Certification Application Qualified Health Plan Covered California for Small Business Marketplace Plan Year 2023

1 Application Overview

1.1 Purpose

The California Health Benefit Exchange (Covered California) is accepting applications from eligible Health Insurance Issuers-(Applicants or Health Issuer) to submit proposals to offer, market, and sell Qualified Health Plans (QHPs) through Covered California beginning in 2021, for coverage effective January 1, 2023. All Health Insurance Issuers currently licensed at the time of application response submission are eligible to apply for certification of proposed Qualified Health Plans (QHPs) for Plan Year 2023. Covered California will exercise its statutory authority to selectively contract for health care coverage offered through Covered California for Plan Year 2023. Covered California reserves the right to select or reject any Applicant or to cancel this Application at any time.

1.2 Background

Soon after the passage of national health care reform through the Patient Protection and Affordable Care Act of 2010 (ACA), California enacted legislation to establish a qualified health benefit exchange. (California Government Code § 100500 et seq.) The California state law is referred to as the California Patient Protection and Affordable Care Act (CA-ACA).

Covered California offers a statewide health insurance exchange to make it easier for individuals to compare plans and buy health insurance in the private market. Although the focus of Covered California is on individuals who qualify for tax credits and subsidies under the ACA, Covered California's goal is to make insurance available to all qualified individuals. The vision of Covered California is to improve the health of all Californians by assuring their access to affordable, high quality care coverage. The mission of Covered California is to increase the number of insured Californians, improve health care quality, lower costs, and reduce health disparities through an innovative, competitive marketplace that empowers consumers to choose the health plan and providers that give them the best value.

Covered California is guided by the following values:

Consumer-Focused: At the center of Covered California's efforts are the people it serves. Covered California will offer a consumer-friendly experience that is accessible to all Californians, recognizing the diverse cultural, language, economic, educational and health status needs of those it serves.

Affordability: Covered California will provide affordable health insurance while assuring quality and access.

Catalyst: Covered California will be a catalyst for change in California's health care system, using its market role to stimulate new strategies for providing high-quality, affordable health care, promoting prevention and wellness, and reducing health disparities.

Integrity: Covered California will earn the public's trust through its commitment to accountability, responsiveness, transparency, speed, agility, reliability, and cooperation.

Certification Application Qualified Health Plan Covered California for Small Business Marketplace Plan Year 2023

Transparency: Covered California will be fully transparent in its efforts and will make opportunities available to work with consumers, providers, health plans, employers, purchasers, government partners, and other stakeholders to solicit and incorporate feedback into decisions regarding product portfolio and contract requirements.

Results: The impact of Covered California will be measured by its contributions to decrease the number of uninsured, have meaningful plan and product choice in all regions for consumers, improve access to quality healthcare, promote better health and health equity, and achieve stability in healthcare premiums for all Californians.

In addition to being guided by its mission and values, Covered California's policies are derived from the federal ACA which calls upon Exchanges to advance "plan or coverage benefits and health care provider reimbursement structures" that improve health outcomes. Covered California seeks to improve the quality of care while moderating cost not only for the individuals enrolled in its plans, but also by being a catalyst for delivery system reform in partnership with plans, providers, and consumers. With the Affordable Care Act and the range of insurance market reforms that are in the process of being implemented, the health insurance marketplace is transforming from one that has prioritized profitability through a focus on risk selection, to one that rewards better care, affordability, and prevention.

Covered California needs to address these issues for the millions of Californians who enroll through Covered California to get coverage, but it is also part of broader efforts to improve care, improve health, and stabilize rising health care costs throughout the state.

Covered California must operate within the federal standards in law and regulation. Beyond what is framed by the federal standards, California's legislature shapes the standards and defines how the new marketplace for individual and small group health insurance operates in ways specific to their context. Within the requirements of the minimum Federal criteria and standards, Covered California has the responsibility to "certify" the Qualified Health Plans that will be offered in Covered California.

The state legislation to establish Covered California gave authority to Covered California to selectively contract with Issuers to provide health care coverage options that offer the optimal combination of choice, value, quality, and service, and to establish and use a competitive process to select the participating health Issuers.

These concepts, and the inherent trade-offs among Covered California values, must be balanced in the evaluation and selection of the Qualified Health Plans (QHPs) that will be offered in Covered California for Small Business.

This application has been designed consistent with the policies and strategies of the California Health Benefit Exchange Board which calls for the QHP selection to influence the competitiveness of the market, the cost of coverage, and how value is added through health care delivery system improvement.

1.3 Application Evaluation and Selection

The evaluation of QHP Certification Applications will not be based on a single, strict formula; instead, the evaluation will consider the mix of health plans for each region of California that best meet the needs of consumers in that region and Covered California's goals. Covered California wants to provide an appropriate range of high-quality health plans to participants at the best available price that is balanced

Certification Application Qualified Health Plan Covered California for Small Business Marketplace Plan Year 2023

with the need for consumer stability and long-term affordability. In consideration of the mission and values of Covered California, the Board of Covered California articulated guidelines for the selection and oversight of Qualified Health Plans which are used when reviewing the Applications. These guidelines are:

Promote Affordability for the Consumer- Both in Premiums and at Point of Care

Covered California seeks to offer health plans, plan designs and provider networks that are as affordable as possible to consumers both in premiums and cost sharing while fostering competition and stable premiums. Covered California will seek to offer health plans, products, and provider networks that will attract maximum enrollment as part of its effort to lower costs by spreading risk as broadly as possible.

Encourage "Value" Competition Based upon Quality, Service, and Price

While premiums will be a key consideration, contracts will be awarded based on the determination of "best value" to Covered California and its participants. The evaluation of Issuer QHP proposals will focus on quality and service components, including history of performance, administrative capacity, reported quality and satisfaction metrics, quality improvement plans and commitment to serve Covered California population. This commitment to serve Covered California population is evidenced through general cooperation with Covered California's operations and contractual requirements which include provider network adequacy, cultural and linguistic competency, programs addressing health equity and disparities in care, innovations in delivery system improvements and payment reform. The application responses, in conjunction with the approved filings, will be evaluated by Covered California and used as part of the selection criteria to offer Issuers' products on Covered California for the certification year.

Encourage Competition Based upon Meaningful QHP Choice and Product Differentiation: Patient-Centered and Alternate Benefit Plan Designs¹

Covered California is committed to fostering competition by offering QHPs with features that present clear choice, product, and provider network differentiation. QHP Applicants are required to adhere to Covered California's standard benefit plan designs in each region for which they submit a proposal. In addition, QHP Applicants may offer Covered California's standard Health Savings Account-eligible (HSA) High Deductible Health Plan (HDHP) designs, and Applicants for Covered California for Small Business may propose Alternate Benefit Designs in addition to the standard benefit plan designs. Applicants may choose to offer either or both Gold and Platinum standard benefit plan designs if there is differentiation between two plans in the same metal tier that is related to either product, network or both or an additional benefit explained. Covered California is interested in having Health Maintenance Organization (HMO), Exclusive Provider Organization (EPO), Preferred Provider Organization (PPO), and Other products offered statewide. Within a given product design, Covered California will look for differences in network providers and the use of innovative delivery models. Under such criteria, Covered California may choose not to contract with two plans with broad overlapping networks within a rating region unless they offer different innovative delivery system or payment reform features.

¹ The certification year Patient-Centered Benefit Plan Designs will be finalized when the federal actuarial calculator is finalized.

Encourage Competition throughout the State

Covered California must be statewide. Issuers must submit QHP proposals in all geographic service areas in which they are licensed and have an adequate network, and preference will be given to Issuers that develop QHP proposals that meet quality and service criteria while offering coverage options that provide reasonable access to the geographically underserved areas of the state.

