(Except as otherwise expressly defined, capitalized terms shall have the meaning set forth at Article 13 Definitions).

RECITALS

A. The Exchange is authorized under the Federal Patient Protection and Affordable Care Act (Public Law 111-148), as amended by the Federal Health Care and Education Reconciliation Act of 2010 (Public Law 111-152) (collectively, “Affordable Care Act”), and the California Patient Protection and Affordable Care Act, (Chapter 655, Statutes of 2010) and Chapter 659, Statutes of 2010) (“California Affordable Care Act”) to selectively contract with Health Insurance Issuers in order to make available to enrollees of the Exchange health care coverage choices that seek to provide the optimal combination of choice, value, access, quality and service to Qualified Individuals, Employers and Employees;

B. The contracting solicitation process conducted by the Exchange is based on the assessment of certain requirements, criteria and standards that: (i) the Exchange determines are reasonable and necessary for bidding Health Insurance Issuers to market, offer, and sell Qualified Health Plans through the Exchange, (ii) are set forth in that certain Final Qualified Health Plan Solicitation dated November 16, 2012, as amended December 28, 2012 (“Solicitation”) and/or (iii) are required under applicable laws, rules and regulations or otherwise necessary to meet the needs of enrollees in the Exchange, including, those set forth at 45 C.F.R. Part § 155 *et seq.*;

C. In connection with the evaluation of the responses to the Solicitation received from Health Insurance Issuers, the Exchange is required under 10 CCR § 6440: (i) to evaluate the proposed QHP’s compliance with requirements imposed under the Solicitation, and (ii) to give greater consideration to potential QHPs that further the mission of the Exchange by promoting, among other items, the following: (1) affordability for the consumer and small employer – both in terms of premium and at point of care, (2) “value” competition based upon quality, service, and price, (3) competition based upon meaningful QHP choice and ability to demonstrate product differentiation within the required guidelines for standard benefit plans, (4) competition throughout the State, (5) alignment with Providers and delivery systems that serve the low-income population, (6) delivery system improvement, effective prevention programs and payment reform, and (7) long-term collaboration and cooperation between the Exchange and Health Insurance Issuers;

D. Contractor is a Health Insurance Issuer authorized to provide Covered Services to Enrollees under applicable laws, rules and regulations pursuant to: (i) a certificate of authority issued by the California Department of Insurance (“CDI”) under § 699 *et seq.* of the California Insurance Code, and/or (ii) a license issued by the Department of Managed Health Care (“DMHC”) pursuant to the Knox-Keene Health Care Service Plan Act of 1975 (§ 1340 *et seq.* of the California Health and Safety Code). (Except as otherwise stated, references to “Codes” set forth herein shall refer to the laws of the State of California.);

E. Based on the Exchange's evaluation of the proposal submitted by Contractor in response to the Solicitation ("Proposal") and its consideration of other factors required to be considered under applicable laws, rules and regulations and/or otherwise necessary to meet the needs of Enrollees, the Exchange intends to designate Contractor as a QHP Issuer (as defined at 10 CCR § 6410) pursuant to the Exchange's determination that Contractor's proposed QHPs meet the requirements necessary to provide health insurance coverage as a Certified QHP (as defined at 10 CCR § 6410) to qualified individuals and employers who purchase health insurance coverage through the Exchange;

F. Contractor desires to participate in the Exchange as a QHP Issuer (as defined at 10 CCR § 6410); and

G. Contractor and the Exchange desire to enter into this Agreement to set forth the terms and conditions of Contractor's role as a QHP Issuer and operation of the Certified QHPs through the Exchange.

