

**EXHIBIT C, Attachment 1
(Standard Agreement)**

RÉSUMÉS

This exhibit contains the résumés of Contractor staff, independent consultants, or individual subcontractors that are known or expected to be assigned to perform work under this Agreement. If the identity of any person expected to hold an administrative, policy, or consultative role under this Agreement was unknown and whose résumé was excluded from this exhibit and is identified/selected after contract execution, the résumé of said individual shall be collected by the Program Contract Manager and attached to the funding program's contract copy. A copy of the resume must also be sent to Covered California's Contracts Unit to determine if the consultant or individual subcontractor is a Form 700 Code Filer and if background clearance is required.

It is understood that the Contractor's employment or contractual relationship with the individuals whose résumés are included herein may change during the course of the contract term and these individuals may be replaced by alternate persons approved by the State and whose résumés shall be collected by the Program Contract Manager and attached to the funding program's contract copy. A copy of the resume must also be sent to Covered California's Contracts Unit to determine if the consultant or individual subcontractor is a Form 700 Code Filer and if background clearance is required.
