

**RFP 2019-29 – Quality Assurance and Control Inspector Services  
Questions and Answers**

<b>QUESTION</b>	<b>ANSWER</b>
<b>1. Is this project subject to prevailing wage law?</b>	Yes, all Covered California projects are subject to prevailing wage law.
<b>2. In Section 4.3.3 of the RFP, Covered CA has requested a Field Engineer who is a CA Registered Professional Civil Engineer as the Construction Manager for the Construction Project. This is the only location this position is identified in the RFP documents. The proposed scope in the documents indicates a Lead Inspector, inspection and materials testing during construction, and a Registered Civil Engineer for plan checking of preliminary and construction documents. Is the construction manager position required as per 4.3.3? Or was the intent for this position to be the Plan Check Engineer, which would typically not be a full time on-site position? Or is the request to provide the resume of the Lead Inspector who would be on site full time during construction activity?</b>	Covered California requests the resumes of the Lead Inspector who would be on site full-time during construction.
