4%	4%

Termination Rates

Monthly termination rates typically hover between 3-4% throughout the coverage year, except for December. Most consumers who do not renew their health coverage for the next plan year will end their coverage as of December 31st of the current plan year, causing an increase in termination rates.

Inflow and Outflow of Effectuated Enrollees

The chart below shows the monthly in and outflow of enrollees who newly effectuate (i.e. they did not have active health coverage in the prior month) and terminating enrollees who are ending their coverage in the given month. The data reflects counts at time of publication; termination data may take up to three months to fully settle.

Key Highlight: Compared to the prior year, March 2026 shows slightly more terminations and fewer new effectuations, resulting in a net loss of 17,000 enrollments compared to a net gain of 4,000 enrollments in March 2025.

Termination Details

The table below summarizes counts of monthly enrollees terminating coverage and their associated termination rates. These enrollees had active health coverage in the month shown and do not have a record of active health coverage in the following month. The termination rate is the share of terminating enrollees in a coverage month out of all enrollees with active health coverage. Make a selection below to see termination details by an available demographic.

Key Highlight - Race/Ethnicity: While the volume of terminations in March 2026 is slightly larger than prior years, rates across Race/Ethnicity categories remain consistent with prior-year levels.

New Effectuations

New Effectuation Details

The table below summarizes counts of monthly enrollees effectuating coverage in a given month. These enrollees have active health coverage in the current month and did not have active health coverage in the prior month. This includes individuals who are effectuating for the first time in a coverage year as well as individuals who previously had an effectuated health plan and are returning after a gap in coverage. Make a selection below to see new effectuation details by an available demographic.

Key Highlight - FPL Bracket: New effectuations by middle income consumers (those earning more than 400% of the Federal Poverty Level) decreased 51% compared to March 2025 (3,300 vs 6,700). Without the extension of federal premium tax credits, these consumers do not receive financial assistance to lower the cost of their monthly premium.