Article 1. Organization; Relationship of the Parties

1.01 Purpose. The Agreement is intended to further the mission of the Exchange to increase the number of insured Californians, improve health care quality and access to care, promote health, lower costs, and reduce health disparities. The Exchange seeks to accomplish its mission by creating an innovative, competitive marketplace that empowers consumers to choose the health plan and providers that offer the best value. The Exchange's "triple aim" framework seeks to improve the patient care experience including quality and satisfaction, improve the health of the population, and reduce the per capita cost of Covered Services. This Agreement sets forth the expectations of the Exchange and Contractor with respect to: (i) the delivery of services and benefits to Enrollees, (ii) the coordination and cooperation between the Exchange and the Contractor on the promotion of better care and higher value for Enrollees and other health care consumers, and (iii) an enhanced alignment between Contractor and its Participating Providers to deliver better care and higher value. By agreeing to these expectations as set forth in this Agreement, Contractor and the Exchange acknowledge a commitment to be active and engaged participants to promote change and to work collaboratively to define and implement additional initiatives to continuously improve quality and value.

1.02 Application of Laws. This Agreement is not intended to limit the obligations imposed on Contractor under applicable laws, rules and regulations, including, at a minimum, the Affordable Care Act, the California Affordable Care Act, and applicable State regulatory requirements, in existence as of the date of this Agreement or as may be enacted or modified during the term of this Agreement. The failure to reference a regulatory requirement in this Agreement does not affect the applicability of such requirement to Contractor and the Exchange. Subject to the requirements set forth in 12.14, in those instances where the Exchange has affirmatively elected to impose a requirement authorized by the Exchange in accordance with the California Affordable Care Act that exceeds a lesser threshold that may be applicable under the Affordable Care Act or other Federal law, the State law shall be deemed controlling unless otherwise required under applicable laws, rules and regulations.

1.03 Role of Contractor. Contractor and the Exchange acknowledge and agree that Contractor's Certified QHPs are important to furthering the goal of the Exchange with respect to delivering better care and higher value. Contractor agrees that Contractor's QHPs identified at Attachment 1 ("Contractor's QHP List") shall be offered through the Exchange to provide access to Covered Services to Enrollees in accordance with the terms and conditions required by this Agreement and as required for designation of each health insurance plan as a Certified QHP, including, without limitation, those set forth in this Agreement, the Affordable Care Act, the California Affordable Care Act and implementing regulations set forth at 45 C.F.R. Part 156 *et seq.* (Subpart C, Qualified Health Plan Minimum Certification Standards), 10 CCR 6400 *et seq.* and other applicable laws, rules and regulations.

1.04 Transition between Exchange and Other Coverage. In order to further the Exchange's mission regarding continued access to health insurance coverage to employees, Contractor shall cooperate with reasonable requests from the Exchange to facilitate the transition of Enrollees and other consumers to and from the Medi-Cal program and other governmental health care programs and coverage provided under employers, including, coverage required by the Consolidated Omnibus Budget Reconciliation Act of 1985 ("COBRA") and the California Continuation Benefits Replacement Act, or Health and Safety Code § 1366.20 *et seq.* ("Cal-COBRA").

1.05 Coordination and Cooperation.

(a) Exchange. The Exchange recognizes that the successful delivery of services to Enrollees depends on a successful coordination with Contractor. The Exchange will take such action as it deems is necessary and feasible to develop and implement programs and activities to support Contractor in its marketing and enrollment efforts, in accordance with applicable laws, rules and regulations. Such activities may include making available the following programs and resources for use by Contractor:

(i) A subsidy calculator available by electronic means to facilitate a comparison of QHPs that is consistent with tools the Exchange will use for its own eligibility screenings, to ensure that preliminary eligibility screenings use the same tool;

(ii) Education, marketing and outreach programs that will seek to increase enrollment through the Exchange and inform consumers, including Contractor's current enrollees, that there is a range of QHPs available in the Exchange in addition to Contractor's QHPs;

(iii) Systems for electronic exchange of information with the Exchange's full quoting and enrollment system called California Healthcare Eligibility, Enrollment and Retention System ("CalHEERS") for use in converting Contractor's existing members who are eligible for Federal subsidies. On or before the commencement of the 2013 Open Enrollment Period, the Exchange expects to offer CalHEERS from Contractor's technology environment using certain agents employed by or otherwise working exclusively for Contractor to support enrollment of individuals who are eligible for subsidized coverage following agreed upon protocols;

