Covered California to Release a Request for Proposals for Standardized Quality and Clinical Data Reporting

- Purpose of RFP:** The purpose of this Request for Proposal (RFP) 2024-01 is for Covered California to solicit proposals from innovative health care data management organizations to develop a unified reporting platform that merges administrative and clinical data to support real-time quality improvement, enables precise performance monitoring at various levels (e.g., qualified health plan [QHP] issuer, product line, and provider levels), and bridges quality of care gaps that exist across provider and population groups. Our timing coincides with the national trend towards electronic clinical data systems (ECDS) for improved healthcare quality assessment.

- Contract Term:** **Three (3) years - from November 1, 2024, to October 31, 2027.***
