Certification Application Qualified Dental Plan Small Business Marketplace Plan Year 2028 – DRAFT - REDLINE

1 Application Overview

1.1 Purpose

The California Health Benefit Exchange (Covered California) is accepting applications from eligible Dental Issuers (Applicants or Dental Applicants) to submit proposals to offer, market, and sell Qualified Dental Plans (QDPs) through Covered California, beginning in 2027~~6~~ for coverage effective January 1, 2028~~7~~. All Dental Issuers currently licensed at the time of application response submission are eligible to apply for certification of proposed Qualified Dental Plans (QDPs) for Plan Year 2028~~7~~. Covered California will exercise its statutory authority to selectively contract for health care coverage offered through Covered California for Plan Year 2028~~7~~. Covered California reserves the right to select or reject any Applicant or to cancel this Application at any time.

1.2 Background

Soon after the passage of national health care reform through the Patient Protection and Affordable Care Act of 2010 (ACA), California enacted legislation to establish a qualified health benefit exchange (California Government Code § 100500 et seq). The California state law is referred to as the California Patient Protection and Affordable Care Act (CA-ACA).

Covered California offers a statewide health insurance exchange to make it easier for individuals to compare plans and buy health insurance in the private market. Although the focus of Covered California is on individuals who qualify for tax credits and subsidies under the ACA, Covered California's goal is to make insurance available to all qualified individuals. The vision of Covered California is to improve the health of all Californians by assuring their access to affordable, high quality care coverage. The mission of Covered California is to increase the number of insured Californians, improve health care quality, lower costs, and reduce health disparities through an innovative, competitive marketplace that empowers consumers to choose the health plan and providers that give them the best value.

Covered California is guided by the following values:

Consumer-Focused: At the center of Covered California's efforts are the people it serves. Covered California will offer a consumer-friendly experience that is accessible to all Californians, recognizing the diverse cultural, language, economic, educational and health status needs of those it serves.

Affordability: Covered California will provide affordable health insurance while assuring quality and access.

Catalyst: Covered California will be a catalyst for change in California's health care system, using its market role to stimulate new strategies for providing high-quality, affordable health care, promoting prevention and wellness, and reducing health disparities.

Integrity: Covered California will earn the public's trust through its commitment to accountability, responsiveness, transparency, speed, agility, reliability, and cooperation.

Transparency: Covered California will be fully transparent in its efforts and will make opportunities available to work with consumers, providers, health plans, employers, purchasers, government partners, and other stakeholders to solicit and incorporate feedback into decisions regarding product portfolio and contract requirements.

Commitment: Covered California values partners who demonstrate sustained commitment to California consumers and to the strength and stability of the marketplace.

Results: The impact of Covered California will be measured by its contributions to decrease the number of uninsured, have meaningful plan and product choice in all regions for consumers,

improve access to quality healthcare, promote better health and health equity, and achieve stability in healthcare premiums for all Californians.

In addition to being guided by its mission and values, Covered California's policies are derived from the federal ACA which calls upon Exchanges to advance “plan or coverage benefits and health care provider reimbursement structures” that improve health outcomes. Covered California seeks to improve the quality of care while moderating cost not only for the individuals enrolled in its plans, but also by being a catalyst for delivery system reform in partnership with plans, providers, and consumers. With the Affordable Care Act and the range of insurance market reforms that are in the process of being implemented, the health insurance marketplace is transforming from one that has prioritized profitability through a focus on risk selection, to one that rewards better care, affordability, and prevention.

Covered California needs to address these issues for the millions of Californians who enroll through Covered California to get coverage, but it is also part of broader efforts to improve care, improve health, and stabilize rising health care costs throughout the state.

Covered California must operate within the federal standards in law and regulation. Beyond what is framed by the federal standards, California's legislature shapes the standards and defines how the new marketplace for individual and small group health insurance operates in ways specific to their context. Within the requirements of the minimum Federal criteria and standards, Covered California has the responsibility to “certify” the Qualified Dental Plans that will be offered in Covered California.