(iv) A standard interface through which Contractor may electronically accept the initial binding payment (via credit card, debit card, ACH or other mutually acceptable means to effectuate coverage in the Individual Exchange);

(v) A standard interface through which Contractor may electronically accept from the Exchange the initial binder payment (via ACH or EFT) to effectuate coverage and accept subsequent premium payment in the SHOP;

(vi) Complete documentation and reasonable testing timelines for interfaces with the Exchange's eligibility and enrollment system;

(vii) A dedicated team member responsible for working with Contractor to resolve any and all issues that arise from the implementation of the Exchange;

(viii) Eligibility and enrollment training for Contractor's staff and for licensed agents and brokers;

(ix) Joint marketing programs to support rollover to the Exchange of existing members of Contractor's health insurance plans who are eligible for the Federal subsidies;

(x) Joint marketing activities of the Exchange, Contractor and other Health Insurance Issuers designed to drive awareness and enrollment in the Exchange, with marketing plans;

(xi) Confidential treatment of all Contractor marketing plans and materials; and

(xii) Customer service support that will include substantially extended customer service hours during Open Enrollment Periods.

(b) Contractor's Support Responsibilities. To support the collaborative marketing and enrollment effort, Contractor shall:

(i) Within a reasonable time after the receipt of and determination of its compatibility with Contractor's system, the Contractor shall prominently display the subsidy calculator on its website;

(ii) Educate its agents that part of being an Exchange agent is to strive for annual recertification of the Agent and that a prospective Enrollee's health status is irrelevant to advice provided with respect to health plan selection other than as it informs out-of-pocket calculation estimates;

(iii) Work with the Exchange to efficiently educate its agents and brokers about the Exchange's individual and small group marketplaces;

(iv) Provide education and awareness regarding eligibility for Federal tax credits, plan offerings and benefits available through the Exchange in connection with any applicable outreach to Contractor's existing members, as mutually agreed;

(v) Comply with the Exchange's financial interface requirements at its own cost, including but not limited to transaction fees and chargebacks, that allows an Exchange certified entity to transfer initial premiums directly into Contractor's account, subject to compliance with initial premium payment requirements of the Exchange that shall be processed through a third-party payment administrator;

(vi) Cooperate with the Exchange to develop and implement an Enrollee retention plan;

(vii) Submit to the Exchange a marketing plan in a form required by the Exchange that details the objectives of promoting new enrollment and retaining the Exchange-based enrollment part of the annual renewal process; and

(viii) Have successfully tested interfaces with the Exchange's eligibility and enrollment system, or be prepared to complete successful interface tests by dates established by the Exchange.

1.06 Coordination with Other Programs.

(a) Contractor and the Exchange recognize that the performance of Services under this Agreement depends upon the joint effort of the Exchange, Contractor, Participating Providers and other authorized subcontractors of Contractor. Contractor shall coordinate and cooperate with Participating Providers and such subcontractors to the extent necessary and as applicable to promote compliance by Participating Providers and such subcontractors with the terms set forth in this Agreement. Contractor shall also coordinate and comply with requirements of other State agencies that affect its Enrollees, including, the Department of Health Care Services ("DHCS") (regarding Medi-Cal) regarding the development and implementation of CalHEERS with respect to eligibility and enrollment considerations or as may be required under inter-governmental agency agreements or other laws, rules, regulations or program instructions.

(b) The Contractor shall cooperate with the Exchange and DHCS to implement coverage or subsidy programs to complement existing programs that are administered by DHCS. Such programs may provide State and/or federal funding for all or a portion of enrollee premiums or subsidies to reduce or eliminate cost-sharing charges. These programs may require special authorization and coverage of certain health benefits for individuals enrolled under these special programs, which may not otherwise be covered by a QHP.

1.07 Administration.

Contractor will designate a liaison to serve as the primary contact person to coordinate and cooperate with the Exchange with respect to Contractor's performance of this Agreement. Liaison shall be available, and/or shall make other Contractor personnel available, to the Exchange at such times and to such extent as is reasonably required to fulfill Contractor's duties under this Agreement.

