1 Application Overview

1.1 Purpose

The California Health Benefit Exchange (Exchange) is accepting applications from eligible Health Insurance Issuers¹ (Applicants) to submit proposals to offer, market, and sell qualified health plans (QHPs) through the Exchange beginning in 2018, for coverage effective January 1, 2019. All Health Insurance Issuers currently licensed at the time of application response submission are eligible to apply for certification of proposed Qualified Health Plans (QHPs) for the 2019 Plan Year. Based on the Covered California Qualified Health Plan Certification Application for Plan Year 2018, QHP issuers selected for the 2018 Plan Year executed multi-year contracts with the Exchange. QHP Issuers contracted for Plan Year 2018 will complete a simplified certification application since those issuers have a three year contract with the Exchange that imposes ongoing requirements that are similar to the requirements in the certification application and consideration of this contract performance is included in the evaluation process. The Exchange will exercise its statutory authority to selectively contract for health care coverage offered through the Exchange for plan year 2019. The Exchange reserves the right to select or reject any Applicant or to cancel the Application at any time.

1.2 Background

Soon after the passage of national health care reform through the Patient Protection and Affordable Care Act of 2010 (ACA), California enacted legislation to establish a qualified health benefit exchange. (California Government Code § 100500 et seq.) The California state law is referred to as the California Patient Protection and Affordable Care Act (CA-ACA).

The Exchange offers a statewide health insurance exchange to make it easier for individuals to compare plans and buy health insurance in the private market. Although the focus of the Exchange is on individuals who qualify for tax credits and subsidies under the ACA, the Exchange's goal is to make insurance available to all qualified individuals. The vision of the Exchange is to improve the health of all Californians by assuring their access to affordable, high quality care coverage. The mission of the Exchange is to increase the number of insured Californians, improve health care quality, lower costs, and reduce health disparities through an innovative, competitive marketplace that empowers consumers to choose the health plan and providers that give them the best value.

¹ The term "Health Issuer" used in this document refers to both health plans regulated by the California Department of Managed Health Care and insurers regulated by the California Department of Insurance. It also refers to the company issuing health coverage, while the term "Qualified Health Plan" refers to a specific policy or plan to be sold to a consumer that has been certified by the Exchange. Qualified Health Plans may also be referred to as "products". The term "Applicant" refers to a Health Insurance Issuer who is seeking to have its products certified as Qualified Health Plans.

The Exchange is guided by the following values:

- **Consumer-Focused:** At the center of the Exchange's efforts are the people it serves. The Exchange will offer a consumer-friendly experience that is accessible to all Californians, recognizing the diverse cultural, language, economic, educational and health status needs of those it serves.
- **Affordability:** The Exchange will provide affordable health insurance while assuring quality and access.
- **Catalyst:** The Exchange will be a catalyst for change in California's health care system, using its market role to stimulate new strategies for providing high-quality, affordable health care, promoting prevention and wellness, and reducing health disparities.
- **Integrity:** The Exchange will earn the public's trust through its commitment to accountability, responsiveness, transparency, speed, agility, reliability, and cooperation.
- **Transparency:** The Exchange will be fully transparent in its efforts and will make opportunities available to work with consumers, providers, health plans, employers, purchasers, government partners, and other stakeholders to solicit and incorporate feedback into decisions regarding product portfolio and contract requirements.
- **Results:** The impact of the Exchange will be measured by its contributions to decrease the number of uninsured, have meaningful plan and product choice in all regions for consumers, improve access to quality healthcare, promote better health and health equity, and achieve stability in healthcare premiums for all Californians.

In addition to being guided by its mission and values, the Exchange's policies are derived from the federal Affordable Care Act which calls upon Exchanges to advance "plan or coverage benefits and health care provider reimbursement structures" that improve health outcomes. The Exchange seeks to improve the quality of care while moderating cost not only for the individuals enrolled in its plans, but also by being a catalyst for delivery system reform in partnership with plans, providers and consumers. With the Affordable Care Act and the range of insurance market reforms that are in the process of being implemented, the health insurance marketplace is transforming from one that has prioritized profitability through a focus on risk selection, to one that rewards better care, affordability, and prevention.

The Exchange needs to address these issues for the millions of Californians who enroll through the Exchange to get coverage, but it is also part of broader efforts to improve care, improve health, and stabilize rising health care costs throughout the state.

The Exchange must operate within the federal standards in law and regulation. Beyond what is framed by the federal standards, California's legislature shapes the standards and defines how the new marketplace for individual and small group health insurance operates in ways specific to their context. Within the requirements of the minimum

Federal criteria and standards, the Exchange has the responsibility to "certify" the Qualified Health Plans that will be offered in the Exchange.

The state legislation to establish the Exchange gave authority to the Exchange to selectively contract with issuers so as to provide health care coverage options that offer the optimal combination of choice, value, quality, and service, and to establish and use a competitive process to select the participating health issuers.

These concepts, and the inherent trade-offs among the values, must be balanced in the evaluation and selection of the Qualified Health Plans that will be offered in Covered California for Small Business.

This application has been designed consistent with the policies and strategies of the California Health Benefit Exchange Board which calls for the QHP selection to influence the competitiveness of the market, the cost of coverage, and how value is added through health care delivery system improvement.

1.3 Application Evaluation and Selection

The evaluation of QHP Certification Applications will not be based on a single, strict formula; instead, the evaluation will consider the mix of health plans for each region of California that best meet the needs of consumers in that region and the Exchange's goals. The Exchange wants to provide an appropriate range of high quality health plans to participants at the best available price that is balanced with the need for consumer stability and long term affordability. In consideration of the mission and values of the Exchange, the Board of the Exchange articulated guidelines for the selection and oversight of Qualified Health Plans which are used when reviewing the QHP application proposals for 2019. These guidelines are:

Promote affordability for the consumer— both in terms of premium and at point of care

The Exchange seeks to offer health plans, plan designs and provider networks that are as affordable as possible to consumers both in premiums and cost sharing while fostering competition and stable premiums. The Exchange will seek to offer health plans, products, and provider networks that will attract maximum enrollment as part of its effort to lower costs by spreading risk as broadly as possible.

Encourage "Value" Competition Based upon Quality, Service, and Price

While premium will be a key consideration, contracts will be awarded based on the determination of "best value" to the Exchange and its participants. The evaluation of Issuer QHP proposals will focus on quality and service components, including past history of performance, administrative capacity, reported quality and satisfaction metrics, quality improvement plans and commitment to serve the

Exchange population. This commitment to serve the Exchange population is evidenced through general cooperation with the Exchange's operations and contractual requirements which includes, provider network adequacy, cultural and linguistic competency, programs addressing health equity and disparities in care, innovations in delivery system improvements and payment reform. The application responses, in conjunction with the approved filings, will be evaluated by the Exchange and used as part of the selection criteria to offer issuers' products on the Exchange for the 2019 plan year.

Encourage Competition Based upon Meaningful QHP Choice and Product Differentiation: Patient-Centered and Alternate Benefit Plan Designs²

The Exchange is committed to fostering competition by offering QHPs with features that present clear choice, product and provider network differentiation. QHP Applicants are required to adhere to the Exchange's standard benefit plan designs in each region for which they submit a proposal. In addition, QHP Applicants may offer the Exchange's standard Health Savings Account-eligible (HSA) High Deductible Health Plan (HDHP) designs, and Applicants for Covered California for Small Business may propose Alternate Benefit Designs in addition to the standard benefit plan designs. Applicants may choose to offer either or both of the Gold, Silver, and Platinum standard benefit plan designs only if there is differentiation between two plans in the same metal tier that is related to either product, network or both. The Exchange is interested in having HMO, EPO, and PPO products offered statewide. Within a given product design, the Exchange will look for differences in network providers and the use of innovative delivery models. Under such criteria, the Exchange may choose not to contract with two plans with broad overlapping networks within a rating region unless they offer different innovative delivery system or payment reform features.

Encourage Competition throughout the State

The Exchange must be statewide. Issuers must submit QHP proposals in all geographic service areas in which they are licensed, and preference will be given to Issuers that develop QHP proposals that meet quality and service criteria while offering coverage options that provide reasonable access to the geographically underserved areas of the state.

Encourage Alignment with Providers and Delivery Systems that Serve the Low Income Population

Performing effective outreach, enrollment and retention of the low income population that will be eligible for premium tax credits and cost sharing subsidies through the Exchange is central to the Exchange's mission. Responses that demonstrate an ongoing commitment to the low income population or demonstrate a capacity to serve the cultural, linguistic and health care needs of

² The 2019 Patient-Centered Benefit Designs will be finalized when the 2019 federal actuarial value calculator is finalized.

the low income and uninsured populations beyond the minimum requirements adopted by the Exchange will receive additional consideration. Examples of demonstrated commitment include: having a higher proportion of essential community providers to meet the criteria of sufficient geographic distribution, having contracts with Federally Qualified Health Centers, and supporting or investing in providers and networks that have historically served these populations in order to improve service delivery and integration.