Encourage Alignment with Providers and Delivery Systems that Serve the Low-Income Population

Performing effective outreach, enrollment, and retention of the low-income population that will be eligible for premium tax credits and cost sharing subsidies through Covered California is central to Covered California's mission. Responses that demonstrate an ongoing commitment to the low-income population or demonstrate a capacity to serve the cultural, linguistic and health care needs of the low-income and uninsured populations beyond the minimum requirements adopted by Covered California will receive additional consideration. Examples of demonstrated commitment include having a higher proportion of essential community providers to meet the criteria of sufficient geographic distribution, having contracts with Federally Qualified Health Centers, and supporting or investing in providers and networks that have historically served these populations to improve service delivery and integration.

Encourage Delivery System Improvement, Effective Prevention Programs and Payment Reform

One of the values of Covered California is to serve as a catalyst for the improvement of care, prevention, and wellness to reduce costs. Covered California encourages QHP offerings that incorporate innovations in delivery system improvement, prevention, and wellness and/or payment reform that will help foster these broad goals. This will include models of patient-centered medical homes, targeted quality improvement efforts, participation in community-wide prevention or efforts to increase reporting transparency to provide relevant health care comparisons and to increase member engagement in decisions about their course of care.

Demonstrate Administrative Capability and Financial Solvency

Covered California will review and consider Applicant's degree of financial risk to avoid potential threats of failure which would have negative implications for continuity of patient care and for the healthcare system. Applicant's technology capability is a critical component for success with Covered California, so Applicant's technology and associated resources are heavily scrutinized as this relates to long-term sustainability for consumers. Application responses that demonstrate a commitment to the long-term success of Covered California's mission are strongly encouraged.

Encourage Robust Customer Service

Covered California is committed to ensuring a positive consumer experience, which requires Issuers to maintain adequate resources to meet consumers' needs. To successfully serve Covered California consumers, Issuers must invest in and sustain adequate staffing, including hiring of bilingual and bicultural staff as appropriate and maintaining internal training as needed.

Certification Application Qualified Health Plan Covered California for Small Business Marketplace Plan Year 2023

Issuers demonstrating a commitment to dedicated administrative resources for Covered California consumers will receive additional consideration.

1.4 Availability

Applicant must be available immediately upon contingent certification of its plans as QHPs to start working with Covered California to establish all operational procedures necessary to integrate and interface with Covered California information systems, and to provide additional information necessary for Covered California to market, enroll members, and provide health plan services effective January 1, 2023. Successful Applicants will also be required to adhere to certain provisions through their contracts with Covered California, including meeting data interface requirements of the system operated by the enrollment vendor. Successful Applicants must execute the QHP Issuer Contract before public announcement of contingent certification. Failure to execute the QHP Issuer Contract may preclude Applicant from offering QHPs through Covered California. The successful Applicants must be ready and able to accept enrollment as of October 1, 2022.

1.5 Application Process

The application process shall consist of the following steps:

- Completion of Letter of Intent to Apply;
- Release of the Final Application;
- Submission of Applicant responses;
- Evaluation of Applicant responses;
- Discussion and negotiation of final contract terms, conditions, and premium rates; and
- Execution of contracts with the selected QHP Issuers

1.6 Intention to Submit a Response

Applicants interested in responding to this application must submit a non-binding Letter of Intent to Apply, identifying their proposed products and service areas. Only those Applicants who submit the Letter of Intent will receive application-related correspondence throughout the application process. Eligible Applicants who have responded to the Letter of Intent will be issued a web login and instructions for online access to the final Application.

Applicant's Letter of Intent must identify the contact person for the application process, that includes an email address and telephone number. On receipt of the Letter of Intent, Covered California will issue instructions to gain access to the online Application. A Letter of Intent will be considered confidential and not available to the public. However, Covered California reserves the right to release aggregate information about all Applicants' responses. Final Applicant information is not expected to be released until the selected Issuers and QHPs are announced. Applicant information will not be released to the public but may be shared with appropriate regulators as part of the cooperative arrangement between Covered California and the regulators.

Covered California will correspond with only one (1) contact person per Application. It is Applicant's responsibility to immediately notify the Application Contact identified in this section, in writing, regarding any revision to the contact information. Covered California is not responsible for application

9 Fraud, Waste and Abuse Detection

This section not required if Applicant has completed the Qualified Health Plan Application Plan Year 2023 Individual Marketplace.

All questions required for all Applicants. All questions are required for all Applicants. All questions should be answered at the Issuer level, not product level.

Covered California is committed to working with its QHP Issuers to minimize Fraud, Waste and Abuse, as defined in Section 21 - Glossary. The framework for managing fraud risks is detailed in Appendix A - U.S. Government Accountability Office circular GAO-15-593SP (located on the Manage Documents page). Covered California expects QHP Issuers to adopt leading practices outlined in the framework to the extent applicable. Fraud prevention is centered on integrity and expected behaviors from employees and others. All measures to detect, deter, and prevent fraud before it occurs are vital to all issuer and Covered California operations. This Certification ensures that Applicant has policies, procedures, and systems in place to prevent, detect, and respond to fraud, waste, and abuse.

9.1 Describe the roles and responsibilities of those tasked with carrying out dedicated antifraud and fraud risk management activities throughout the organization. 13 Healthcare Evidence Initiative (HEI)

This section not required if Applicant has completed the Qualified Health Plan Application Plan Year 2023 Individual Marketplace.

All questions are required for all Applicants. All questions are required for all Applicants. All questions should be answered at the Issuer level, not product level.

To fulfill its mission to ensure that consumers have available the plans that offer the optimal combination of choice, value, quality, and service, Covered California relies on evidence about the enrollee experience with health care. The timely and accurate submission of QHP data is an essential component of assessing the quality and value of the coverage and health care received by Covered California Enrollees. QHP Issuers are required by state law to submit data described by this section. The file layout which details current expectations of requested data is available for review on the Manage Documents page as Appendix H – QHP HEI File Specifications.

The data elements required to be submitted pursuant to this application, and the resulting QHP Issuer contract, will include the personal information of enrollees and Applicant’s proprietary rate information. Covered California will, and is required by law, to protect and maintain the confidentiality of this information, which shall at all times be subject to the same stringent 350-plus security and privacy-related requirements as other personal information within Covered California’s custody or control.

13.1 Applicant must provide Covered California, through its HEI Vendor, with monthly extracts of all requested detail from applicable claims or encounter records for the following types (both on-Exchange and non-grandfathered off-Exchange). If yes with deviation, explain. If unable to provide all requested detail as outlined in Appendix H – QHP HEI File Specifications, provide a plan and timeline to correct problematic claim or encounter types and estimate the number and percentage of affected claims and encounters.

14 Essential Community Providers

This section not required if Applicant has completed the Qualified Health Plan Application Plan Year 2023 Individual Marketplace.

All questions are required for all Applicants. All questions are required for all Applicants. All questions should be answered at the Issuer level, not product level.

14.1 Applicant must demonstrate that its QHP proposals meet requirements for geographic sufficiency of its Essential Community Provider (ECP) network. Covered California will use the provider network data submission to assess Applicant's ECP network. All the criteria below must be met.

1. Applicants must demonstrate sufficient geographic distribution of a mix of essential community providers reasonably distributed throughout the geographic service area; **AND**

Certification Application Qualified Health Plan Covered California for Small Business Marketplace Plan Year 2023

2. Applicants must demonstrate contracts with at least 15% of 340B entities (where available) throughout each rating region in the proposed geographic service area; **AND**
3. Applicants must include at least one ECP hospital (including but not limited to 340B hospitals, Disproportionate Share Hospitals, critical access hospitals, academic medical centers, county and children's hospitals) per each county in the proposed geographic service area - where they are available.
4. Covered California will evaluate the application of all three criteria to determine whether Applicant's essential community provider network has achieved the sufficient geographic distribution and balance between hospital and non-hospital requirements. The above are the minimum requirements. For example, in populous counties, one ECP hospital will not suffice if there are concentrations of low-income population throughout the county that are not served by a single contracted ECP hospital.

Federal regulations currently require Health Issuers to adhere to rules regarding payment to non-contracted FQHCs for services when those services are covered by the QHP's benefit plan. Health Issuers will be required, in their contract with Covered California, to operate in compliance with all federal regulations issued pursuant to the Affordable Care Act, including those applicable to ECPs.