1.08 Relationship of the Parties.

(a) Independent Contractors. The parties acknowledge and agree that, as required by 45 C.F.R. § 155.200(e), in carrying out its responsibilities, the Exchange is not operating on behalf of Contractor or Contractor's QHPs or any authorized subcontractor of Contractor. In the performance of this Agreement, each of the Exchange and Contractor shall at all times be acting and performing as an independent contractor, and nothing in the Agreement shall be construed or deemed to create a relationship of employer and employee or partner or joint venturer or principal and agent between the Exchange and Contractor. Neither Contractor nor Participating Providers, authorized subcontractors, or any agents, officers or employees of Contractor are agents, officers, employees, partners or associates of the Exchange.

(b) Use of Subcontractors. Contractor shall require any subcontractor or assignee to agree to be bound by all applicable provisions of this Agreement; provided however that nothing in this Section shall limit Contractor's ability to hold subcontractor liable for performance under the contract between Contractor and subcontractor. The obligation of Contractor to comply with responsibilities under this Agreement and applicable laws, rules and regulations shall remain and shall not be waived or released if Contractor subcontracts or otherwise delegates any Services required to be performed by Contractor under this Agreement or by laws, rules or regulations or any other obligations under this Agreement. Contractor shall be solely responsible for (i) exercising appropriate diligence in connection with its selection of its subcontractors, (ii) monitoring and auditing the services provided by such subcontractor to assure that the services provided by such subcontractors are provided in accordance with the terms set forth in this Agreement or imposed by Health Insurance Regulators or under other applicable laws, rules and regulations regarding arrangements by and between Contractor and subcontractors.

1.09 Changes in Requirements. The parties acknowledge that prospective changes to benefits and services may be made by the Exchange during a Contract Year to incorporate changes (1) required as a result of changes in State or Federal laws, rules or regulations; (2) imposed by regulators; or (3) as mutually agreed upon by the parties. The projected cost of any such benefit or service change will be included in the cost of health care projections and changes to the Monthly Rates will be implemented after Contractor has demonstrated the cost impact of the benefit or service change in accordance with the requirements set forth in Article 5.

1.10 Evaluation. The performance by Contractor with respect to fulfillment of its obligations set forth herein shall be evaluated by the Exchange on an ongoing basis, including, but not limited to, during the 90 day period prior to the each anniversary of the Agreement Effective Date set forth in Section 7.01 so long as the Agreement remains in effect. In the event the evaluations conducted by the Exchange

disclose a significant problem or pattern of non-compliance with terms of this Agreement as reasonably determined and documented by the Exchange, the Exchange shall have the right, without limitation, to conduct reasonable additional reviews of Contractor's compliance and operational performance. Such evaluations shall also be considered in connection with decisions relating to re-certification and de-certification in accordance with the terms set forth at Article 7 below.

Article 2. Exchange Responsibilities

The Exchange is approved by the United States Department of Health Services ("DHHS") pursuant to 45 C.F.R. § 155.105 and shall perform its duties in accordance with the terms and conditions required of this Agreement pursuant to applicable laws, rules and regulations, including, the California Affordable Care Act and the Affordable Care Act. 5.02 Financial Provisions for SHOP. The provisions of this Section 5.02 shall apply with respect to the SHOP.

(a) **Schedule of Rates.** The rates for the SHOP plan year 2014-XXXX are set forth in Attachment 10 ("Monthly Rates - SHOP"). The parties acknowledge and agree that the premium rates for SHOP are actuarially determined to assure that premium revenues and cost sharing contributions will provide the total dollar amount necessary to support (i) the provision of Covered Services by Contractor through its Certified QHPs, (ii) administrative expenses and reasonable reserves by Contractor to meet the requirements outlined in this Agreement and in accordance with applicable laws, rules and regulations, and (iii) the Contractor's payment of the Participation Fee to the Exchange. The Participation Fee payable with respect to Enrollees in SHOP includes a fee specified by the Exchange as necessary to support payment of agent and general agent commissions. Contractor acknowledges and agrees that any Participation Fees due to the Exchange from Contractor shall be withheld by the Exchange before passing through any premium payments received by the Exchange from Employers and Employees to Contractor in accordance with paragraph (c) of this Section 5.02.