Encourage Delivery System Improvement, Effective Prevention Programs and Payment Reform

One of the values of the Exchange is to serve as a catalyst for the improvement of care, prevention and wellness as a way to reduce costs. The Exchange wants QHP offerings that incorporate innovations in delivery system improvement, prevention and wellness and/or payment reform that will help foster these broad goals. This will include models of patient-centered medical homes, targeted quality improvement efforts, participation in community-wide prevention or efforts to increase reporting transparency in order to provide relevant health care comparisons and to increase member engagement in decisions about their course of care.

Demonstrate Administrative Capability and Financial Solvency

The Exchange will review and consider the Applicant's degree of financial risk to avoid potential threats of failure which would have negative implications for continuity of patient care and for the healthcare system as a whole. The Issuer's technology capability is a critical component for success on the Exchange so the Applicant's technology and associated resources are heavily scrutinized as this relates to long term sustainability for consumers. Additionally, in recognition of the significant investment that will continue to be needed in areas of quality reform and improvement programs, the Exchange offered a multi – year contract agreement through the 2017 application. Application responses that demonstrate a commitment to the long-term success of the Exchange's mission are strongly encouraged.

Encourage Robust Customer Service

The Exchange is committed to ensuring a positive consumer experience, which requires Issuers to maintain adequate resources to meet consumers' needs. To successfully serve Exchange consumers, Issuers must invest in and sustain adequate staffing, including hiring of bilingual and bicultural staff as appropriate and maintaining internal training as needed. Issuers demonstrating a commitment to dedicated administrative resources for Exchange consumers will receive additional consideration.

1.4 Availability

The Applicant must be available immediately upon contingent certification of its plans as QHPs to start working with the Exchange to establish all operational procedures necessary to integrate and interface with the Exchange information systems, and to provide additional information necessary for the Exchange to market, enroll members, and provide health plan services effective January 1, 2019. Successful Applicants will also be required to adhere to certain provisions through their contracts with the Exchange, including meeting data interface requirements of the system operated by Pinnacle HCMS. Successful Applicants must execute the QHP Issuer contract before public announcement of contingent certification. The successful Applicants must be ready and able to accept enrollment as of October 1, 2018.

1.5 Application Process

The application process shall consist of the following steps:

- Release of the Final Application;
- Submission of Applicant responses;
- Evaluation of Applicant responses;
- Discussion and negotiation of final contract terms, conditions and premium rates; and
- Execution of contracts with the selected QHP Issuers

1.6 Intention to Submit a Response

Applicants interested in responding to this application must submit a non-binding Letter of Intent to Apply, identifying their proposed products and service areas. Only those Applicants who submit the Letter of Intent will continue to receive application-related correspondence throughout the application process. Eligible Applicants who have responded to the Letter of Intent will be issued a web login for on-line access to the final application, and instructions for use of the login for the QHP Certification Application.

The Applicant's Letter of Intent must identify the contact person for the application process, including his or her email address and telephone number. On receipt of the non-binding Letter of Intent, the Exchange will issue instructions and login and password information to gain access to the online portion(s) of the Application. An Applicant's Letter of Intent will be considered confidential and not available to the public; the Exchange reserves the right to release aggregate information about all Applicants' responses. Final Applicant information is not expected to be released until selected Issuers and QHP proposals are announced. Applicant information will not be released to the public, but may be shared with appropriate regulators as part of the cooperative arrangement between the Exchange and the regulators.

The Exchange will correspond with only one contact person per application. It is the Applicant's responsibility to immediately notify the Application Contact identified in this section, in writing, regarding any revision to the contact information. The Exchange is

not responsible for application correspondence not received by the Applicant if the Applicant fails to notify the Exchange, in writing, of any changes pertaining to the designated contact person.

4 Applicant Health Plan Proposal

4.3 – 4.5 required for currently contracted Applicants. All questions required for new entrant Applicants.

Applicant must submit a health plan proposal in accordance with submission requirements outlined in this section. Applicant's proposal will be required to include at least one of the standard plan designs and use the same provider network for each type of standard plan design in a set of standard plans or insurance policies for specified metal level actuarial values.

In addition to being guided by its mission and values, the Exchange's policies are derived from the Federal Affordable Care Act which calls upon the Exchanges to advance "plan or coverage benefits and health care provider reimbursement structures" that improve health outcomes. The Exchange seeks to improve the quality of care while moderating cost not only for the individuals enrolled in its plans, but also by being a catalyst for delivery system reform in partnership with plans, providers and consumers. With the Affordable Care Act and the range of insurance market reforms that have been implemented, the health insurance marketplace will be transformed from one that has focused on risk selection to achieve profitability to one that will reward better care, affordability and prevention.

Tiered hospital, physician, and pharmacy networks are not permitted. Applicants must agree to adhere to the Exchange's standard benefit plan designs without deviation unless approved by the Exchange.

Plan or Policy Submission Requirements

Applicant must submit a standard set of QHPs including all four metal tiers in its proposed rating regions. The QHPs in the standard set must be one of the 2019 Standard Benefit Plan Designs and cannot vary by metal tier other than by cost sharing and premium. The same provider network must be available for each QHP in the standard set of QHPs. Applicant's proposal must include coverage of its entire licensed geographic service area.

Applicant may submit proposals including the Health Savings Account-eligible High Deductible Health Plan (HDHP) standard design. Health Savings Account-eligible plans may be proposed at the bronze and silver levels in Covered California for Small Business. Additionally, Applicant may submit proposals to offer additional QHPs for consideration, including Alternate Benefit Design proposals. The additional QHP offerings proposed must be differentiated by product or network in order to be considered by the Exchange.

All QHP issuers participating in Covered California for Small Business must offer all QHPs with and without infertility coverage. Infertility riders will not be permitted. Issuers must create two plans, with different Plan IDs, for each QHP offering: one that includes infertility coverage and one that does not include infertility coverage.

4.1 Applicant must certify that its proposal includes a health product offered at all four metal tiers (bronze, silver, gold and platinum) for each individual plan it proposes to offer in a rating region. If not, Applicant's response will be disqualified.

Single, Pull-down list.

- 1: Yes, proposal meets requirements,
- 2: No

4.2 Applicant must confirm it will adhere to Exchange naming conventions for on-Exchange plans and off-Exchange mirror products pursuant to Government Code 100503(f).

Single, Pull-down list.

- 1: Confirmed,
- 2: Not confirmed

4.3 Preliminary Premium Proposals.

Final negotiated and accepted premium proposals shall be in effect for the 12-month period subsequent to the initial effective dates for all employer groups whose initial effective dates are between January 1, 2019 and December 31, 2019. Contracted QHP issuers may choose to make quarterly rate updates for the second, third and fourth quarters by submitting rate updates at least 120 days prior to the quarter begin date. Following applicable regulator rate review, quarterly rate updates shall be in effect for the 12-month period subsequent to the initial effective dates for all employer groups. Premium proposals are considered preliminary and may be subject to negotiation as part of QHP certification and selection. The final negotiated premium amounts must align with the product rate filings that will be submitted to the applicable regulatory agency. Premium proposals will be due July 25, 2018. To submit premium proposals for small group products, QHP Applicants must complete and upload through System for Electronic Rate and Form Filing (SERFF) the Unified Rate Review Template (URRT), Actuarial Memorandum and the Rates Template available at [link to 2019 Rates Table Template]. Premium may vary only by geography (rating region), by age band (within 3:1 range requirement), by coverage tier, and by actuarial value metal level.

Applicant shall provide, in connection with any negotiation process as reasonably requested by the Exchange, detailed documentation on the Exchange-specific rate development methodology.

Applicant shall provide justification, documentation, and support used to determine rate changes, including adequately supported cost projections. Cost projections include factors impacting rate changes, assumptions, transactions and other information that affects the Exchange-specific rate development process. The Exchange may also request information pertaining to the key indicators driving the medical factors on trends in medical, pharmacy or other healthcare provider costs. This information may be necessary to support the assumptions made in forecasting and may be supported by information from the Applicant's actuarial systems pertaining to the Exchange-specific account.

Single, Pull-down list.

- 1: Template will be completed and uploaded,
- 2: Template will not be completed and uploaded

4.4 Applicant must certify that for each rating region in which it submits a health plan proposal, it is submitting a proposal that covers the entire geographic service area for which it is licensed within that rating region. To indicate which zip codes are within the licensed geographic service area by proposed Exchange product, complete and upload through SERFF the Service Area Template located at [link to 2019 Service Area Template].

Single, Pull-down list.

- 1: Yes, health plan proposal covers entire licensed geographic service area; template uploaded,
- 2: No, health plan proposal does not cover entire licensed geographic service area; template uploaded

4.5 Applicants must indicate if requesting changes to licensed geographic service area with applicable regulator, and if so, submit a copy of the applicable exhibit filed with regulator.

Single, Pull-down list.

- 1: Yes, filing service area expansion, exhibit attached,
- 2: Yes, filing service area withdrawal, exhibit attached,
- 3: No, no changes to service area

5 Benefit Design

5.1 – 5.5, 5.8, 5.11, and 5.12 required for currently contracted Applicants. All questions required for new entrant Applicants.

5.1 QHP Applicant must comply with 2019 Patient-Centered Benefit Plan Designs. Applicant must complete and upload through System for Electronic Rate and Form Filing (SERFF) the Plans and Benefits template located at [link to 2019 Plans and Benefits Template]

Single, Pull-down list.