Essential Community Providers include those providers posted in the Covered California Consolidated Essential Community Provider List available at: <http://hbex.coveredca.com/stakeholders/plan-management/ecp-list/>.

Covered California will calculate the percentage of contracted 340B entities located in each rating region of the proposed geographic service area. All 340B entity service sites shall be counted in the denominator, in accordance with the most recent version of Covered California's Consolidated ECP list.

Categories of Essential Community Providers:

Essential Community Providers include the following:

1. The Center for Medicare & Medicaid Services (CMS) non-exhaustive list of available 340B providers in the PHS Act and section 1927(c)(1)(D)(i)(IV) of the Social Security Act.
2. Facilities listed on the California Disproportionate Share Hospital Program, Final DSH Eligibility List
3. Federally designated 638 Tribal Health Programs and Title V Urban Indian Health Programs
4. Community Clinics or health centers licensed as either "community clinic" or "free clinic", by the State of California under Health and Safety Code section 1204(a), or operating as a community clinic or free clinic exempt from licensure under Section 1206
5. Physician Providers with approved applications for the HI-TECH Medi-Cal Electronic Health Record Incentive Program
6. Federally Qualified Health Centers (FQHCs)

Low-income is defined as a family at or below 200% of Federal Poverty Level. The ECP data supplied by Applicant will allow Covered California to plot contracted ECPs on maps to compare contracted providers against the supply of ECPs and the distribution of low-income Covered California Enrollees.

Alternate standard:

Certification Application Qualified Health Plan Covered California for Small Business Marketplace Plan Year 2023

Applicants that provide a majority of covered professional services through physicians employed by the issuer or through a single contracted medical group may request to be evaluated under the “alternate standard.” The alternate standard requires Applicant to have a sufficient number and geographic distribution of employed providers and hospital facilities, or providers of its contracted integrated medical group and hospital facilities to ensure reasonable and timely access for low-income, medically underserved individuals in the QHP’s service area, in accordance with Covered California’s network adequacy standards.

To evaluate an Applicant’s request for consideration under the alternate standard, submit a written description of the following:

1. Percent of services received by Applicant’s members which are rendered by Applicant’s employed providers or single contracted medical group; **AND**
2. Degree of capitation Applicant holds in its contracts with participating providers. What percent of provider services are at risk under capitation; **AND**
3. How Applicant’s network is designed to ensure reasonable and timely access for low-income, medically underserved individuals; **AND**
4. Efforts Applicant will undertake to measure how/if low-income, medically underserved individuals are accessing needed health care services (e.g., maps of low-income members relative to 30-minute drive time to providers; survey of low-income members experience such as CAHPS “getting needed care” survey).

If existing provider capacity does not meet the above criteria, Applicant may be required to provide additional contracted or out-of-network care. Applicants are encouraged to consider contracting with identified ECPs to provide reasonable and timely access for low-income, medically underserved communities.

Single, Pull-down list.

1: Requesting consideration of alternate standard, explanation attached,

2: Not requesting consideration under the alternate standard

15.2 Health Equity and Disparities Reduction

The Institute of Medicine defines health care equity as “providing care that does not vary in quality because of personal characteristics such as gender, ethnicity, geographic location, and socioeconomic status.” Healthy People 2020 defines disparities as “a particular type of health difference that is closely linked with social, economic and/or environmental disadvantage.” Health disparities adversely affect groups of people who have systematically experienced greater obstacles to health based on their racial or ethnic group; ~~religion; socioeconomic status; gender; age; mental health; cognitive, sensory, or physical disability; sexual orientation or gender identity; geographic location; or~~ other characteristics historically linked to discrimination or exclusion.

Addressing ~~health~~ equity and disparities in healthcare is integral to the mission of Covered California. In order to achieve impactful and meaningful change, Covered California recognizes that addressing health equity and disparities requires alignment, commitment, focus, and accountability. Responses in this section will be evaluated based on Applicant’s demonstrated organizational commitment to health equity and disparities reduction.

15.2.1 Organizational Commitment to Cultivating a Culture of Health Equity

Section 15.2.1 is not required if Applicant has completed the Qualified Health Plan Application Plan Year 2023 Individual Marketplace.

Applicant may submit to Covered California its National Committee for Quality Assurance (NCQA) Health Equity Accreditation standard HE 1: Organizational Readiness reports in lieu of responding to this section 15.2.1. If significant changes are made to the NCQA Health Equity Accreditation standards during the accreditation cycle, Applicant must resubmit the reports to Covered California. When submitting its reports to Covered California, Applicant shall clearly identify any information it deems confidential, trade secret, or proprietary.

If Applicant has not yet achieved the NCQA Health Equity Accreditation or does not is unable to provide HE 1: Organizational Readiness components of its NCQA Health Equity Accreditation reports, Applicant must respond to all questions in this section.

15.2.1.1. Applicant demonstrates commitment to creating an organizational culture of health equity by taking the following actions related to mission, vision, policies, and processes:

15.5 Population Health Management

Covered California recognizes that effective population health management, including identifying and proactively managing at-risk enrollees (defined as individuals with existing and newly diagnosed chronic conditions, such as diabetes, heart disease, asthma, hypertension or a medically complex condition) results in improved outcomes and lowers costs. The following questions assess Applicant’s ability to identify, stratify, track, and manage enrollees. Responses will be evaluated on Applicant’s use of data and interventions to proactively manage enrollees as well as the thoroughness of the response.

15.5.1 Population Health Management in Health Care Services

As part of total population management and person-centered care, Applicant must summarize ~~Applicant its~~ activities and ability to identify and assess the health statuses and risks of Covered California eEnrollees without claims who are non-users (no claims) and assess those enrollees’ health statuses. ~~Applicant must also~~ and risks and engage those enrollees ~~in services~~ as needed.

15.5.4 Health – Related Social Needs

Given the strong evidence of the role of social factors like food insecurity, marginal housing, and lack of transportation on health outcomes, addressing health-related social needs (“social needs”) is an important step in advancing Covered California’s goal to ensure everyone receives the best possible care. Covered California acknowledges the importance of understanding patient health-related social needs – an individual’s socioeconomic barriers to health – to move closer to equitable care and seeks to encourage the use of social needs informed and targeted care. As social needs are disproportionately borne by disadvantaged populations, identifying and addressing these barriers at the individual patient level is a critical first step in improving health outcomes, and reducing health disparities, ~~and reducing healthcare costs~~. Identification and information sharing of available community resources is critical to meeting identified member social needs.

Responses will be evaluated on the extent of Applicant’s health-related social needs enrollee screening and referral programs.

15.5.4.1 Through what channels does Applicant screen Enrollees for health-related social needs?

Multi, checkboxes

1. Include social needs screening in member portal, list: [50 words]
2. Include social needs screening in health assessments, list: [50 words]

3. Health plan representative refers Enrollees to the appropriate social service
4. Vendor representative or platform refers Enrollees to the appropriate social service
5. Provider or provider team member refers Enrollee to appropriate social service
6. Data not linked to Enrollee's demographic data or health status
7. No referral made

15.5.4.8 Does Applicant maintain a community resource directory or contract with vendor(s) to provide enrollee referrals that address social needs? If yes, indicate all that apply:

3. Healthify
4. One Degree
5. UniteUs
6. Other, specify: [20 words]
7. No, Applicant does not maintain a community resource directory or contract with vendor to provide enrollee referrals

15.5.4.9 Does Applicant operate a closed-loop referral tracking system to address Enrollee's identified social needs? A closed loop referral tracking is the process of tracking the outcomes of a referral, including whether the Enrollee received help through the referral and whether the needs that triggered the referral were addressed.