The state legislation to establish Covered California gave authority to Covered California to selectively contract with Issuers to provide health care coverage options that offer the optimal combination of choice, value, quality, and service, and to establish and use a competitive process to select the participating health Issuers. To this end, Covered California only certifies those Applicants who demonstrate a clear value proposition to its consumers, both in terms of quality and price; in addition, QDPs already operating on the Exchange must maintain performance that meets or exceeds established benchmarks or risk being removed from the Exchange.

These concepts, and the inherent trade-offs among Covered California values, must be balanced in the evaluation and selection of the Qualified Dental Plans (QDPs) that will be offered on the Individual Exchange.

This application has been designed consistent with the policies and strategies of the California Health Benefit Exchange Board which calls for the QDP selection to influence the competitiveness of the market, the cost of coverage, and how value is added through health care delivery system improvement.

1.3 Application Evaluation and Selection

The evaluation of QDP Certification Applications will not be based on a single, strict formula; instead, the evaluation will consider the mix of dental plans for each region of California that best meet the needs of consumers in that region and Covered California's goals. Covered California wants to provide an appropriate range of high-quality health and dental plans to participants at the best available price that is balanced with the need for consumer stability and long-term affordability. In consideration of the mission and values of Covered California, the Board of Covered California articulated guidelines for the selection and oversight of Qualified Dental Plans which are used when reviewing the Applications. These guidelines are:

Promote Affordability and Value for the Consumer- Both Premiums and at Point of Care

Certification Application Qualified Dental Plan Small Business Marketplace Plan Year 2028 – **DRAFT - REDLINE**

While premiums will be a key consideration, contracts will be awarded based on the determination of "best value" to Covered California and its participants. Covered California seeks to offer dental plans, plan designs and provider networks that are as affordable as possible to consumers both in premiums and cost sharing, while fostering competition and stable premiums. Covered California will seek to offer dental plans, products, and provider networks that will attract maximum enrollment as part of its effort to lower costs by spreading risk as broadly as possible.

Encourage Competition Based upon Quality

The evaluation of Applicants QDP proposals will focus on quality and service components, including history of performance, administrative capacity, reported quality and satisfaction metrics, quality improvement plans and commitment to serve Covered California's population. The application responses, in conjunction with the approved filings, will be evaluated by Covered California and used as part of the selection criteria to offer Applicant's products on Covered California for the certification year.

Encourage Competition Based upon the Populations Served

Performing effective outreach, enrollment and retention of the low-income population that will be eligible through Covered California is central to Covered California's mission. Responses that demonstrate an ongoing commitment to the low-income population or demonstrate a capacity to serve the cultural, linguistic and health care needs of the low-income and uninsured populations beyond the minimum requirements adopted by Covered California will receive additional consideration. Examples of demonstrated commitment include having a higher proportion of essential community providers to meet the criteria of sufficient geographic distribution, having contracts with Federally Qualified Health Centers, and supporting or investing in providers and networks that have historically serviced these populations to improve service delivery and integration. This commitment to serve Covered California's population is evidenced through general cooperation with Covered California's operations and contractual requirements which include provider network adequacy, quality improvement, cultural and linguistic competency, programs addressing health equity and disparities in care, innovations in delivery system improvements, and payment reform.

Encourage Competition Based upon Meaningful QDP Choice and Product Differentiation: Patient-Centered Benefit Plan Designs¹

Covered California is committed to fostering competition by offering QDPs with features that present clear choice, product, and provider network differentiation. QDP Applicants are required to adhere to Covered California's standard benefit plan designs in each region for which they submit a proposal. Covered California is interested in having Health Maintenance Organization (HMO), Preferred Provider Organization (PPO), and other products offered statewide. Within a given product design, Covered California will look for differences in network providers and the use of innovative delivery models. Under such criteria, Covered California may choose not to contract with two plans which have broad overlapping networks within a rating region - unless they offer different innovative delivery system or payment reform features.

Encourage Competition throughout the State

¹ The certification year Patient-Centered Benefit Plan Designs will be finalized when the certification year federal actuarial calculator is finalized.