- 1: Confirmed, template submitted,
- 2: Not confirmed, template not submitted

5.2 Are there operational or administrative barriers to implementing the 2019 Patient Centered Benefit Plan designs?

Single, Radio group.

- 1: Yes,
- 2: No

5.3 Applicant must indicate if seeking approval for deviations from the 2019 Patient Centered Benefit Plan Designs. If yes, Applicant must submit Attachment B Patient Centered Benefit Design Deviations to describe the proposed deviations and the rationale for the deviation. Applicants seeking approval of covered benefits that are not essential health benefits without an actuarial value impact must complete Attachment B to request such approval, if the plan design otherwise adheres to the 2019 Standard Benefit Plan Designs.

Single, Pull-down list.

- 1: Yes, attachment submitted to request deviation(s),
- 2: No deviation(s) requested, attachment not submitted

5.4 The Exchange is encouraging the offering of plan products which include all ten Essential Health Benefits, including the pediatric dental Essential Health Benefit. Applicant must indicate if it will adhere to the 2019 Patient Centered Plan Design which includes all ten Essential Health Benefits. Failure to offer a product with all ten Essential Health Benefits will not be grounds for rejection of Applicant's application.

Single, Pull-down list.

- 1: Yes, Covered California for Small Business QHPs proposed for 2019 include all ten Essential Health Benefits,

5.11 Does Applicant determine which of its plans are Medicare Part D Creditable?

Single, Radio group.

1: Yes,

2: No

5.12 In addition to standardized benefit designs, the Applicant may submit up to two (2) alternate benefit designs (ABD) per metal tier for Applicant's licensed geographic service area. Alternate benefit designs are optional. Applicants are not required to offer alternate benefit designs in order to participate in Covered California for Small Business. Alternate benefit designs must comply with state statutory and regulatory requirements. The alternate benefit design offering should incorporate the commission rate guidance utilized for all Covered California for Small Business plans.

Alternate benefit design proposals with preliminary rate information are due June 29, 2018. The Exchange will carefully scrutinize such proposals and may choose not to accept all alternate benefit design proposals if there is no meaningful difference in premium or cost sharing from the standardized benefit plan. Alternate benefit design proposal decisions will be communicated to Applicants by July 10, 2018, contingent upon rate information due July 25, 2018. All contingently accepted alternate benefit designs must be included in proposed rates due for all plans July 25, 2018.

If proposing alternate benefit plan designs, use Attachment G CCSB Alternate Plan Design to submit all cost sharing and other details for proposed alternate benefit plan designs. Provide description of rationale and benefit to members of proposed ABD offer. Include description of the population ABD(s) are meant to benefit. Describe the differences in coverages that are incorporated into the proposed ABD. Complete Attachment G CCSB Alternate Benefit Design to indicate benefits and member cost

sharing design for each alternate benefit plan design you propose. In completing the matrix, Applicant may insert text to:

- Indicate any additional or enhanced benefits relative to the Essential Health Benefits (EHBs)
- Confirm if plans include pediatric dental EHB

Use Attachment H CCSB Alternate Plan Rate Sheet to submit a single preliminary premium for a 40 year old for all plans proposed in all regions. While Applicants are not bound by preliminary rates submitted June 29, the Exchange will make contingent approvals for alternate benefit plan designs based upon these submissions, and shall reserve the right to issue final approvals of alternate benefit designs based upon rates submitted on July 25, 2018. Applicant may not make any changes to its proposed Alternate Benefit Design templates (Attachment G) once submitted to the Exchange without providing prior written notice to the Exchange and only if the Exchange agrees in writing with the proposed changes.

9 Fraud, Waste and Abuse Detection

This section not required if Applicant has completed the Qualified Health Plan Application Plan Year 2019 Individual Marketplace.

9.4.8 and 9.4.17 required for currently contracted Applicants. All questions required for new entrant Applicants.

The Exchange is committed to working with contracted QHP issuers to establish efforts to minimize fraud, waste and abuse. The framework for managing fraud risks is detailed in Appendix O U.S. Government Accountability Office circular GAO-15-593SP. The Exchange expects QHP issuers to adopt leading practices outlined in the framework to the extent applicable. Fraud prevention is centered on integrity and expected behaviors from employees and others. All issuer measures to detect, deter, and prevent fraud before it occurs are vital to all issuer and Exchange operations.

Definitions:

Fraud – Consists of an intentional misrepresentation, deceit, or concealment of a material fact known to the defendant with the intention on the part of the defendant of thereby depriving a person of property or legal rights or otherwise causing injury. (CA Civil Code §3294 (c)(3), CA Penal Code §§470-483.5). Prevention and early detection of fraudulent activities is crucial to ensuring affordable healthcare for all individuals. Examples of fraud include, but not limited to, false applications to obtain payment, false information to obtain insurance, billing for services that were not rendered.

Waste - Intentional or unintentional, extravagant careless or needless expenditures, consumption, mismanagement, use, or squandering of resources, to the detriment or potential detriment of entities, but without an intent to deceive or misrepresent. Waste includes incurring unnecessary costs as a result of inefficient or ineffective practices, systems, decisions, or controls.

Abuse – Excessive, or improper use of something, or the use of something in a manner contrary to the natural or legal rules for its use; the intentional destruction, diversion, manipulation, misapplication, maltreatment, or misuse of resources; or extravagant or excessive use so as to abuse one's position or authority. Often, the terms fraud and abuse are used simultaneously with the primary distinction is the intent. Inappropriate practices that begin as abuse can quickly evolve into fraud. Abuse can occur in financial or non-financial settings. Examples of abuse include, but not limited to, excessive charges, improper billing practices, payment for services that do not meet recognized standards of care and payment for medically unnecessary services.

Audit – A formal process that includes an independent and objective examination of an organization's programs, operations, and records to evaluate and improve the effectiveness of its policies and procedures. The results, conclusions, and findings of an

audit are formally communicated through an audit report delivered to management of the audited entity.

Review – A second inspection and verification of documents for accuracy, validity, and authorization for the purpose of compliance with procedural requirements.

9.1 Prevention

11.3 Applicant must be prepared and able to engage with the Exchange to develop data interfaces between the Issuer's systems and the Exchange's systems, including the eligibility and enrollment system used by the Exchange, as early as May 2018.

Applicant must confirm it will implement system(s) in order to accept and generate Group XML, 834, 999, TA1, 820, Enrollment Reconciliation Files, and other standard format electronic files for enrollment and premium remittance in an accurate, consistent and timely fashion and utilize the information received and transmitted for its intended purpose.

- See Appendix M 834 Companion Guide Design v2.2, Appendix P CCSB 820 Companion Guide Design v2.0, and Appendix Q CCSB Group XML Schema v2.1a for detailed transaction specifications.
- Note: The Exchange requires QHP Issuers to sign an industry-standard agreement which establishes electronic information exchange standards in order to participate in the required systems testing.

Single, Pull-down list.

- 1: Yes, confirmed,
- 2: No, not confirmed

11.4 Applicant must describe its ability and any experience processing and resolving errors identified by the Reconciliation or 999 file as appropriate and in a timely fashion. Applicant must confirm that it has the capability to accept and complete non-electronic enrollment submissions and changes.

Single, Radio group.

- 1: Yes, confirmed: [200 words],
- 2: No, not confirmed: [200 words]

11.5 Applicant must communicate any testing or production changes to system configuration (URL, certification, bank information) to the Exchange in a timely fashion.

Single, Pull-down list.

- 1: Yes, confirmed,
- 2: No, not confirmed

11.6 Applicant must be prepared and able to conduct testing of data interfaces with the Exchange no later than September 1, 2018 and confirms it will plan and implement testing jointly with the Exchange in order to meet system release schedules. Applicant must confirm testing with the Exchange will be under industry security standard: firewall, certification, and fingerprint. Applicant must confirm it will make dedicated, qualified resources available to participate in the connectivity and testing effort.

Single, Pull-down list.

- 1: Yes, confirmed,
- 2: No, not confirmed

11.7 Applicant must describe its ability to produce financial, eligibility, and enrollment data on a monthly basis for the purpose of reconciliation.

200 words.

11.8 Does Applicant proactively monitor and measure system response time and performance processing new enrollment and enrollment changes? Can the Applicant's organization report status on a quarterly basis? Describe below.

Single, Radio group.

- 1: Yes, describe: [100 words],
- 2: No, describe [100 words]

12 Healthcare Evidence Initiative

This section not required if Applicant has completed the Qualified Health Plan Application Plan Year 2019 Individual Marketplace.

12.1 required for currently contracted Applicants. All questions required for new entrant Applicants.

In order to fulfill its mission to ensure that consumers have available the plans that offer the optimal combination of choice, value, quality, and service, the Exchange relies on evidence about the enrollee experience with health care. QHP data submission requirements are an essential component of assessing the quality and value of the coverage and health care received by the Exchange enrollees. The capabilities described in this section are requirements of QHP data submission obligations.

12.1 Applicant must describe any contractual agreements with participating providers that preclude Applicant's organization from making contract terms transparent to plan sponsors and members.