Single, checkbox

1. Applicant operates a closed-loop referral system to address Enrollee social needs, describe: [50 words]
2. Applicant does not operate a closed-loop referral system to address Enrollee social needs

15.5.4.10 Describe Applicant's participation in, or the initiation of, any current or past interventions to address social needs or social determinants of health, initiated or led by Applicant. The World Health Organization defines social determinants of health as "the non-medical factors that influence health outcomes. ...the conditions in which people are born, grow, work, live, and age, and the wider set of forces and systems shaping the conditions of daily life." Include the social need or social determinant selected, Applicant's role (initiator or participant), relevant partners, the intervention goal(s), intervention population(s), intervention activities, resources invested, and impact of the intervention.

15.5.5 Prevention of Algorithmic Bias in Healthcare

The potential for bias in algorithms used in decisions to allocate health care resources is increasingly ~~recognized~~documented. For example, algorithms using cost and utilization data to assess risk and allocate health care services or other resources will exacerbate existing disparities in access to health care by prioritizing those patient populations utilizing services for receipt of additional support. Processes and systems to identify and address these biases are critical to an equitable population health management strategy and preventing exacerbation of existing health disparities.

Covered California recommends referring to the Chicago Booth Center for Applied Artificial Intelligence Algorithmic Bias Playbook for an explanation of algorithmic bias and steps health care services entities can take to identify and address bias in algorithms in use, and implement best practices for use of algorithms. The questions in this section 4615.5.5 refer to the Playbook's four step process to address potential bias in algorithms.

15.6 Complex Care

Covered California recognizes the importance of effectively managing complex conditions for individuals that require multiple high-cost specialty treatments or end of life care. Numerous studies have demonstrated a significant correlation between volume of procedures performed by providers and facilities and better outcomes for those procedures, referred to throughout this section as the “volume-outcome relationship”. This applies to both common but high-risk treatments (such as cancer surgeries and cardiac procedures) as well as complicated, rare, and highly specialized procedures (such as transplants). Higher volumes, documented experience, and proficiency with all aspects of care underlie successful outcomes, including patient selection, anesthesia, and postoperative care.

15.6.1 Describe the mechanisms used to ensure **E**enrollees can access providers with documented special experience and proficiency, based on volume and outcome data, that treat conditions requiring highly specialized management (e.g., transplant patients, burn patients, rare cancers, rare genetic conditions).

15.7 Affordability and Cost

Affordability is core to Covered California’s mission to expand the availability of insurance coverage and

promote the Triple Aim. The wide variation in unit price and total costs of care charged by providers, the lack of transparency with pharmaceutical drug pricing, and the limited access to cost information for consumers, are all significant contributors to high cost of medical services. This section will focus on the affordability and cost of pharmaceutical drugs and how consumers are informed of their cost shares. The Applicant's capability to manage the wide variation in unit price and total costs of care charged by providers and hospital is assessed in ~~the section Provider Networks Based on~~ Provider Networks Based on Value.

15.7.1 Demonstrating Action on High Cost Pharmaceuticals

Section 15.7.1 is not required if Applicant has completed the Qualified Health Plan Application Plan Year 2023 Individual Marketplace.

Appropriate treatment with pharmaceuticals is often the best clinical strategy for treating conditions, including managing chronic and life-threatening conditions. At the same time, Covered California is concerned with the trend in rising prescription drug costs, including those in specialty pharmacy, and compounding increases in costs of generic drugs, which are a growing driver of total cost of care. In this section, Applicants will be assessed on the extent to which value, including cost and clinical outcomes, is considered in the construction of formularies and delivery of pharmacy services.

15.7.1.1 Indicate which of the following sources Applicant uses to improve the value of pharmacy services. Choose all that apply.

Multi, Checkboxes.

1. ACC/AHA Cost/Value Methodology in Clinical Practice Guidelines
2. ASCO Value of Cancer Treatment Options (ASCO- VF)
3. DrugAbacus (MSKCC) (DAbacus)

15.7.2 Patient-Centered Information and Support

Enrollees are empowered to engage in their medical decision-making process when they have access to timely health information. Covered California is committed to ensuring that eEnrollees have access to 1) provider-specific cost shares for common inpatient, outpatient and ambulatory services, 2) costs of prescription drugs, 3) member specific real-time understanding of accumulations toward deductibles and out of pocket limits, 4) quality information on network providers, and 5) decision-making tools to inform decisions on appropriate care.

This section not required if Applicant has completed the Qualified Health Plan Application Plan Year 2023 Individual Marketplace.

Covered California believes that improving health care quality can only be done ~~throughover the~~ long-term, ~~through~~ collaborative efforts that effectively engage and support clinicians, hospitals, health systems, and other providers of care. There are several established statewide and national collaborative initiatives for quality improvement that are aligned with priorities established by Covered California. The following question addresses Applicant's current involvement in ~~quality~~-collaborative, quality improvement efforts. Applicants ~~s~~ will be assessed based on the breadth and depth of their involvement in such efforts.

15.8.1 Identify key quality improvement collaboratives and organizations in which Applicant is engaged in the following table.

15.9 Data Sharing and Exchange

This section not required if Applicant has completed the Qualified Health Plan Application Plan Year 2023 Individual Marketplace.

To improve the quality of care and successfully manage costs, successful Applicants ~~will be~~ required to participate in a Health Information Exchange (HIE) by January 1, 2024 ~~and encourage~~ with a goal of enhanced exchange of data along the patient, provider, hospital, and payer continuum. Covered California ~~also~~ recognizes the importance of aggregating data across purchasers and payers to more accurately understand the performance of providers that have contracts with multiple health plans. Such aggregated data reflecting a larger portion of a provider, group or facility’s practice can potentially be used to support performance improvement, contracting and public reporting. Applicants must participate in the Integrated Healthcare Association’s (IHA) Align, Measure, Perform (AMP) Programs to aggregate data by January 1, 2023. In this section, Applicants will be assessed on the extent to which clinical data exchange is occurring, plans to improve data exchange, and the extent to which ~~it they are~~ engaging with other payers and stakeholders to support data aggregation.

15.9.1 Describe Applicant's efforts to improve the routine exchange of timely information and clinical data with providers to support ~~their the~~ delivery of high-quality care, including participation in a Health Information Exchange (HIE). Applicant must address each of the following:

- Initiatives to improve the routine exchange of data to improve the quality of care, such as collecting clinical data to supplement annual HEDIS data collection and self-reported race and ~~ethnicity~~ identity.
- Whether Applicant provides resources or incentives to providers to participate in HIEs.
- Describe any data exchange initiatives that enhance health equity with an emphasis on supporting enhanced demographic and social risk factor data capture and facilitation of the exchange of community health resources or information.

250 words.

15.9.2 Identify the HIE initiatives and statewide or regional initiatives in which Applicant is engaged and explain how Applicant participates.

16 Health Plan Proposal

All questions are required for all Applicants. All questions are required for all Applicants. All questions should be answered at the product level, not Issuer level.

Applicant must submit a health plan proposal in accordance with all requirements outlined in this section.

In addition to being guided by its mission and values, Covered California’s policies are derived from the Federal Affordable Care Act which calls upon the Exchanges to advance “plan or coverage benefits and health care provider reimbursement structures” that improve health outcomes. Covered California seeks to improve the quality of care while moderating cost, directly for the individuals enrolled in its plans, and indirectly by being a catalyst for delivery system reform in partnership with plans, providers, and consumers. With the Affordable Care Act and the range of insurance market reforms that have been implemented, the health insurance marketplace will be transformed from one that has focused on risk selection to achieve profitability to one that will reward better care, affordability and prevention.

Applicant must submit a standard set of QHPs including all four metal tiers in its proposed rating regions. The QHPs in the standard set must adhere to the Certification plan year Patient-Centered Benefit Plan Designs. The same provider network type must be used for each QHP in the standard set of QHPs. Applicant’s proposal must include coverage of its entire licensed geographic service area. Applicant may not submit a proposal that includes a tiered hospital, physician, or pharmacy network. Applicants must adhere to Covered California’s standard benefit plan designs and the requirements in this section without deviation unless approved by Covered California.