(b) **Updates.** The Monthly Rates shall be established in accordance with the procedures set forth at Section 3.09 and in Attachment 11 ("Rate Updates - SHOP"). The Exchange may authorize an update of rates no more frequently than on a quarterly basis in the SHOP, as such updates shall be determined by the Exchange in accordance with requirements and update schedules to be determined by the Exchange.

(c) **Rate Determinations.** Rates will be determined by the Exchange in accordance with applicable laws, rules and regulations. Rates for an Employer will be determined by Employee ZIP Code. Rates for an Employer and all covered Employees will be determined and frozen at initial enrollment, or upon renewal, for twelve (12) months, until the next group renewal. Rates for all Employees including new Employees or Employees with qualifying events during the Employer plan year will be determined by the prevailing rates at group enrollment.

(d) **Collection and Remittance.** The Exchange agrees to perform collection and aggregation of monthly premiums with respect to Contractor's QHPs and will remit said premiums, net of (i) Participation Fees payable to the Exchange and (ii) the fee associated with agent commissions paid by the Exchange pursuant to Section 3.30(a). The Exchange's collection of premiums and remittance of net amounts to Contractor's as described in this Section shall be made on a monthly basis.

(e) **Grace Period.** Contractor acknowledges and agrees that applicable laws, rules and regulations, including, the Knox-Keene Act and Insurance Code, set a grace period with respect to the delinquent payment of premiums for the small group market. Contractor agrees to comply with the requirements set forth at Section 3.21 and required under applicable laws, rules and regulations with respect to these grace periods.

5.03 Participation Fee. Contractor understands and agrees that (i) under the Affordable Care Act and the California Affordable Care Act, the Exchange may generate funds through a participation fee ("Participation Fees") on Contractor's Certified QHPs and (ii) Contractor is responsible for the timely payment of any Participation Fees to the Exchange.

(a) Contractor Allocation and Collection of Participation Fee. Contractor recognizes that the total cost of all Participation Fees for the Exchange must be collected by Contractor by spreading the cost across the premiums charged to Contractor's entire individual risk pool (both inside and outside the Exchange) for the Individual Exchange Participation Fees and across the small employer risk pool (both inside and outside the Exchange) for SHOP Participation Fees. No rate charged to an Enrollee can have a higher per member per month fee to cover this overall Participation Fee than is charged to all other enrollees of the respective risk pool.

(i) Individual Exchange. The Participation Fee payable to the Exchange during each month of this Agreement shall be equal to a per member per month ("PMPM") rate of \$13.95 multiplied by the number of Enrollees in Contractor's QHPs for such month. The Participation Fee is based on the Exchange's estimates of the revenue required to support the transition of the Exchange to being self-sufficient beginning in 2015. The Participation Fee is based on a rate equivalent to approximately three percent (3%) of the estimated individual market premium of \$465 per month, an amount which represents the Exchange's planning estimate of total premium paid to plans for each Enrollee in the Individual Exchange, inclusive of Federal subsidies. The Participation Fee will be assessed by the Exchange and payable monthly by Contractor based on enrollment in Contractor's QHPs sold through the Individual Exchange in 2014.

(ii) SHOP. The Participation Fee payable to the Exchange during each month of this Agreement shall be equal to a per member per month ("PMPM") rate of \$18.90 multiplied by the number of Enrollees in Contractor's QHPs for such month plus additional fees as necessary to pay agent commissions. This Participation fee is based on the Exchange's estimates of the revenue required to support the transition of the Exchange to being self-sufficient beginning in 2015. This Participation fee is based on a rate equivalent to approximately four percent (4%) of the estimated aggregate premiums relating to all QHP products and policies sold through SHOP. The Participation Fee will be assessed by the Exchange and payable monthly by Contractor based on enrollment in Contractor's QHPs sold through the SHOP Exchange in 2014.