Applicant must confirm that, if contracted as a QHP issuer, to the extent that any Participating Provider's rates are prohibited from disclosure to the Exchange by contract, Applicant shall identify such Participating Provider. Applicant shall, upon renewal of its Provider contract, but in no event later than July 1, 2018, make commercially reasonable efforts to obtain agreement by that Participating Provider to amend such provisions, to allow disclosure. In entering into a new contract with a Participating Provider, Applicant agrees to make commercially reasonable efforts to exclude any contract provisions that would prohibit disclosure of such information to the Exchange (For example, enrollment, medical and prescription claims, and capitation data required by the Exchange's HEI vendor: allowed amounts, charge and charge submitted amounts, coinsurance, copayment and deductible amounts, paid and net payment amounts, patient total out-of-pocket amounts, capitation amounts, etc.).

- What specific steps is Applicant taking to change these contract provisions going forward to make this information accessible?
- List provider groups or facilities for which current contract terms preclude provision of information to plan sponsors.
- List provider groups or facilities for which current contract terms preclude provision of information to members.

Single, Radio group.

1: Confirmed, describe [500 words],

2: Not confirmed, describe [500 words]

12.2 Will Applicant provide the Exchange's HEI Vendor with monthly extracts of all requested detail from applicable fee-for-service (FFS) claims or encounter records for the following claim types? If not, or if yes with deviation, explain. If unable or unwilling to provide all requested detail, elaborate on problematic claim types, estimating the number and percentage of affected claims and encounters.

Claim Type	Response	If No or Yes with deviation, explain.
Professional	<i>Single, Pull-down list.</i> 1: Yes, 2: No	50 words. Nothing required
Institutional	<i>Single, Pull-down list.</i> 1: Yes, 2: No	50 words. Nothing required
Pharmacy	<i>Single, Pull-down list.</i> 1: Yes, 2: No	50 words. Nothing required
Drug (non-Pharmacy)	<i>Single, Pull-down list.</i> 1: Yes, 2: No	50 words. Nothing required
Dental	<i>Single, Pull-down list.</i> 1: Yes, 2: No	50 words. Nothing required
Mental Health	<i>Single, Pull-down list.</i> 1: Yes, 2: No	50 words. Nothing required
Vision	<i>Single, Pull-down list.</i> 1: Yes, 2: No	50 words. Nothing required

12.3 The Exchange is interested in QHP Issuer data that represents the cost of care. Can Applicant provide monthly extracts of complete financial detail for all applicable claims and encounters? If not, or if yes with deviation, explain. If unable or unwilling to provide all requested financial detail, elaborate on problematic data elements, estimating the number and percentage of affected claims and encounters.

Financial Detail to be Provided	Response	If No or Yes with deviation, explain.
Submitted Charges	<i>Single, Pull-down list.</i> 1: Yes, 2: No	50 words. Nothing required
Discount Amount	<i>Single, Pull-down list.</i> 1: Yes, 2: No	50 words. Nothing required
Allowable Charges	<i>Single, Pull-down list.</i> 1: Yes, 2: No	50 words. Nothing required
Copayment	<i>Single, Pull-down list.</i> 1: Yes, 2: No	50 words. Nothing required

Coinsurance	Single, Pull-down list. 1: Yes, 2: No	50 words. Nothing required
Deductibles	Single, Pull-down list. 1: Yes, 2: No	50 words. Nothing required
Coordination of Benefits	Single, Pull-down list. 1: Yes, 2: No	50 words. Nothing required
Plan Paid Amount (Net Payment)	Single, Pull-down list. 1: Yes, 2: No	50 words. Nothing required
Capitation Financials (per Provider / Facility) [1] <i>If a portion of Applicant provider payments are capitated. If capitation does not apply, check “No” and state “Not applicable, no provider payments are capitated” in the rightmost column.</i>	Single, Pull-down list. 1: Yes, 2: No	50 words. Nothing required

12.4 Can Applicant provide member and subscriber IDs assigned by the Exchange on all records submitted? In the absence of other Personally Identifiable Information (PII), these elements are critical for the HEI Vendor to generate unique encrypted member identifiers linking eligibility to claims and encounter data, enabling the HEI Vendor to follow the health care experience of each de-identified member, even if he or she moves from one plan to another. If not, or if yes with deviation, explain. If unable or unwilling to provide all requested detail, elaborate on problematic data elements, estimating the number and percentage of affected enrollments, claims, and encounters.

Detail to be Provided	Response	If No or Yes with deviation, explain.
Covered CA Member ID	Single, Pull-down list. 1: Yes, 2: No	50 words. Nothing required
Covered CA Subscriber ID	Single, Pull-down list. 1: Yes, 2: No	50 words. Nothing required

12.5 Can Applicant supply Protected Health Information (PHI) dates, such as starting date of service, in full year / month / day format to the HEI Vendor for data aggregation? If not, or if yes with deviation, explain. If unable or unwilling to provide all requested detail, elaborate on problematic PHI dates, estimating the number and percentage of affected enrollments, claims, and encounters.

PHI Dates to be Provided in Full Year / Month / Day Format	Response	If No or Yes with deviation, explain.
Member Date of Birth	<i>Single, Pull-down list.</i> 1: Yes, 2: No	50 words. Nothing required
Member Date of Death	<i>Single, Pull-down list.</i> 1: Yes, 2: No	50 words. Nothing required
Starting Date of Service	<i>Single, Pull-down list.</i> 1: Yes, 2: No	50 words. Nothing required
Ending Date of Service	<i>Single, Pull-down list.</i> 1: Yes, 2: No	50 words. Nothing required

12.6 Can Applicant supply all applicable Provider Tax ID Numbers (TINs), National Provider Identifiers (NPIs), and National Council for Prescription Drug Programs (NCPDP) Provider IDs (pharmacy only) for individual providers? If not, or if yes with deviation, explain. If unable or unwilling to provide all requested detail, elaborate on problematic Provider IDs, estimating the number and percentage of affected providers, claims, and encounters.

Provider IDs to be Supplied	Response	If No or Yes with deviation, explain.
TIN	<i>Single, Pull-down list.</i> 1: Yes, 2: Yes, unless values represent individual provider Social Security Numbers, 3: No	50 words. Nothing required
NPI	<i>Single, Pull-down list.</i> 1: Yes, 2: Yes, unless values represent individual provider Social Security Numbers, 3: No	50 words. Nothing required
NCPDP	<i>Single, Pull-down list.</i> 1: Yes, 2: Yes, unless values represent individual provider Social Security Numbers, 3: No	50 words. Nothing required

12.7 Can Applicant provide detailed coding for diagnosis, procedures, etc. on all claims for all data sources? If not, or if yes with deviation, explain. If unable or unwilling to provide all requested coding detail, elaborate on problematic coding, estimating the number and percentage of affected claims and encounters.

Coding to be Provided	Response	If No or Yes with deviation, explain.
Diagnosis Coding	<i>Single, Pull-down list.</i> 1: Yes, 2: No	50 words. Nothing required
Procedure Coding (CPT, HCPCS)	<i>Single, Pull-down list.</i> 1: Yes, 2: No	50 words. Nothing required
Revenue Codes (Facility Only)	<i>Single, Pull-down list.</i> 1: Yes, 2: No	50 words. Nothing required
Place of Service	<i>Single, Pull-down list.</i> 1: Yes, 2: No	50 words. Nothing required
NDC Code (Drug Only)	<i>Single, Pull-down list.</i> 1: Yes, 2: No	50 words. Nothing required

12.8 Can Applicant submit all data directly to the HEI Vendor or is a third party required to submit the data on Applicant's behalf, such as a Pharmacy Benefit Manager (PBM)?

Single, Radio group.

- 1: Yes, describe: [50 words],
- 2: No

12.9 If data must be submitted by a third party, can Applicant guarantee that the same information above will also be submitted by the third party?

Single, Radio group.

- 1: Yes, describe: [50 words],
- 2: No,
- 3: Not Applicable

12.10 Can Applicant submit similar data listed above for other data feeds not yet requested, such as Disease Management or Lab data? If so, please describe.

Single, Radio group.

- 1: Yes, describe: [50 words],
- 2: No

13 Privacy and Security Requirements for Personally Identifiable Data

16.2.1.5 Describe in detail how Applicant ensures access to care for all enrollees. This should include:

- If Applicant assesses geographic access to primary, specialist and hospital care based on enrollee residence, describe tools and brief methodology.
- If Applicant tracks ethnic and racial diversity in the population and ensure access to appropriate culturally competent providers, describe tools and brief methodology.

200 words.

16.2.1.6 Many California residents live in counties bordering other states where the out of state services are closer than in-state services. Does Applicant offer coverage in a California county or region bordering another state?

Single, Radio group.

1: Yes. If yes, does Applicant allow out of state (non-emergency) providers to participate in networks to serve Exchange enrollees?, [Yes/No]

2: No

16.2.1.7 If Applicant answered yes to 16.2.1.6, explain in detail how this coverage is offered.

500 words.

16.2.2 Volume - Outcome Relationship

All questions required for newly proposed networks only. If network has been proposed for products offered in the Individual Exchange, this section is not required for that network.

Numerous studies have demonstrated a significant correlation between volume of procedures performed by providers and facilities and better outcomes for those procedures. This applies to both common but high risk treatments (such as cancer surgeries and cardiac procedures) as well as complicated, rare and highly specialized procedures (such as transplants). Higher volumes, documented experience and proficiency with all aspects of care underlie successful outcomes, including patient selection, anesthesia and postoperative care.