Certification Application Qualified Dental Plan Small Business Marketplace Plan Year 2028 – **DRAFT - REDLINE**

Applicants must submit QDP proposals in all geographic service areas in which they are licensed and have an adequate network. Preference will be given to Applicants that develop QDP proposals that meet quality and service criteria while offering coverage options that provide reasonable access to the geographically underserved areas of the state.

Encourage Delivery System Improvement, Effective Prevention Programs and Payment Reform

One of the values of Covered California is to serve as a catalyst for the improvement of care, prevention, and wellness, in order to reduce costs. Covered California encourages QDP offerings that incorporate innovations in delivery system improvement, prevention, and wellness, and/or payment reform that will help foster these broad goals. This will include models of primary care dentists, targeted quality improvement efforts, participation in community-wide prevention, or efforts to increase reporting transparency to provide relevant health care comparisons and to increase member engagement in decisions about their course of care.

Demonstrate Administrative Capability and Financial Solvency

Covered California will review and consider Applicant's degree of financial risk to avoid potential threats of failure which would have negative implications for continuity of patient care and for the healthcare system. Applicant's technology capability is a critical component for success on Covered California, so Applicant's technology and associated resources are heavily scrutinized as this relates to long term sustainability for consumers. Application responses that demonstrate commitment to the long-term success of Covered California's mission are strongly encouraged.

Encourage Robust Customer Service

Covered California is committed to ensuring a positive consumer experience, which requires Applicants to maintain adequate resources to meet consumers' needs. To successfully serve Covered California consumers, Applicants must invest in and sustain adequate staffing, including hiring of bilingual and bicultural staff as appropriate and maintaining internal training as needed. Applicants demonstrating a commitment to dedicated administrative resources for Covered California consumers will receive additional consideration.

Ensure QDPs Offer Stable Products and Provider Networks that Support Consumer Confidence and Peace of Mind

Covered California is committed to offering QDPs that provide consumers with reliable, predictable coverage and continuity of care over time. Covered California will review and consider an Applicant's demonstrated commitment to the market and history of stability across pricing, geographic footprint, product offerings, and provider networks; approach to minimizing disruption resulting from provider, service-area, or product changes; strategies to support continuity of care; and ability to ensure adequate access. Applicants should demonstrate the administrative, operational, and financial capacity to sustain a long-term market presence, deliver consistent service, and fulfill contractual obligations. Together, these commitments strengthen consumer confidence and provide individuals and families with peace of mind when selecting and using their QDP.

Certification Application Qualified Dental Plan Small Business Marketplace Plan Year 2028 – DRAFT - REDLINE

Applicant must be available immediately upon contingent certification of their plans as QDPs to start working with Covered California to establish all operational procedures necessary to integrate and interface with Covered California information systems, and to provide additional information necessary for Covered California to market, enroll members, and provide dental plan services effective January 1, 202~~8~~⁷. Successful Applicants will also be required to adhere to certain provisions through their contracts with Covered California, including meeting data interface requirements with the Covered California for Small Business Enrollment System. Successful Applicants must execute the QDP Issuer Contract before public announcement of contingent certification. Failure to execute the QDP Issuer Contract may preclude Applicant from offering QDPs through Covered California. The successful Applicants must be ready and able to accept enrollment as of October 1, 202~~7~~⁶.

1.5 Application Process

The application process shall consist of the following steps:

- Completion of Letter of Intent to Apply
- Release of the Final Application
- Submission of Applicant responses
- Evaluation of Applicant responses
- Discussion and negotiation of final contract terms, conditions, and premium rates
- Execution of contracts with the selected QDP Issuers

1.6 Intention to Submit a Response

Applicants interested in responding to this application must submit a non-binding Letter of Intent to Apply, identifying their proposed products and service areas. Only those Applicants who submit the Letter of Intent will receive application-related correspondence throughout the application process. Eligible Applicants who have responded to the Letter of Intent will be issued a login and instructions for online access to the final Application.