(b) Payment:

(i) Individual Exchange. Participation Fee invoices will be issued by the Exchange prospectively to Contractor on the 15th of the month for the coming month. Contractor's Participation Fee obligation will be determined by evaluating Contractor's then-current effective Certified QHP enrollment in the Individual Exchange, and may be subject to adjustment to reflect enrollment adjustments that may occur. Participation Fee payments will be due on the 1st of the month the Participation Fee covers. For Participation Fees received after the 15th of the month in which the Participation Fee is due, the Exchange will charge, and Contractor shall owe a 1% per month late fee on the unpaid balance as of that date. Additional rules, including but not limited to, the manner of payment, grace period, delinquency penalty, and termination due to breach will be established by the Exchange in accordance with applicable laws, rules and regulations and based on consultation with Contractor.

(ii) SHOP. With respect to SHOP, Contractor acknowledges that (i) the Exchange is responsible for collecting premiums from Employers and Employees, and (ii) the Exchange will remit applicable Employer and Employee premiums collected by the Exchange to Contractor, net of (1) Participation Fees computed in accordance with the Participation Methodology - SHOP, and (2) agent commissions determined in accordance with the terms set forth at Section 3.29. The Exchange shall transfer funds to Contractor on a monthly basis or such other intervals as mutually agreed upon by the Exchange and Contractor and shall establish a process to resolve any disagreements on premium amounts due in a timely manner and prior to transfer of funds to Contractor as required under this Section.

(iii) In the event that Contractor disputes the amount of Participation Fees billed or deducted by the Exchange, Contractor shall submit a written notice of such dispute to the Exchange within thirty (30) days following receipt of such bill or deduction by the Exchange. Contractor's notice will document the nature of the discrepancies, including, reconciliation of any differences identified by Contractor in enrollment or premiums collected. The Exchange will respond to Contractor within forty-five (45) days of receipt of the notice by either (i) paying the amount claimed by Contractor or (ii) providing a detailed explanation for the denial of the refund. If the Contractor still disputes the findings of the Exchange, Contractor may pursue additional remedies in accordance with Section 12.01.

(c) Subject to the provisions of Section 10.5, Contractor agrees to a periodic audit or other examination by the Exchange or its designee regarding the computation and payment of Participation Fees. In the case of material non-compliance with Participation Fee payments, Contractor shall implement any necessary corrective action and follow up audits or examinations may be performed by the Exchange more frequently than annually to monitor Contractor's implementation of such corrective actions.

5.04 Funding Payments to Exchange. Contractor acknowledges that the Exchange is required under Government Code § 100520(c) to maintain a prudent reserve as determined by the Exchange.

Article 6. Performance Measures, Penalties And Credits

6.01 Performance Measurement Standards.

(a) Contractor shall comply with the performance measurement standards set forth in Attachment 14 ("Performance Measurement Standards"). The Exchange shall conduct, or arrange for the conduct of, a review of Contractor's performance under the Performance Measures. The Exchange shall be responsible for the actual and reasonable costs of the review, including, the costs of any third-party designated by the Exchange to perform such review. The review shall be in addition to any ongoing monitoring that may be performed by the Exchange with respect to the Performance Measures.

(b) The Exchange and Contractor shall agree to performance standards for the Exchange, which, if not satisfied, will provide credits to Contractor which can be applied to any penalties accrued to Contractor. Such credits may reduce up to 25% of Contractor's performance penalties that may be assessed under Section 6.02 below.

6.02 Performance Penalties and Credits. The Exchange may impose penalties ("Penalties") in the event that Contractor fails to comply or otherwise act in accordance with the Performance Measures. The Exchange shall also administer and calculate credits ("credits") that may offset or reduce the amount of any performance penalties, but in no event shall such credits exceed the total amount of the penalty levied.