16.2.2.1 Does Applicant track procedure volume per facility for the above mentioned conditions?

Single, Radio group.

1: Yes,

2: No

16.2.2.2 If yes, please provide specific details for each category:

- Methodology for categorizing facilities according to volume-outcome relationship (include description of data sources if applicable).

- Volume thresholds (i.e. at what volume per procedure is a facility considered proficient).

500 words.

16.2.2.3 Does Applicant apply this information to enrollee procedure referral (including Exchange enrollees)?

Single, Radio group.

1: Yes,

2: No

16.2.2.4 If yes to 16.2.2.3, please provide the following details:

- Methodology for patient identification and selection, such as consideration of patient residence, language proficiency.
- Referral procedure for identified patients
- Accommodations for patients not residing in close proximity to a recognized higher volume provider

200 words.

16.2.3 Network Stability

All questions required for existing Exchange networks and newly proposed networks. If network has been proposed for products offered in the Individual Exchange, this section is not required for that network.

16.2.3.1 Total Number of Contracted Hospitals:

Integer.

16.2.3.2 Identify network hospitals terminated between January 1, 2017 and December 31, 2017, including any hospitals that had a break in maintaining a continuous contract during this period. Indicate reason for hospital termination: non-agreement on rates, non-compliance with contract provisions, and redesign of network or other (explain). Applicants with no prior California presence should use out of state experience.

16.3.2 Volume - Outcome Relationship

All questions required for newly proposed networks only. If network has been proposed for products offered in the Individual Exchange, this section is not required for that network.

Numerous studies have demonstrated a significant correlation between volume of procedures performed by providers and facilities and better outcomes for those procedures. This applies to both common but high risk treatments (such as cancer surgeries and cardiac procedures) as well as complicated, rare and highly specialized procedures (such as transplants). Higher volumes, documented experience and proficiency with all aspects of care underlie successful outcomes, including patient selection, anesthesia and postoperative care.

16.3.2.1 Does Applicant track procedure volume per facility for the above mentioned conditions?

Single, Radio group.

1: Yes,

2: No

16.3.2.2 If yes, please provide specific details for each category:

- Methodology for categorizing facilities according to volume-outcome relationship (include description of data sources if applicable)
- Volume thresholds (i.e. at what volume per procedure is a facility considered proficient)

500 words.

16.3.2.3 Does Applicant apply this information to enrollee procedure referral (including Exchange enrollees)?

Single, Radio group.

1: Yes,

2: No

16.3.2.4 If yes, please provide the following details:

- Methodology for patient identification and selection, such as consideration of patient residence, language proficiency
- Referral procedure for identified patients
- Accommodations for patients not residing in close proximity to a recognized higher volume provider

16.5.1.6 Many California residents live in counties bordering other states where the out of state services are closer than in-state services. Does Applicant offer coverage in a California county or region bordering another state?

Single, Radio group.

1: Yes. If yes, does Applicant allow out of state (non-emergency) providers to participate in networks to serve Exchange enrollees? [Yes/No]

2: No

16.5.1.7 If Applicant answered yes to 16.5.1.6, explain in detail how this coverage is offered.

500 words.

16.5.2 Volume - Outcome Relationship

All questions required for newly proposed networks only. If network has been proposed for products offered in the Individual Exchange, this section is not required for that network.

Numerous studies have demonstrated a significant correlation between volume of procedures performed by providers and facilities and better outcomes for those procedures. This applies to both common but high risk treatments (such as cancer surgeries and cardiac procedures) as well as complicated, rare and highly specialized procedures (such as transplants). Higher volumes, documented experience and proficiency with all aspects of care underlie successful outcomes, including patient selection, anesthesia and postoperative care.

16.5.2.1 Does Applicant track procedure volume per facility for the above mentioned conditions?

Single, Radio group.

1: Yes,

2: No

16.5.2.2 If yes, please provide specific details for each category:

- Methodology for categorizing facilities according to volume-outcome relationship (include description of data sources if applicable)
- Volume thresholds (i.e. at what volume per procedure is a facility considered proficient)

500 words.

16.5.2.3 Does Applicant apply this information to enrollee procedure referral (including Exchange enrollees)?

Single, Radio group.

- 1: Yes,
- 2: No

16.5.2.4 If yes, please provide the following details:

- Methodology for patient identification and selection, such as consideration of patient residence, language proficiency.
- Referral procedure for identified patients
- Accommodations for patients not residing in close proximity to a recognized higher volume provider

17 Essential Community Providers

Required for new entrant Applicants.

17.1 Applicant must demonstrate that its QHP proposals meet requirements for geographic sufficiency of its Essential Community Provider (ECP) network. The Exchange will use the provider network data submission to assess Applicant's ECP network. All of the below criteria must be met.

1. Applicants must demonstrate sufficient geographic distribution of a mix of essential community providers reasonably distributed throughout the geographic service area; **AND**
2. Applicants must demonstrate contracts with at least 15% of 340B entities (where available) throughout each rating region in the proposed geographic service area; **AND**
3. Applicants must include at least one ECP hospital (including but not limited to 340B hospitals, Disproportionate Share Hospitals, critical access hospitals, academic medical centers, county and children's hospitals) per each county in the proposed geographic service area - where they are available.

The Exchange will evaluate the application of all three criteria to determine whether Applicant's essential community provider network has achieved the sufficient geographic distribution and balance between hospital and non-hospital requirements. The above are the minimum requirements. For example, in populous counties, one ECP hospital will not suffice if there are concentrations of low-income population throughout the county that are not served by a single contracted ECP hospital.

Federal regulations currently require health issuers to adhere to rules regarding payment to non-contracted FQHCs for services when those services are covered by the QHP's benefit plan. Certified QHPs will be required, in their contract with the Exchange, to operate in compliance with all federal regulations issued pursuant to the Affordable Care Act, including those applicable to essential community providers.

Essential Community Providers include those providers posted in the Covered California Consolidated Essential Community Provider List available at:

<http://hbex.coveredca.com/stakeholders/plan-management/>

The Exchange will calculate the percentage of contracted 340B entities located in each rating region of the proposed geographic service area. All 340B entity service sites shall be counted in the denominator, in accordance with the most recent version of Covered California's Consolidated ECP list

Categories of Essential Community Providers:

Essential Community Providers include the following:

1. The Center for Medicare & Medicaid Services (CMS) non-exhaustive list of available 340B providers in the PHS Act and section 1927(c)(1)(D)(i)(IV) of the Social Security Act.

2. Facilities listed on the California Disproportionate Share Hospital Program, Final DSH Eligibility List FY 2013-2014
3. Federally designated 638 Tribal Health Programs and Title V Urban Indian Health Programs
4. Community Clinics or health centers licensed as either “community clinic” or “free clinic”, by the State of California under Health and Safety Code section 1204(a), or operating as a community clinic or free clinic exempt from licensure under Section 1206
5. Physician Providers with approved applications for the HI-TECH Medi-Cal Electronic Health Record Incentive Program
6. Federally Qualified Health Centers (FQHCs)

Low-income is defined as a family at or below 200% of Federal Poverty Level. The ECP data supplied by the Applicant will allow the Exchange to plot contracted ECPs on maps to compare contracted providers against the supply of ECPs and the distribution of low-income Covered California enrollees.

Alternate standard:

QHP issuers that provide a majority of covered professional services through physicians employed by the issuer or through a single contracted medical group may request to be evaluated under the “alternate standard.” The alternate standard requires a QHP issuer to have a sufficient number and geographic distribution of employed providers and hospital facilities, or providers of its contracted integrated medical group and hospital facilities to ensure reasonable and timely access for low-income, medically underserved individuals in the QHP’s service area, in accordance with the Exchange’s network adequacy standards.

To evaluate an Applicant’s request for consideration under the alternate standard, please submit a written description of the following:

1. Percent of services received by Applicant’s members which are rendered by Issuer’s employed providers or single contracted medical group; **AND**
2. Degree of capitation Issuer holds in its contracts with participating providers. What percent of provider services are at risk under capitation; **AND**
3. How Issuer’s network is designed to ensure reasonable and timely access for low-income, medically underserved individuals; **AND**
4. Efforts Issuer will undertake to measure how/if low-income, medically underserved individuals are accessing needed health care services (e.g. maps of low-income members relative to 30-minute drive time to providers; survey of low-income members experience such as CAHPS “getting needed care” survey).

If existing provider capacity does not meet the above criteria, the Applicant may be required to provide additional contracted or out-of-network care. Applicants are encouraged to consider contracting with identified ECPs in order to provide reasonable and timely access for low-income, medically underserved communities.

Single, Pull-down list.

- 1: Requesting consideration of alternate standard, explanation attached,
- 2: Not requesting consideration under the alternate standard

18 Quality

This section not required if Applicant has completed the Qualified Health Plan Application Plan Year 2019 Individual Marketplace.

The Exchange’s “Triple Aim” framework seeks to (1) improve the patient care experience including quality and satisfaction, (2) improve the health of the entire California population, and (3) reduce the per capita cost of covered services. The Quality and Delivery System Reform standards outlined in the QHP Issuer Contract describe the ways the Exchange and contracted health plans will focus on the promotion of better care and higher value for plan enrollees and other California health care consumers. This section of the application assesses the Applicant’s current and future capacity to work with the Exchange to achieve these aims.