Applicant's Letter of Intent must identify the contact person for the application process, including their email address and telephone number. On receipt of the Letter of Intent, Covered California will issue instructions and a password to gain access to the online Application. A Letter of Intent will be considered confidential and not available to the public. However, Covered California reserves the right to release aggregate information about all Applicants' responses. Final Applicant information is not expected to be released until the selected Issuers and QDPs are announced. Applicant information will not be released to the public but may be shared with appropriate regulators as part of the cooperative arrangement between Covered California and the regulators.

Covered California will correspond with only one (1) contact person per Application. It is Applicant's responsibility to immediately notify the Application Contact identified in this section, in writing, regarding any revision to the contact information. Covered California is not responsible for application correspondence not received by Applicant if Applicant fails to notify Covered California, in writing, of any changes pertaining to the designated contact person.

To fulfill its mission to ensure that consumers have available the plans that offer the optimal combination of choice, value, quality, and service, Covered California relies on evidence about the enrollee experience with health care. The timely and accurate submission of QDP data is an essential component of assessing the quality and value of the coverage and health care received by Covered California for Small Business Enrollees. QDP Issuers are required by state law to submit data described by this section. The file layout which details current expectations of requested data is available for review on the Manage Documents page as Appendix F_QDP-IND-CCSB_HEI Extract File Specs. Covered California will consider modifications to the layout when appropriate.

The data elements required to be submitted pursuant to this application, and to the resulting QDP Issuer contract, will include the personal information of enrollees and Applicant's proprietary rate information. Covered California will, and is required by law, to protect and maintain the confidentiality of this information, which shall at all times be subject to the same stringent 350-plus security and privacy-related requirements as other personal information within Covered California's custody or control.

13.1 Applicant must provide Covered California, through its Covered California's HEI Vendor, with monthly extracts of all requested detail from applicable claims or encounter records for the following types (both On-Exchange and non-grandfathered Off-Exchange). Responses must address whether and the extent to which Applicant is able to provide data for ALL utilization, including patient encounters with capitated providers who may not need to submit such data to the Applicant for reimbursement. If yes with deviation, explain. If unable to provide all requested detail as outlined in Appendix F_QDP-IND-CCSB_HEI Extract File Specs, provide a plan and timeline to correct problematic detail and estimate the number and percentage of affected claims and encounters.

13.2 State law requires QDP Issuers to submit to Covered California data that represents the cost of care. Applicant must provide monthly extracts of complete financial detail for all applicable claims and encounters (both On-Exchange and non-grandfathered Off-Exchange). If yes with deviation, explain. If unable to provide all requested financial detail as outlined in Appendix F_QDP-IND-CCSB_HEI Extract File Specs, provide a plan and timeline to correct problematic data elements and estimate the number and percentage of affected claims and encounters.

14 Dental Plan Proposal

All questions are required for all Applicants. All questions should be answered at the Issuer level, not at the product level.

Applicant must submit a dental plan proposal in accordance with all requirements outlined in this section. In addition to being guided by its mission and values, Covered California’s policies are derived from the Federal Affordable Care Act which calls upon the Exchanges to advance “plan or coverage benefits and health care provider reimbursement structures” that improve health outcomes. Covered California seeks to improve the quality of care while moderating cost directly for the individuals enrolled in its plans, and indirectly by being a catalyst for delivery system reform in partnership with plans, providers, and consumers. With the Affordable Care Act and the range of insurance market reforms that have been implemented, the health insurance marketplace will be

transformed from one that has focused on risk selection to achieve profitability to one that will reward better care, affordability, and prevention. Applicant may submit proposals to offer both a Children's Dental Plan and a Family Dental Plan. Applicant may submit [Dental Preferred Provider Organization \(DPPO\)](#), [Dental Exclusive Provider Organization \(DEPO\)](#), and [Dental Health Maintenance Organization \(DHMO\)](#) product proposals in its proposed rating regions. Applicant's proposal must include coverage of its entire licensed geographic service area for which it has an adequate network. Applicant may not submit a proposal that includes a tiered network. Applicants must adhere to Covered California's standard benefit plan designs and the requirements in this section without deviation unless approved by Covered California.