Applicant may submit proposals including the Health Savings Account-eligible High Deductible Health Plan (HDHP) standard design. Health Savings Account-eligible plans may only be proposed at the bronze and silver levels in Covered California for Small Business in accordance with the Patient-Centered Benefit Plan Designs. Additionally, Applicant may submit proposals to offer additional QHPs for consideration, including Alternate Benefit Design proposals. The additional QHP offerings proposed must be differentiated by product or network to be considered by Covered California.

All QHP Issuers participating in Covered California for Small Business must offer all QHPs with and without infertility coverage. Infertility riders will not be permitted. Issuers must create two plans, with

Certification Application Qualified Health Plan Covered California for Small Business Marketplace Plan Year 2023

different Plan IDs, for each QHP offering: one that includes infertility coverage and one that does not include infertility coverage.

16.1 Applicant must certify that its proposal includes all four metal tiers (bronze, silver, gold, and platinum) for each health product it proposes to offer in a rating region. If not, Applicant must describe how it will meet the requirement to offer a product with all metal levels.

16.3 Preliminary Premium Proposals.

Final negotiated and accepted premium rates shall be in effect for the 12-month period subsequent to the initial effective dates for all employer groups whose initial effective dates are between January 1, 2023 and December 31, 2023 for Quarter 1 submissions. Final negotiated and accepted premium rates shall be in effect for at least the 3-month period subsequent to the initial effective dates for all employer groups for the remaining quarters. Contracted QHP Issuers may choose to make quarterly rate updates for the second, third and fourth quarters by submitting rate updates at least 120 days prior to the quarter begin date. Following applicable regulator rate review, quarterly rate updates shall be in effect for the 12-month period subsequent to the initial effective dates for all employer groups. Premium proposals are considered preliminary and may be subject to negotiation as part of QHP certification and selection. The final negotiated premium amounts must align with the product rate filings that will be submitted to the applicable regulatory agency. Premium proposals will be due per Table 1.7 Key Action Dates. Premiums may vary by geographic area, family size, and age as permitted by State law, including the requirements of State Regulators regarding rate setting and rate variation set forth at Health and Safety Code §§ 1357.512 and 1399.855, Insurance Code §§ 10753.14 and 10965.9, 10 CCR § 2222.12 and, as applicable, other laws, rules and regulations, including, 45 C.F.R. § 156.255(b). Applicant must confirm to submit complete premium proposals for Individual products; the Unified Rate Review Template (URRT), the Supplemental Rate Review Template (SRRT), Actuarial Memorandum and the Rates Data Template through System for Electronic Rate and Form Filing (SERFF) available at: <https://www.qhpcertification.cms.gov/s/QHP>.

Applicant shall provide, in connection with any negotiation process as reasonably requested by Covered California, detailed documentation on Covered California-specific rate development methodology.

Applicant shall provide justification, documentation, and support used to determine rate changes, including adequately supported cost projections. Cost projections include factors impacting rate changes, assumptions, transactions and other information that affects Covered California-specific rate development process. Covered California may also request information pertaining to the key indicators driving the medical factors on trends in medical, pharmacy or other healthcare provider costs. This information may be necessary to support the assumptions made in forecasting and may be supported by information from Applicant's actuarial systems pertaining to Covered California-specific account.

The alternate benefit design offering should incorporate the commission rate guidance utilized for all Covered California for Small Business plans.

Alternate benefit design proposals with preliminary rate information are due by the due date per Table 1.7 Key Action Dates. Covered California will scrutinize such proposals and may choose not to accept all alternate benefit design proposals if there is no meaningful difference in premium or cost sharing from the standardized benefit plan and a competitive advantage in the small business marketplace. Alternate benefit design proposal decisions will be communicated to Applicants by the due date per Table 1.7 Key Action Dates, contingent upon rate information due by the due date per Table 1.7 Key Action Dates. All contingently accepted alternate benefit designs must be included in proposed rates due for all plans by the due date per Table 1.7 Key Action Dates.

If proposing alternate benefit plan designs, use Attachment F - CCSB Alternate Benefit Design to submit all cost sharing and other details for proposed alternate benefit plan designs. Provide description of rationale and benefit to members of proposed ABD offer. Include description of the population ABD(s) are meant to benefit. Describe the differences in coverages that are incorporated into the proposed ABD. Complete Attachment F - CCSB Alternate Benefit Design to indicate benefits and member cost sharing design for each alternate benefit plan design you propose. In completing the matrix, Applicant must insert text to indicate:

- How does the proposed ABD differ from the Patient-Centered Benefit Design.
- Any additional or enhanced benefits relative to the Essential Health Benefits (EHBs).
- If plans include pediatric dental EHB.

Use Attachment G - CCSB Alternate Plan Rate Sheet to submit a single preliminary premium for a 40 - year -old for all plans proposed in all regions. Attachment G – CCSB Alternate Plan Rate Sheet will need to include total membership for each plan and region if the plan is currently offered in the Off-

Exchange. While Applicants are not bound by preliminary rates submitted by the due date per Table 1.7 Key Action Dates, Covered California will make contingent approvals for alternate benefit plan designs based upon these submissions and shall reserve the right to issue final approvals of alternate benefit designs based upon rates submitted by the due date per Table 1.7 Key Action Dates. Applicant may not make any changes to its proposed Alternate Benefit Design templates (Attachment F) once submitted to Covered California without providing prior written notice to Covered California and only if Covered California agrees in writing with the proposed changes.

Single, Radio group.

*1: Yes, proposing at least one alternate benefit design, will submit full proposal by the due date per Table 1.7 Key Action Dates. (Note: Alternate benefit designs must be proposed and approved annually, even if there is no change in plan design),
2: No, not proposing alternate benefit designs*

17.4 Delivery System and Payment Strategies to Drive Quality

Attachment 1 of the Covered California Qualified Health Plan (QHP) Issuer Contract embodies Covered California’s vision for delivery system reform and serves as a roadmap to delivery system improvements. A number of the delivery system and payment strategy requirements in Attachment 1 meet the federal Quality Improvement Strategy (QIS) requirements.

The Patient Protection and Affordable Care Act (§1311(g)(1)) requires periodic reporting to Covered California of activities a QHP Issuer has conducted to implement a strategy for quality improvement. This strategy is defined as a multi-year improvement strategy that includes a payment structure that

provides increased reimbursement or other incentives for improving health outcomes, reducing hospital readmissions, improving patient safety, and reducing medical errors, implementing wellness and health promotion activities, or reducing health and health care disparities. Per the final rule issued by the Centers for Medicare and Medicaid Services (CMS) on May 27, 2014, Issuers must implement and report on a quality improvement strategy or strategies consistent with the standard of section 1311(g) of the ACA.

~~New entrant~~ Applicants that are currently operating in Covered California are required to complete QIS workplans as part of the Application process. The following strategies meet the QIS requirements and Applicants must submit QIS workplans:

- Effective Primary Care
- Accountable Care Organizations (ACOs) and Integrated Delivery Systems (IDSs)
- Appropriate Use of Cesarean Sections
- Hospital Patient Safety

QHP certification ~~and participation in Covered California is conditioned will be conditional~~ on Applicant developing a multi-year QIS and reporting year-to-year activities and progress on each initiative area.

If Applicants that are currently operating in Covered California have the same provider network for both the Individual Marketplace and the Small Business Marketplace, Covered California recognizes the responses may be the same or similar for both markets.

~~New entrant~~ Applicants that are not currently operating in Covered California are not required to complete the QIS workplan updates as part of the 2023 Application but must review Attachment 1 with the understanding that engagement in the QIS and Attachment 1 initiatives will be contractually required and measured in the future if Applicant contracts with Covered California.

17.4.1 Provider Networks Based on Value

All questions required for ~~new entrant~~ Applicants that are currently operating in Covered California. Question 17.4.1.1 is required for ~~new entrant~~ Applicants that are not currently operating in Covered California.