18.1 Accreditation

All questions required for new entrant Applicants.

Applicant must be accredited by one of the following bodies: (1) Utilization Review Accreditation Commission (URAC); (2) National Committee on Quality Assurance (NCQA); (3) Accreditation Association for Ambulatory Health Care (AAAHC). The following questions will be used to assess the Applicant’s current accreditation status of its product(s) as well as any recognition or accreditation of other health programs and activities (e.g. case management, wellness promotion, etc.).

18.1.1 Applicant is responding for the following products for reporting accreditation status.

18.2 Focus on High Cost Providers

Required for currently contracted Applicants and new entrant Applicants.

Affordability is core to the Exchange's mission to expand the availability of insurance coverage and promoting the Triple Aim. The wide variation in unit price and total costs of care charged by providers, with some providers charging far more for care irrespective of quality, is a significant contributor to high costs of medical services. In this section, Applicants will be assessed on the extent to which there are activities in place to assess variation, and prevent undue high prices.

18.2.1 Describe the Applicant's efforts to understand price variation and strategies to ensure providers and hospitals do not charge undue high costs. Specifically address the following in the response:

- The factors Applicant considers in assessing the relative unit prices and total costs of care
- The extent to which Applicant adjusts or analyzes the reasons for cost factors
- How cost factors are used in the selection of Providers and facilities in networks available to Enrollees
- Whether Applicant conducts cost analyses of its hospital networks, e.g. identifying specific hospitals with cost deciles and calculating percentage of costs expended in each cost decile
- Comment on potential collaboration opportunities, new statewide or regional initiatives, or other activities that would strengthen this delivery system reform aim to improve affordability.

500 words.

18.3 Demonstrating Action on High Cost Pharmaceuticals

All questions required for new entrant Applicants.

Appropriate treatment with pharmaceuticals is often the best clinical strategy to treating conditions, as well as managing chronic and life threatening conditions. At the same time, the Exchange is concerned with the trend in rising prescription drug costs, including those in specialty pharmacy, and compounding increases in costs of generic drugs, which are a growing driver of total cost of care. In this section, Applicants will be assessed on the extent to which value is considered in the construction of formularies and delivery of pharmacy services.

18.3.1 Describe Applicant's approach to achieving value in the delivery of pharmacy services and controlling drug costs as a percent of the total cost of care. Specifically address the following in the response:

- How Applicant considers value in its selection of medications for use in its formulary
- Indicate whether a value assessment methodology, such as the Drug Effectiveness Review Project (DERP) or ICER Value Assessment Framework (ICER-VF), or other independent reports are used by the Applicant, and if so, how they are used to improve the value of pharmacy services.
- How decisions to select drugs and place them on tiers within the formulary are based on total cost of care rather than on drug cost alone
- How Applicant monitors off-label use of pharmaceuticals and what efforts are undertaken to assure any off-label prescriptions are evidence-based
- How Applicant provides decision support for prescribers and consumers related to the clinical efficacy and cost impact of treatments and their alternatives
- Comment on potential collaboration opportunities, new statewide or regional initiatives, or other activities that would strengthen this delivery system reform aim to improve affordability and value.

500 words.

18.4 Participation in Collaborative Quality Initiatives

Questions required for new entrant Applicants only.

The Exchange believes that improving health care quality and reducing costs can only be done over the long-term through collaborative efforts that effectively engage and support clinicians and other providers of care. There are many established statewide and national collaborative initiatives for quality improvement that are aligned with priorities established by the Exchange, most notably Smart Care California, which engages participants representing a number of sectors within health care to tackle the issue of overuse and promote best practices. The following questions address the Applicant's current involvement in collaborative efforts. Applicants will be assessed based on the breadth and depth of their involvement.

18.4.1 Describe how Applicant is measuring overuse of C-sections, opioids, and low back pain imaging, and if it is aligning with Smart Care California guidelines to promote best practices of care in these areas..

100 words.

18.4.2 Identify key collaboratives and organizations in which the Applicant is engaged. "Engagement" is defined as active participation through regular meeting attendance,

health plan representatives serving as advisory members, submitting data to the collaborative, and/or providing feedback on initiatives and projects.

100 words.

18.5 Data Exchange with Providers

All questions required for new entrant Applicants.

To be successful under Exchange Quality Improvement Strategy (QIS) requirements, and in order to improve the quality of care and successfully manage costs, successful Applicants will need to encourage enhanced exchange of clinical data between providers. Participation in Health Information Exchanges (HIE) will enable notification of physicians when their patients are admitted to the hospital and allow contracted plans to track, trend and improve performance on conditions such as hypertension or diabetes control. In this section, Applicants will be assessed on the extent to which clinical data exchange is occurring, plans to improve data exchange, and current participation in regional and statewide initiatives to improve data exchange.

18.5.1 Describe Applicant's efforts to improve routine exchange of clinical data across specialties and institutional boundaries and between health plans and contracted providers. Specifically address the following:

- The extent to which data, other than claims information, is exchanged between providers and Applicant and the proportion of providers in the network that currently submit non-claims data (clinical, demographic, etc.) to Applicant or other providers
- Initiatives in place to improve routine exchange of data to improve the quality of care, such as notifying providers of hospital admissions, collecting clinical data to supplement annual HEDIS data collection, and race/ethnicity self-reported identity
- Participation in initiatives to support the aggregation of claims and clinical data
- Comment on potential collaboration opportunities, new statewide or regional initiatives, or other activities that would strengthen this delivery system reform aim to improve quality and manage costs through data exchange.

500 words.

18.6 Data Aggregation Across Health Plans

All questions required for new entrant Applicants.

The Exchange recognizes the importance of aggregating data across purchasers and payers to more accurately understand the performance of providers that have contracts with multiple health plans. Such aggregated data reflecting a larger portion of a provider, group or facility's practice can potentially be used to support performance improvement, contracting and public reporting. In this section, Applicants will be

assessed on the extent to which the Applicant is engaging with other payers and stakeholders to support aggregation.

18.6.1 Describe Applicant's efforts to support aggregation of claims and other information across payers. Specifically address how Applicant is engaged with the following:

- Integrated Health Association (IHA) for Medical Groups: P4P, Encounter Data Initiative, Provider Directory
- CalHospitalCompare

500 words.

18.7 Mental and Behavioral Health Management

All questions required for currently contracted Applicants and new entrant Applicants.

The Exchange recognizes the critical importance of Mental and Behavioral Health Services as part of the broader set of medical services provided to enrollees. Answers will be evaluated based on the degree of integration and accessibility relative to industry trends and market innovations.

18.7.1 Describe Applicant's strategies to improve accessibility of mental and behavioral health services and further integrate mental and behavioral health with medical services. Specifically address the following:

- Efforts to improve the availability of services, such as changes in benefits management, networks, contracting with accountable care organizations, etc.
- Strategies to improve the integration of mental and behavioral health services and medical services, and a description of any recommended models or best practices integrating these services. Indicate whether these efforts are implemented in association with PCMH and IHM models.
- Percent of services provided under an integrated behavioral health-medical model in both its Exchange business (if Applicant had Exchange business in 2018) and total book of business.
- Comment on any highly innovative models in California or nationwide and potential collaborative opportunities to adopt these models on a larger scale.

500 words.

18.8 Health Technology (Telehealth and Remote Monitoring)

All questions required for currently contracted Applicants and new entrant Applicants.

The Exchange supports the innovative use of technology to assist in higher quality, accessible, patient-centered care. The following questions address the Applicant’s adoption and use of health technology, and answers will be evaluated based on the Applicant’s capacity for telehealth and remote monitoring relative to industry trends.

18.8.1 Provide information regarding Applicant’s capabilities to support physician-member consultations using technology (e.g., web consultations, telemedicine). In the third and fourth columns, select the books of business and product to which the answer applies to provide meaningful reference points to compare with current or future Exchange business. Applicant will be evaluated based on the availability of telehealth services for all books of business, particularly Exchange membership (if Applicant is not currently contracted with the Exchange, select “1” if the service would be offered to Exchange members, and include a description in the details section).

Note that Applicants selecting “Plan does not offer or allow web or telehealth consultations” will not complete the responses for all rows and columns in this question.

Details limited to 100 words.

18.9 Health and Wellness

18.9.10 – 18.9.12 required for currently contracted Applicants and new entrant Applicants.

The Exchange recognizes that access to care, timely preventive care, coordination of care, and early identification of high risk enrollees are central to the improvement of enrollee health. The following questions address Applicant’s ability to track the health and wellness of enrollees and identify enrollees for preventive care and interventions. Answers will be evaluated based on the degree to which health and wellness data is tracked on membership and used to coordinate care.

18.9.1 Report selected measures below for the two most recently calculated years of HEDIS results for the HMO Applicant (QC 2017 and 2016). **Colorectal Cancer Screening was eligible for rotation in HEDIS 2015.**

If Applicant did not report a certain measure to Quality Compass (QC), or NCQA chose to exclude a certain value, instead of a rate, QC may have codes such as NR (not

reported), EXC (Excluded), etc. To reflect this result in a numeric form for uploading, the following coding was devised: -1 means 'NR', -2 means 'NA', -3 means 'ND', -4 means 'EXC', and -5 means 'NB'.

