19. Covered California Quality Improvement Strategy (QIS) - INSTRUCTIONS FOR DATA TEMPLATE

Section 19.2 of the QIS requires applicants to submit data for each initiative area. Some questions can be completed within the application in Proposal Tech while others require completion using this reporting template.

Each sheet corresponds with a question from the QIS and can be linked using the number on the tab. Some questions require separate reporting by product. The cell(s) requiring a data point are outlined in **bold dark red**. If data are not available for any of these questions, click the box below the table and provide an explanation in the details box. Please report best available data and information including new payment strategies. Data or strategies not available by the due date for the Certification Application for 2019 shall be reported by the end of the third quarter of 2018.

Please do not adjust the formatting or settings of the table and charts. This reporting template will be used in future years to track progress on Attachment 7 requirements.

The answers provided in this template are used to measure progress on the multi-year strategy outlined in Attachment 7. Applicants that have contracted with the Exchange in the two previous years (2016 and 2017) shall include data from prior years in this template.