Applicants shall curate and manage ~~their~~ its network(s) to address variation in quality and cost performance across network hospitals and providers, with a focus on improving the performance of hospitals and providers. Applicants shall measure, analyze, and reduce variation to achieve consistent high performance for all network hospitals and providers. Affordability is core to Covered California's mission to expand the availability of insurance coverage. The wide variation in unit price and total costs of care, with some providers and facilities charging far more for care irrespective of quality, is a key contributor to the high cost of medical services. Applicants shall hold its contracted hospitals and providers accountable for improving quality and managing ~~or reducing~~ cost, and provide support to its contracted hospitals and providers to improve performance. The following questions address Applicant's ability to track and address variation in quality and cost performance across network hospitals and providers.

17.4.2 ~~Effective-Advanced~~ Primary Care

All questions required for ~~new entrant~~ Applicants that are currently operating in Covered California. Questions 17.4.2.1 and 17.4.2.2 are required for ~~new entrant~~ Applicants that are not currently operating in Covered California.

Covered California recognizes that providing high-quality, equitable, and affordable care requires a foundation of effective and patient-centered primary care. Advanced primary care is patient-centered, accessible, team-based, data driven, supports the integration of behavioral health services, and provides care management for patients with complex conditions. ~~Effective primary care is data driven, team-based, and Advanced primary care is~~ supported by alternative payment models such as population-based ~~payments~~ payment and shared savings arrangements. Applicant shall actively promote the development and use of advanced primary care models that promote access, care coordination, and quality while managing the total cost of care. The following questions address Applicant's ability to match at least 95% of enrollees with a primary care clinician and increase the proportion of providers paid under a payment strategy that promotes advanced primary care.

This strategy meets the QIS requirements.

17.4.2.1 Report the percentage of ~~members-Covered California Enrollees in Applicant's Covered California business~~ who either selected or were matched with a primary care clinician in 2021 in Attachment J - QHP IND Run Charts. 17.4.3 Integrated Delivery Systems and Accountable Care Organizations

All questions required for ~~new-entrant~~ Applicants that are currently operating in Covered California. Only Questions-questions 17.4.3.1 - 17.4.3.3 are required for ~~new-entrant~~ Applicants that are not currently operating in Covered California.

Evidence suggests the adoption and expansion of integrated, coordinated, and accountable systems of care such as Integrated Delivery Systems (IDSs) or Accountable Care Organization (ACOs) can lead to improved quality and reduced costs. An IDS is defined as an organized healthcare delivery system in which payers, hospitals, and providers coordinate to provide patient care, integrate care across settings, and share responsibility for patient outcomes and resource use. IDS partners are generally managed by the same organization. An ACO is defined as a system of population-based care coordinated across the continuum including multidisciplinary physicians and physician groups, hospitals, and ancillary providers with combined risk sharing arrangements and shared incentives between providers or between payers and providers. Ideally ACO partners are held accountable for nationally recognized clinical, financial, and operational performance. As providers accept more accountability under this provision, Applicant shall ensure that providers have the capacity to manage the risk. There are many variations of ACO implementation with evidence suggesting that there are key characteristics of an ACO model that influence its success.

The following questions address Applicant’s ability to increase enrollment in Integrated Delivery System (IDS) or Accountable Care Organization (ACO) models in its Covered California network.

This strategy meets the QIS requirements.

17.4.3.1 Using the definition for IDS or ACO above, report the number and percentage of Covered California ~~members-Enrollees~~ and total California ~~members-Enrollees~~ who are managed under an IDS or ACO in 2021 in Attachment J - QHP IND Run Charts. Applicants ~~C~~currently contracted Applicants with Covered California must enter the percentage reported in the Certification Application for 2016, 2017, 2018, 2019, 2020, 2021, and 2022 as well. 17.4.4 Appropriate Use of Cesarean Sections

All questions required for ~~new entrant~~ Applicants that are currently operating in Covered California. ~~Questions Only questions~~ 17.4.4.1 - 17.4.4.3, 17.4.4.5 and 17.4.4.6 are required for ~~new entrant~~ Applicants that are not currently operating in Covered California.

Applicant ~~will~~must: 1) Progressively adopt physician and hospital payment strategies so that revenue for labor and delivery only supports medically necessary care and no financial incentive exists to perform a low-risk Nulliparous Term Singleton Vertex (NTSV) Cesarean Section (C-Section). 2) Promote improvement work through the California Maternal Quality Care Collaborative (CMQCC) Maternal Data Center (MDC), so that all maternity hospitals achieve an NTSV C-Section rate of 23.9% or lower, or are at least working toward that goal. 3) Consider a hospital's NTSV C-section rate, improvement trajectory, and willingness to engage in coaching as part of its maternity hospital contracting decisions and terms. Covered California does not expect Contractor to base poor performance, and potential network removal decisions, on one measure alone.

~~4) New entrant~~ Applicants that are not currently operating in Covered California are expected to adopt a payment methodology structured to support only medically necessary care with no financial incentive to perform C-sections for all contracted physicians and hospitals serving ~~e~~Enrollees by year end 2023.

Smart Care California has outlined three payment strategies to align payment with medically necessary use of C-sections:

- Adopt a blended case rate payment for both physicians and hospitals;
- Include a NTSV C-section metric in existing hospital and physician quality incentive programs; and
- Adopt population-based payment models, such as maternity episode payment models or inclusion in Integrated Delivery System, ACO or similar financial accountability arrangement.

The following questions address Applicant's ability to meet the requirements for the appropriate use of cesarean sections.

Certification Application Qualified Health Plan Covered California for Small Business Marketplace Plan Year 2023

This strategy meets the QIS requirements.

17.4.4.1 Describe how Applicant is measuring overuse of Cesarean Sections and how it is implementing Smart Care California guidelines (https://www.iha.org/wp-content/uploads/2020/12/c-section_menu_of_payment_and_contracting_options.pdf) to promote best practices of care in these areas.

17.4.4.2 Report number of all network hospitals reporting to the CMQCC's MDC in 2021 in Attachment J - QHP IND Run Charts. A list of all California hospitals participating in the MDC can be found here: <https://www.cmqcc.org/about-cmqcc/member-hospitals>. Applicants ~~Currently contracted~~ applicants with Covered California must enter the percentage reported in the Certification Applications for 2016, 2017, 2018, 2019, 2020, 2021, and 2022 as well. If Applicant had no Covered California business in 2021, report full 2021 book of business excluding Medicare.

Note: Refer to Appendix S for hospital C-section rates.

Address each of the following in the work plan narrative:

- Description of how Applicant engages with its network hospitals to reduce NTSV C-Section rates to 23.9% or less by year end 2023
- Description of its adjustments to payment strategy in alignment with Smart Care California guidelines so that no hospitals or physicians are incentivized to perform an NTSV C-Section by year end 2023

17.4.5 Hospital Patient Safety

All questions required for ~~new entrant~~ Applicants that are currently operating in Covered California. Questions 17.4.5.1 and 17.4.5.2 are required for ~~new entrant~~ Applicants that are not currently operating in Covered California.

Certification Application Qualified Health Plan Covered California for Small Business Marketplace Plan Year 2023

Applicant will must: 1) Adopt a hospital payment methodology that places all acute general hospitals either at risk or subject to a bonus payment for quality performance. 2) Promote hospital involvement in improvement programs so that all hospitals achieve infection rates (measured as a standardized infection ratio or SIR) of 1.0 or lower for the five Hospital Associated Infection (HAI) measures outlined in Attachment 1 or are working to improve. 3) Promote hospital involvement in improvement programs so that all hospitals comply with Sepsis Management according to CMS guidelines.

The five HAIs and Sepsis Management are:

- Catheter Associated Urinary Tract Infections (CAUTI)
- Central Line Associated Blood Stream Infections (CLABSI)
- Clostridioides Difficile Infection (CDI)
- Methicillin-resistant Staphylococcus Aureus (MRSA)
- Surgical Site Infection of the Colon (SSI Colon)
- Sepsis Management (SEP-1)

The following questions address Applicant's ability to meet the requirements for hospital patient safety.