	HMO QC 2017	QC 2016, or prior year's HMO QC result
Breast Cancer Screening - Total	<i>Percent.</i> From -10 to 100.	<i>Percent.</i> From -10 to 100.
Cervical Cancer Screening	<i>Percent.</i> From -10 to 100.	<i>Percent.</i> From -10 to 100.
Colorectal Cancer Screening	<i>Percent.</i> From -10 to 100.	<i>Percent.</i> From -10 to 100.

18.9.2 Report the selected measures below for the two most recently calculated years of HEDIS results for the PPO Applicant (QC 2017 and 2016). **Colorectal Cancer Screening was eligible for rotation in HEDIS 2015.**

If Applicant did not report a certain measure to Quality Compass (QC), or NCQA chose to exclude a certain value, instead of a rate, QC may have codes such as NR (not reported), EXC (Excluded), etc. To reflect this result in a numeric form for uploading, the following coding was devised: -1 means 'NR', -2 means 'NA', -3 means 'ND', -4 means 'EXC', and -5 means 'NB'.

	PPO QC 2017	PPO QC 2016, or prior year's PPO QC result
Breast Cancer Screening - Total	<i>Percent.</i> From -10 to 100.	<i>Percent.</i> From -10 to 100.
Cervical Cancer Screening	<i>Percent.</i> From -10 to 100.	<i>Percent.</i> From -10 to 100.
Colorectal Cancer Screening	<i>Percent.</i> From -10 to 100.	<i>Percent.</i> From -10 to 100.

18.9.3 Report selected measures below for the two most recently calculated years of HEDIS results for the EPO Applicant (QC 2017 and 2016). **Colorectal Cancer Screening was eligible for rotation in HEDIS 2015.**

If Applicant did not report a certain measure to Quality Compass (QC), or NCQA chose to exclude a certain value, instead of a rate, QC may have codes such as NR (not reported), EXC (Excluded), etc. To reflect this result in a numeric form for uploading, the following coding was devised: -1 means 'NR', -2 means 'NA', -3 means 'ND', -4 means 'EXC', and -5 means 'NB'.

	EPO QC 2017	EPO QC 2016, or prior year's EPO QC result
Breast Cancer Screening - Total	<i>Percent.</i> From -10 to 100.	<i>Percent.</i> From -10 to 100.
Cervical Cancer Screening	<i>Percent.</i> From -10 to 100.	<i>Percent.</i> From -10 to 100.
Colorectal Cancer Screening	<i>Percent.</i> From -10 to 100.	<i>Percent.</i> From -10 to 100.

18.9.4 Which of the following member interventions were used by Applicant in calendar year 2017 to improve cancer screening rates? Indicate all that apply.

	Educational messages identifying screening options discussing risks and benefits	Member-specific reminders (electronic or written, etc.) sent to members for needed care based on general eligibility (age/gender)	Member-specific reminders for gaps in services based on administrative or clinical information (mail, e-mail/text, automated phone or live outbound telephone calls triggered by the ABSENCE of a service)
Breast Cancer Screening	<i>Single, Radio group.</i> 1: Yes, 2: No	<i>Single, Radio group.</i> 1: Available to > 75% of members, 2: Available to < 75% of members, 3: Not Available	<i>Single, Radio group.</i> 1: Available to > 75% of members, 2: Available to < 75% of members, 3: Not Available

18.9.13 Indicate activities and capabilities supporting the Applicant's Health Assessment (HA) programming (formerly known as Health Risk Assessment-HRA or Personal Health Assessment-PHA). Check all that apply.

Multi, Checkboxes.

- 1: HA Accessibility: Both online and in print,
- 2: HA Accessibility: IVR (interactive voice recognition system),

- 3: HA Accessibility: Telephone interview with live person,
- 4: HA Accessibility: Multiple language offerings,
- 5: HA Accessibility: HA offered at initial enrollment,
- 6: HA Accessibility: HA offered on a regular basis to members,
- 7: Addressing At-risk Behaviors: At point of HA response, risk-factor education is provided to member based on member-specific risk, e.g. at point of "smoking-yes" response, tobacco cessation education is provided as pop-up.,
- 8: Addressing At-risk Behaviors: Personalized HA report is generated after HA completion that provides member-specific risk modification actions based on responses,
- 9: Addressing At-risk Behaviors: Members are directed to targeted interactive intervention module for behavior change upon HA completion.,
- 10: Addressing At-risk Behaviors: Ongoing push messaging for self-care based on member's HA results ("Push messaging" is defined as an information system capability that generates regular e-mail or health information to the member).,
- 11: Addressing At-risk Behaviors: Member is automatically enrolled into a disease management or at-risk program based on responses,
- 12: Addressing At-risk Behaviors: Case manager or health coach outreach call triggered based on HA results,
- 13: Addressing At-risk Behaviors: Member can elect to have HA results sent electronically to personal physician,
- 14: Addressing At-risk Behaviors: Member can update responses and track against previous responses,
- 15: Tracking health status: HA responses incorporated into member health record.,
- 16: Tracking health status: HA responses tracked over time to observe changes in health status.,
- 17: Tracking health status: HA responses used for comparative analysis of health status across geographic regions.,
- 18: Tracking health status: HA responses used for comparative analysis of health status across demographics.,
- 19: Partnering with Employers: Employer receives trending report comparing current aggregate results to previous aggregate results,
- 20: Partnering with Employers: Health plan can import data from employer-contracted HA vendor.,
- 21: Applicant does not offer an HA

18.9.14 Provide the number of currently enrolled commercial and Exchange members who completed a Health Assessment (HA) in the past year.

18.9.15 Does Applicant collect information, at both individual and aggregate levels, on changes in Enrollees' health status? Please describe Applicant's process to monitor and track changes in Enrollees' health status, which may include its process for identifying individuals who show a decline in health status, and referral of such Enrollees to care management and chronic condition program(s). Include in the answer how many members, across all lines of business, have been identified through the process and referred to care management, chronic condition program(s), or other services as a result of a change in health status.

100 words.

18.10 Community Health and Wellness Promotion

All questions required for currently contracted Applicants and new entrant Applicants.

The Exchange recognizes that promoting better health for Enrollees also requires engagement and promotion of community-wide initiatives that foster better health, healthier environments, and the promotion of healthy behaviors across the community. The following question addresses the Applicant's activities to promote better community health, and answers will be evaluated based on the degree to which the Applicant's programs are external-facing (i.e. the activity or program has an expected impact on community health, rather than solely for the Applicant's members).

18.10.1 Provide a description of the external-facing initiatives, programs and projects Applicant supports to promote better community health, and how such programs specifically address health disparities or efforts to improve community health apart from the health delivery system. Examples include California State Innovation Model (CalSIM), Health in All Policies (HIAP), The California Endowment Healthy Communities, and Beach Cities Health District. Please note the definition of external-facing provided in the previous paragraph and include any evaluation results of the activity or program, if available.

500 words

18.11 At-Risk Enrollees

18.11.7 required for currently contracted Applicants and new entrant Applicants..

The Exchange recognizes that identifying and proactively managing at-risk Enrollees, defined as individuals with existing and newly diagnosed chronic conditions, such as diabetes, heart disease, asthma, hypertension, or a medically complex condition, serves to better coordinate care, which improves outcomes and lowers costs. The following questions assess Applicant’s ability to track and manage these enrollees, and responses will be evaluated on Applicant’s use of data and interventions to proactively manage enrollees as well as the thoroughness of the response.

18.11.1 How does Applicant identify at-risk enrollees who would benefit from early, proactive interventions? Describe the categories used, sources of data, and any predictive analytic capabilities.

100 words.

18.11.2 For Exchange business, please provide (1) the number of members aged 18 and above in first row, (2) the number of members aged 18 and above identified under Applicant’s criteria for at-risk enrollees eligible for case management in the second row. If Applicant does not currently have Exchange business, report on all lines of business excluding Medicare.

	Number of members as specified in rows 1, and 2	Indicate if intervention is offered to at-risk enrollees in this state/region	Number of members 18 years and above in this state/market receiving intervention (if plan offers intervention but does not track participation, enter NA)	Is intervention a standard or buy-up option (Cost of Intervention)	Auto-calculated % of at-risk enrollee eligibles who received intervention
Number of members aged 18 and above in this state or market	<i>Decimal.</i>				

Using Applicant's definition, provide number of members 18 and above who are at-risk enrollees	<i>Decimal.</i>				
--	-----------------	--	--	--	--

18.11.3 Describe outreach/interventions used to ensure at risk enrollees get needed care. Please note if any of the strategies below are used:

- Member-specific reminders for due or overdue clinical/diagnostic maintenance services and/or medication events (failure to refill for example)
- Online interactive self-management support. "Online self-management support" is an intervention that includes two-way electronic communication between the Plan and the member
- Self-initiated text/email
- Interactive IVR
- Live outbound telephonic coaching program
- Face to face visits

18.11.4 Describe Applicant's process for keeping and updating a medical history of at-risk enrollees in the Applicant's maintained enrollee health profile.

65 words.

18.11.5 Does Applicant share registries of enrollees with their identified risk, as permitted by state and federal law, with appropriate accountable providers, especially the enrollee's PCP. If yes, please describe.