14.1 Applicant must confirm its dental product proposal includes the pediatric dental Essential Health Benefit, for each individual plan it proposes to offer in a rating region. If not, Applicant's response will be disqualified from consideration.

14.3 Final negotiated and accepted premium rates shall be in effect for coverage effective January 1, 2028⁸⁷. Premium proposals must be submitted in accordance with the Certification Application Submission Guidelines instructions and due date(s). Submission instructions for proposals are subject to change and will be communicated to the Applicants. Premium proposals are considered preliminary and may be subject to negotiation as part of QDP certification and selection. The final negotiated premium rates must align with the product rate filings that will be submitted to the applicable regulatory agency. Premium may vary only by geography (rating region), by age, and by actuarial value.

Dental plan premiums for adults 21 and over will be additive and calculated on a per member basis. The same rate must be charged for adults 19 years and older. The single adult rate will be assessed for each adult in the plan. The same rate must be charged for children aged 0 - 18. The single child rate will be multiplied by two for a policy covering two children and by three for policies covering more than two children. Individuals ages 19 and 20 will be assessed the single adult rate and only for purposes of summing total family premium will be considered as children when limiting the total family premium to no more than the three oldest covered children's premiums together with covered adult premiums.

Applicant shall provide, in connection with any negotiation process as reasonably requested by Covered California, detailed documentation on Covered California-specific rate development methodology. Applicant shall provide justification, documentation, and support used to determine rate changes, including adequately supported cost projections. Cost projections include factors impacting rate changes, assumptions, transactions, and other information that affects Covered California-specific rate development process. This information may be necessary to support the assumptions made in forecasting and may be supported by information from Applicant's actuarial systems pertaining to Covered California-specific account.

17 Essential Community Providers (ECP)

This section not required if Applicant has completed the Certification Application Qualified Dental Plan Individual Marketplace Plan Year 2028~~7~~.

All questions are required for ~~allnew-entrant~~ Applicants. All questions should be answered at the Issuer level, not at the product level.

17.1 Applicant must confirm that its QDP proposals meet requirements for geographic sufficiency of its Essential Community Provider (ECP) network. All the criteria below must be met:-

- Applicants must ~~complete and submit theuse~~ Essential Community Provider Network Data Submission to indicate contracts with all providers designated as ECP.
- Applicants must demonstrate sufficient geographic distribution of a mix of essential community providers reasonably distributed throughout the geographic service area(s).

Covered California will evaluate whether Applicant's ~~ECP essential community provider~~ network has achieved the sufficient geographic distribution and requirements.

Federal regulations currently require health issuers to adhere to rules regarding payment to non-contracted Federally Qualified Health Centers (FQHC) for services when those services are covered by the QDP's benefit plan. Dental Issuers will be required in their contract with Covered California to operate in compliance with all federal regulations issued pursuant to the Affordable Care Act, including those applicable to essential community providers.

Essential Community Providers include dental providers included in the Covered California Consolidated Essential Community Provider List available at:

<http://hbex.coveredca.com/stakeholders/plan-management/ecp-list/>

Low-income is defined as a family at or below 200% of Federal Poverty Level. The ECP data supplied by Applicant will allow Covered California to plot contracted ECPs on maps to compare contracted providers against the supply of ECPs and the distribution of low-income Covered California Enrollees.

- 1: Confirmed,
- 2: Not confirmed

20.4.1.3 Applicant must complete Attachment N_QDP-IND-CCSB_QIP Summary Report to describe a Quality Improvement Program (QIP) conducted by Applicant within the last measurement year. Quality Improvement (QI) is the process of undertaking systematic actions to significantly improve the structures and processes related to the delivery of dental care services, with the ultimate goal of enhancing overall health outcomes. Applicant's QIP will be assessed on the degree to which it achieves optimizing provider network management, improving member access to oral care, ensuring high standards of care by enhancing care coordination, promoting preventive services, and maintaining continuity of care. Include measures, baseline data, and results of the QIP, why the QIP was undertaken and why it ended or has continued, if applicable. Describe the QIP scalability and share best practices if it was successful.