This strategy meets the QIS requirements.

17.4.5.1 Report, across all lines of business, the percentage of hospital reimbursementsreimbursement at risk for quality performance and the quality indicators used in 2021 in Attachment J - QHP IND Run Charts. 18.1.8 In addition to standardized benefit designs, Applicant may submit alternate benefit designs (ABD) for Applicant's licensed geographic service area. Alternate benefit designs are optional. Applicants are not required to offer alternate benefit designs to participate in Covered California for Small Business. Alternate benefit designs must comply with state statutory and regulatory requirements. The alternate benefit design offering should incorporate the commission rate guidance utilized for all Covered California for Small Business plans.

Alternate benefit design proposals with preliminary rate information are due by the due date per Table 1.7 Key Action Dates. Covered California will scrutinize such proposals and may choose not to accept all alternate benefit design proposals if there is no meaningful difference in premium or cost sharing from the standardized benefit plan and a competitive advantage in the small business marketplace. Alternate benefit design proposal decisions will be communicated to Applicants by the due date per Table 1.7 Key Action Dates, contingent upon rate information due by the due date per Table 1.7 Key Action Dates. All contingently accepted alternate benefit designs must be included in proposed rates due for all plans by the due date per Table 1.7 Key Action Dates.

If proposing alternate benefit plan designs, use Attachment F - CCSB Alternate Benefit Design to submit all cost sharing and other details for proposed alternate benefit plan designs. Provide description of rationale and benefit to members of proposed ABD offer. Include description of the population ABD(s) are meant to benefit. Describe the differences in coverages that are incorporated into the proposed ABD. Complete Attachment F -CCSB Alternate Benefit Design to indicate benefits and member cost sharing design for each alternate benefit plan design you propose. In completing the matrix, Applicant must insert text to indicate:

- How does the proposed ABD differ from the Patient-Centered Benefit Design.
- Any additional or enhanced benefits relative to the Essential Health Benefits (EHBs).
- If plans include pediatric dental EHB.

Use Attachment G - CCSB Alternate Plan Rate Sheet to submit a single preliminary premium for a 40 - year -old for all plans proposed in all regions. Attachment G – CCSB Alternate Plan Rate Sheet will need to include total membership for each plan and region if the plan is currently offered in the Off-Exchange. While Applicants are not bound by preliminary rates submitted by the due date per Table 1.7 Key Action Dates, Covered California will make contingent approvals for alternate benefit plan designs based upon these submissions and shall reserve the right to issue final approvals of alternate benefit designs based upon rates submitted by the due date per Table 1.7 Key Action Dates. Applicant may not make any changes to its proposed Alternate Benefit Design templates (Attachment F) once submitted to Covered California without providing prior written notice to Covered California and only if Covered California agrees in writing with the proposed changes.

Single, Radio group.

1: Yes, proposing at least one alternate benefit design, will submit full proposal by the due date per Table 1.7 Key Action Dates. (Note: Alternate benefit designs must be proposed and approved annually, even if there is no change in plan design),

2: No, not proposing alternate benefit designs

18.4 Delivery System and Payment Strategies to Drive Quality

Attachment 1 of the Covered California Qualified Health Plan (QHP) Issuer Contract embodies Covered California's vision for delivery system reform and serves as a roadmap to delivery system improvements. A number of the delivery system and payment strategy requirements in Attachment 1 meet the federal Quality Improvement Strategy (QIS) requirements.

The Patient Protection and Affordable Care Act (§1311(g)(1)) requires periodic reporting to Covered California of activities a QHP Issuer has conducted to implement a strategy for quality improvement. This strategy is defined as a multi-year improvement strategy that includes a payment structure that provides increased reimbursement or other incentives for improving health outcomes, reducing hospital readmissions, improving patient safety, and reducing medical errors, implementing wellness and health promotion activities, or reducing health and health care disparities. Per the final rule issued by the Centers for Medicare and Medicaid Services (CMS) on May 27, 2014, Issuers must implement and report on a quality improvement strategy or strategies consistent with the standard of section 1311(g) of the ACA.

QHP certification ~~and participation in Covered California is conditioned will be conditional~~ on Applicant developing a multi-year QIS and reporting year-to-year activities and progress on each initiative area.

If Applicants that are currently operating in Covered California have the same provider network for both the Individual Marketplace and the Small Business Marketplace, Covered California recognizes the responses may be the same or similar for both markets.

~~New entrant~~ Applicants that are not currently operating in Covered California are not required to complete the QIS workplan updates as part of the 2023 Application but must review Attachment 1 with the understanding that engagement in the QIS and Attachment 1 initiatives will be contractually required and measured in the future if Applicant contracts with Covered California.

18.4.1 Provider Networks Based on Value

All questions required for ~~new entrant~~ Applicants that are currently operating in Covered California. Only ~~Q~~question 18.4.1.1 is required for ~~new entrant~~ Applicants that are not currently operating in Covered California.

Applicants shall curate and manage ~~their~~its network(s) to address variation in quality and cost performance across network hospitals and providers, with a focus on improving the performance of hospitals and providers. Applicants shall measure, analyze, and reduce variation to achieve consistent high performance for all network hospitals and providers. Affordability is core to Covered California’s mission to expand the availability of insurance coverage. The wide variation in unit price and total costs of care, with some providers and facilities charging far more for care irrespective of quality, is a key contributor to the high cost of medical services. Applicants shall hold its contracted hospitals and providers accountable for improving quality and managing ~~or reducing~~ cost, and provide support to its contracted hospitals and providers to improve performance. The following questions address Applicant’s ability to track and address variation in quality and cost performance across network hospitals and providers.

18.4.1.1 In the following table, Applicant must identify key quality and cost measures and the criteria that the Applicant uses to evaluate providers and hospitals for network inclusion and continual network management and briefly explain how each measure is used.

18.4.2.2 ~~Effective~~ Advanced Primary Care

All questions required for ~~new-entrant~~ Applicants that are currently operating in Covered California. Only Questions-questions 18.4.2.1 and 18.4.2.2 are required for ~~new-entrant~~ Applicants that are not currently operating in Covered California.

Covered California recognizes that providing high-quality, equitable, and affordable care requires a foundation of effective and patient-centered primary care. Advanced primary care is patient-centered, accessible, team-based, data driven, supports the integration of behavioral health services, and provides care management for patients with complex conditions. ~~Effective primary care is data driven, team-based, and Advanced primary care is~~ supported by alternative payment models such as population-based ~~payments~~payment and shared savings arrangements. Applicant shall actively promote the development and use of advanced primary care models that promote access, care coordination, and quality while managing the total cost of care. The following questions address Applicant's ability to match at least 95% of enrollees with a primary care clinician and increase the proportion of providers paid under a payment strategy that promotes advanced primary care.

This strategy meets the QIS requirements.

18.4.2.1 Report the percentage of ~~members~~ Covered California Enrollees in Applicant's Covered California business who either selected or were matched with a primary care clinician in 2021 in Attachment J - QHP IND Run Charts. If Applicant had no Covered California business in 2021, report full 2021 book of business excluding Medicare. Applicants Currently currently contracted with Covered California Applicant must enter the number and percentage of providers paid under each model reported in the Certification Applications for 2016, 2017, 2018, 2019, 2020, 2021, and 2022 as well.. 18.4.3 Integrated Delivery Systems and Accountable Care Organizations

All questions required for ~~new-entrant~~ Applicants that are currently operating in Covered California. Only Questions-questions 18.4.3.1 - 18.4.3.3 are required for ~~new-entrant~~ Applicants that are not currently operating in Covered California.