Single, Radio group.

1: Yes, describe: [65 words],

2: No

18.11.6 Describe the mechanisms to evaluate access within the provider network on an ongoing basis, to ensure that an adequate network is in place to support a proactive intervention and care management program for at-risk enrollees.

100 words.

18.11.7 Please describe ability to gather, categorize, and package current information on at risk enrollees in case applicant is requested to transfer to other Exchange health plans to facilitate a smooth transition of care.

100 words.

19 Covered California Quality Improvement Strategy (QIS)

This section not required if Applicant has completed the Qualified Health Plan Application Plan Year 2019 Individual Marketplace.

All questions required for currently contracted Applicants and new entrant Applicants.

The Patient Protection and Affordable Care Act (§1311 (g) (1)) requires periodic reporting to the Exchange of activities a contracted health plan has conducted to implement a strategy for quality improvement. This strategy is defined as a multi-year improvement strategy that includes a payment structure that provides increased reimbursement or other incentives for improving health outcomes, preventing readmissions, improving patient safety, wellness and health promotion activities, or reduction of health and health care disparities. Per the final rule issued by the Centers for Medicare and Medicaid Services (CMS) on May 27, 2014, issuers must implement and report on a quality improvement strategy or strategies consistent with the standard of section 1311(g) of the ACA.

Attachment 7 of the Covered California Qualified Health Plan (QHP) Issuer Contract embodies the Exchange's vision for reform and serves as a roadmap to delivery system improvements. Beginning with the 2017 QHP Issuer Contract, QHP issuers have been engaged in supporting existing quality improvement initiatives and programs that are sponsored by other major purchasers including the Department of Health Care Services (DHCS), the California Public Employees' Retirement System (CalPERS), the Pacific Business Group on Health (PBGH), and CMS. These requirements are reflected in the 2017 contract and will be in all successive contracts through 2019. Certification and participation in the Exchange will be conditional on the Issuer developing a multi-year strategy and reporting year-to-year activities and progress on each initiative area.

The Covered California Quality Improvement Strategy (QIS) meets federal requirements for State-based Marketplaces (SBMs) and also serves as the foundational improvement plan and progress report for certification and contractual requirements. All Issuers, both those previously contracted with the Exchange as well as new entrants, are required to complete the QIS as part of the Application process. Reporting is divided into two parts:

- Issuer information
- Implementation plans and progress reports for the Quality Improvement Strategy (QIS) for Covered California Quality and Delivery System Reform:
 - Provider Networks Based on Quality
 - Reducing Health Disparities and Assuring Health Equity
 - Promoting Development and Use of Care Models - Primary Care
 - Promoting Development and Use of Care Models - Integrated Healthcare Models (IHM)
 - Appropriate Use of C-Sections
 - Hospital Patient Safety

- o Patient-Centered Information and Support

Currently Contracted Issuers: The QIS will be evaluated by the Exchange as part of the annual application for recertification and final approval by the Exchange may require follow-up meetings or documentation as necessary. Currently-contracted QHP Issuers applying for the 2019 Plan Year Issuers may submit an update to the QIS submitted in the Plan Year 2018 Application; however, please note new questions for reporting progress on the initiative area. For Issuers contracted with the Exchange in 2017, answers to these questions will be used to assess performance guarantees for Plan Year 2019.

19.1 Issuer Information

19.1.1 Complete this section and designate one contact for medical management and one contact for network management.

19.2 Implementation Plans and Progress Reports for the Quality Improvement Strategy (QIS) for Covered California Quality and Delivery System Reform

19.2.1 QIS for Provider Networks Based on Quality

Federal QIS Topic Area: Activities to improve patient safety and reduce medical errors
2017 QHP Issuer Contract, Section 1.02

Goal for end of 2019: The Issuer should have 1) clear network quality criteria that is used to screen both providers and hospitals for inclusion in network, and 2) possible removal of outliers based on inability to meet quality criteria and/or lack of effort toward improvement.

19.2.1.1: Please describe updates in Applicant's ability to build networks based on quality since the last QIS submission. The narrative should include:

- All quality measures and criteria used to develop 1) provider networks, and 2) hospital networks. Include patient safety and patient-reported experience (noting any measures that are new).
- Please explain the assessment process, source of quality assessment data, specific measures and metrics, and thresholds for inclusion and exclusion in the network.
- If applicable, describe which criteria are prioritized above other criteria to determine the provider network.
- Describe if Centers of Excellence are included in network, and if so the basis for inclusion. Also note if they are promoted among members and if utilization is tracked.
- Progress in 2017 toward the end goal and any further implementation plans for 2018.
- Known or anticipated barriers.

1000 words.

19.2.2 QIS for Reducing Health Disparities and Ensuring Health Equity

Federal QIS Topic Area: Activities to reduce health and health care disparities.
2017 QHP Issuer Contract, Section 3.01 and 3.02

Goal for end of 2019: 1) Reach 80% of Exchange members self-reporting their race/ethnicity, 2) collect, track trend, and demonstrate improvement in reduction of health disparities in management of diabetes, asthma, hypertension, and depression.

19.2.2.1: Provide the percent of Exchange members for whom self-reported data is captured for race/ethnicity in Attachment E QIS Run Charts. If Issuer does not currently have Exchange business, report on all lines of business excluding Medicare. Self-identification may take place through the enrollment application, web site registration, health assessment, reported at provider site, etc. Enter the percentage reported in the Certification Applications for 2017 and 2018 as well.

19.2.2.2: Describe updates on progress made since the last QIS submission, and planned activities to achieve Applicant's aims. Issuer may submit the progress report or any supporting documentation as an attachment if desired. Please include as applicable:

- Updates in in efforts to increase self-reported race/ethnic information including whether there are barriers to self-report.

- Update whether the Rand proxy method using geocoding and surname is used to supplement self-report.
- Updates in ability to compile, track and trend data for understanding disparity gaps in the four key disease areas.
- Planning/implementation of interventions to reduce known disparity gaps.
- Development of market-based incentives to reduce disparities and assure health equity.
- Progress in 2017 toward the end goal and any further implementation plans for 2018.
- Known or anticipated barriers in implementing QIS activities and describe mitigation activities.

19.2.3 QIS for Promoting Development and Use of Care Models – Primary Care

Federal QIS Topic Area: Activities for improving health outcomes

2017 QHP Issuer Contract, Sections 4.01 and 4.02

Goal for end of 2019: 1) Continue to match at least 95% of enrollees with a primary care physician 2) increase proportion of providers paid under a payment strategy that promotes advanced primary care.

19.2.3.1 Report, by product, the percentage of members by product in Applicant's Exchange business who either selected a Personal Care Physician (PCP) or were matched with a Personal Care Physician in 2017 in Attachment E QIS Run Charts. If Applicant had no Exchange business in 2017, report full book of business excluding Medicare. Enter the percentage reported in the certification Applications for 2017 and 2018 as well. Report data by product (HMO, PPO, EPO).

19.2.5 QIS for Appropriate Use of C-Sections

Federal QIS Topic Area: Activities for improving health outcomes

2017 QHP Applicant Contract, Section 5.03

Goal for end of 2019: Adjust network hospital payment strategies so that no hospital has a financial incentive to perform a non-medically necessary NTSV C-section by end of 2019.

19.2.5.1 Report number of all network hospitals reporting to the California Maternity Quality Care Collaborative's (CMQCC) Maternal Data Center (MDC) in Attachment E QIS Run Charts. A list of all California hospitals participating in the MDC can be found here:

19.2.5.3 Describe updates on progress made since the last QIS submission with regards to promoting appropriate use of C-Sections. Applicant may submit the progress report or any supporting documentation as an attachment if desired. Please include in the narrative if applicable:

- Updates to hospital participation in CMQC and/or to hospital engagement in maternity care quality improvement, particularly those with an NTSV rate higher than 23.9
- Hospitals that have newly achieved a NTSV C-section rate of 23.9% or less by year-end 2019, or have achieved improvement in NTSV rates.
- Updates as to how MTSV C-section rate or other maternal safety factors are considered in maternity hospital network.
- Collaborations with other Exchange Issuers on approaching hospitals to suggest CMQCC involvement and/or alignment on a payment strategy to not incentivize non-medically necessary C-Sections.

- List any known or anticipated barriers in implementing QIS activities and describe mitigation activities.

19.2.6 QIS for Hospital Patient Safety

Federal QIS Topic Area: Activities to improve patient safety and reduce medical errors
2017 QHP Applicant Contract, Section 5.01 and 5.02

Goal for end of 2019: Adjust hospital payment strategy so that 2% of payments are tied to value by the end of 2019. (Note: Trajectory will continue with the goal of 6% of total hospital payments tied to value by the end of 2023.)

19.2.6.1 Report, across all lines of business, the percentage of hospital reimbursement at risk for quality performance and the quality indicators used in Attachment E QIS Run Charts. In the details section of the spreadsheet, describe the model used to put payment at risk, and note if more than one model is used. "Quality performance" includes any number or combination of indicators, including HACs, readmissions, patient satisfaction, etc. In the same sheet, report quality indicators used to assess quality performance. Enter the percentages reported in the certification Applications for 2017 and 2018 as well.