In the event that Contractor disputes the amount of penalties imposed or credits issued by the Exchange, Contractor shall submit a written notice of such dispute to the Exchange within thirty (30) days following receipt of such bill or deduction by the Exchange. Contractor's notice will document the nature of the discrepancies, including, reconciliation of any differences identified by Contractor. The Exchange will respond to Contractor within thirty (30) days of receipt of the notice by either (i) paying the amount claimed by Contractor or (ii) providing a detailed explanation for the denial of the refund. If the Contractor still disputes the findings of the Exchange, Contractor may pursue additional remedies in accordance with Section 12.01.

6.03 No Waiver. The Exchange and Contractor agree that the failure to comply with the Performance Measurement Standards may cause damages to the Exchange and its Enrollees which may be uncertain and impractical or difficult to ascertain. The parties agree that the Exchange shall assess, and Contractor promises to pay the Exchange, in the event of such failed, delayed, and/or other performance that does not meet the Performance Measurement Standards, the amounts to be determined in accordance with the Performance Measurement Standards set forth at Attachment 14. The assessment of fees relating to the failure to meet Performance Measurement Standards shall (1) be determined in accordance with the amounts and other terms set forth in the Performance Measurement Standards, (2) be cumulative with other remedies available to the Exchange under the Agreement (3) not be deemed an election of remedies, and (4) not constitute a waiver or release of any other remedy the Exchange may have under this Agreement for Contractor's breach of this Agreement, including, without limitation, Contractor's right to terminate this Agreement, and the Exchange shall be entitled in its discretion to recover actual damages caused by Contractor's failure to perform its obligations under this Agreement.

The term of this Agreement shall commence on the date on which Contractor's QHPs are certified and the Agreement is executed by all parties ("Agreement Effective Date"), and expire on [December 31, 2014] ("Expiration Date"), unless terminated earlier or extended in accordance with the provisions of this Agreement.

7.02 Recertification Process. During each year of this Agreement, the Exchange will evaluate the recertification of Contractor based on an assessment process that shall be conducted by the Exchange in accordance with its procedures and on a basis consistent with applicable laws, rules and regulations, including, the requirements set forth under the California Affordable Care Act, 10 CCR 6400 *et seq.*, and the Affordable Care Act. Contractor will be considered in the Exchange's recertification evaluation process that shall be conducted by the Exchange prior to the Expiration Date unless (i) the Agreement is terminated sooner than the Expiration Date by the Exchange in accordance with the requirements set forth at Section 7.03 below or pursuant to other terms set forth in the Agreement, or (ii) Contractor makes a Non-Recertification Election pursuant to Section 7.07 below.

7.03 Termination.

(a) The Exchange may, by ninety (90) calendar days' written notice to Contractor, and without prejudice to any other of the Exchange remedies, terminate this Agreement for cause based on one or more of the following occurrences:

(i) Contractor fails to fulfill an obligation that is material to its status as a Certified QHP and/or its performance under the Agreement;

(ii) Contractor no longer holds a license or certificate that is required for Contractor to perform its obligations under this Agreement and/or Contractor otherwise fails to maintain compliance with the "good standing" requirements pursuant to Section 3.02 above and which impairs Contractor's ability to provide Services under the Agreement;

(iii) Contractor breaches any material term, covenant, warranty, or obligation under this Agreement that is not cured or substantially cured to the reasonable satisfaction of the Exchange within forty-five (45) calendar days after receipt of notice of default from the Exchange; provided, however, that such cure period may not be required and the Exchange may terminate the Agreement immediately if the Exchange determines pursuant to subparagraph (e) below that Contractor's breach threatens the health and safety of Enrollees;

Upon Contractor's receipt of such a demand from the Exchange, Contractor shall provide to the Exchange a reasonable assurance of performance responsive to the Exchange's demand. If Contractor fails to provide such an assurance within ten (10) days of the Exchange's demand that demonstrates Contractor's reasonable ability to avoid such default or cure within a reasonable time period not to exceed thirty (30) days, the failure shall constitute a breach by Contractor justifying termination of the Agreement by the Exchange.