Evidence suggests the adoption and expansion of integrated, coordinated, and accountable systems of care such as Integrated Delivery Systems (IDSs) or Accountable Care Organization (ACOs) can lead to improved quality and reduced costs. An IDS is defined as an organized healthcare delivery system

Certification Application Qualified Health Plan Covered California for Small Business Marketplace Plan Year 2023

in which payers, hospitals, and providers coordinate to provide patient care, integrate care across settings, and share responsibility for patient outcomes and resource use. IDS partners are generally managed by the same organization. An ACO is defined as a system of population-based care coordinated across the continuum including multidisciplinary physicians and physician groups, hospitals, and ancillary providers with combined risk sharing arrangements and shared incentives between providers or between payers and providers. Ideally ACO partners are held accountable for nationally recognized clinical, financial, and operational performance. As providers accept more accountability under this provision, Applicant shall ensure that providers have the capacity to manage the risk. There are many variations of ACO implementation with evidence suggesting that there are key characteristics of an ACO model that influence its success.

The following questions address Applicant’s ability to increase enrollment in Integrated Delivery System (IDS) or Accountable Care Organization (ACO) models in its Covered California network.

This strategy meets the QIS requirements.

18.4.3.1 Using the definition for IDS or ACO above, report the number and percentage of Covered California ~~members~~ Enrollees and total California ~~members~~ Enrollees who are managed under an IDS or ACO in 2021 in Attachment J - QHP IND Run Charts. Applicants ~~Currently contracted Applicants with Covered California~~ must enter the percentage reported in the Certification Application for 2016, 2017, 2018, 2019, 2020, 2021, and 2022 as well. 18.4.4 Appropriate Use of Cesarean Sections

All questions required for ~~new-entrant~~ Applicants that are currently operating in Covered California. ~~Questions-Only questions~~ 18.4.4.1 - 18.4.4.3, 18.4.4.5 and 18.4.4.6 are required for ~~new-entrant~~ Applicants that are not currently operating in Covered California.

Applicant ~~will~~must: 1) Progressively adopt physician and hospital payment strategies so that revenue for labor and delivery only supports medically necessary care and no financial incentive exists to perform a low-risk Nulliparous Term Singleton Vertex (NTSV) Cesarean Section (C-Section). 2) Promote improvement work through the California Maternal Quality Care Collaborative (CMQCC) Maternal Data Center (MDC), so that all maternity hospitals achieve an NTSV C-Section rate of 23.9% or lower, or are at least working toward that goal. 3) Consider a hospital's NTSV C-section rate, improvement trajectory, and willingness to engage in coaching as part of its maternity hospital contracting decisions and terms. Covered California does not expect Contractor to base poor performance, and potential network removal decisions, on one measure alone.

~~4) New-entrant~~ Applicants the at are not currently operating in Covered California are expected to adopt a payment methodology structured to support only medically necessary care with no financial incentive to perform C-sections for all contracted physicians and hospitals serving ~~e~~Enrollees by year end 2023.

Smart Care California has outlined three payment strategies to align payment with medically necessary use of C-sections:

- Adopt a blended case rate payment for both physicians and hospitals;
- Include a NTSV C-section metric in existing hospital and physician quality incentive programs; and
- Adopt population-based payment models, such as maternity episode payment models or inclusion in Integrated Delivery System, ACO or similar financial accountability arrangement.

The following questions address Applicant's ability to meet the requirements for the appropriate use of cesarean sections.

This strategy meets the QIS requirements.

18.4.4.1 Describe how Applicant is measuring overuse of Cesarean Sections and how it is implementing Smart Care California guidelines (<https://www.iha.org/wp-content/uploads/2020/12/c-section-menu-of-payment-and-contracting-options.pdf>) to promote best practices of care in these areas.

18.4.5 Hospital Patient Safety

All questions required for ~~new entrant~~ Applicants that are currently operating in Covered California. Questions Only questions 18.4.5.1 and 18.4.5.2 are required for ~~new entrant~~ Applicants that are not currently operating in Covered California.

Applicant will/must: 1) Adopt a hospital payment methodology that places all acute general hospitals either at risk or subject to a bonus payment for quality performance. 2) Promote hospital involvement in improvement programs so that all hospitals achieve infection rates (measured as a standardized infection ratio or SIR) of 1.0 or lower for the five Hospital Associated Infection (HAI) measures outlined in Attachment 1 or are working to improve. 3) Promote hospital involvement in improvement programs so that all hospitals comply with Sepsis Management according to CMS guidelines.

Certification Application Qualified Health Plan Covered California for Small Business Marketplace Plan Year 2023

The five HAIs and Sepsis Management are:

- Catheter Associated Urinary Tract Infections (CAUTI)
- Central Line Associated Blood Stream Infections (CLABSI)
- Clostridioides Difficile Infection (CDI)
- Methicillin-resistant Staphylococcus Aureus (MRSA)
- Surgical Site Infection of the Colon (SSI Colon)
- Sepsis Management (SEP-1)

The following questions address Applicant's ability to meet the requirements for hospital patient safety.

This strategy meets the QIS requirements.

1: Yes, describe: [100 words]

2: No, proposed QHPs will not include coverage of non-emergent out-of-network services

19.1.6 Applicant must confirm the coverage year Schedule of Benefits and Coverage (SBC), Evidence of Coverage (EOC) or Policy language describing proposed health benefits will follow the requirements in the Covered California Submission Guidelines Health Small Business – Plan Year 2023 and must comply with state and federal laws.

Single, Radio group.

1: Confirmed

2: Not confirmed: [100 words]

19.1.7 Does Applicant determine which of its plans are Medicare Part D Creditable?

Single, Radio group.

1: Yes,

2: No

19.1.8 In addition to standardized benefit designs, Applicant may submit alternate benefit designs (ABD) for Applicant's licensed geographic service area. Alternate benefit designs are optional.

Certification Application Qualified Health Plan Covered California for Small Business Marketplace Plan Year 2023

Applicants are not required to offer alternate benefit designs to participate in Covered California for Small Business. Alternate benefit designs must comply with state statutory and regulatory requirements. The alternate benefit design offering should incorporate the commission rate guidance utilized for all Covered California for Small Business plans.

Alternate benefit design proposals with preliminary rate information are due by the due date per Table 1.7 Key Action Dates. Covered California will scrutinize such proposals and may choose not to accept all alternate benefit design proposals if there is no meaningful difference in premium or cost sharing from the standardized benefit plan and a competitive advantage in the small business marketplace. Alternate benefit design proposal decisions will be communicated to Applicants by the due date per Table 1.7 Key Action Dates, contingent upon rate information due by the due date per Table 1.7 Key Action Dates. All contingently accepted alternate benefit designs must be included in proposed rates due for all plans by the due date per Table 1.7 Key Action Dates.

If proposing alternate benefit plan designs, use Attachment F - CCSB Alternate Benefit Design to submit all cost sharing and other details for proposed alternate benefit plan designs. Provide description of rationale and benefit to members of proposed ABD offer. Include description of the population ABD(s) are meant to benefit. Describe the differences in coverages that are incorporated into the proposed ABD. Complete Attachment F - CCSB Alternate Benefit Design to indicate benefits and member cost sharing design for each alternate benefit plan design you propose. In completing the matrix, Applicant must insert text to indicate:

- How does the proposed ABD differ from the Patient-Centered Benefit Design.
- Any additional or enhanced benefits relative to the Essential Health Benefits (EHBs).
- If plans include pediatric dental EHB.

Use Attachment G - CCSB Alternate Plan Rate Sheet to submit a single preliminary premium for a 40 - year -old for all plans proposed in all regions. Attachment G – CCSB Alternate Plan Rate Sheet will need to include total membership for each plan and region if the plan is currently offered in the Off-Exchange. While Applicants are not bound by preliminary rates submitted by the due date per Table 1.7 Key Action Dates, Covered California will make contingent approvals for alternate benefit plan designs based upon these submissions and shall reserve the right to issue final approvals of alternate benefit designs based upon rates submitted by the due date per Table 1.7 Key Action Dates. Applicant may not make any changes to its proposed Alternate Benefit Design templates (Attachment F) once submitted to Covered California without providing prior written notice to Covered California and only if Covered California agrees in writing with the proposed changes.

Single, Radio group.

1: Yes, proposing at least one alternate benefit design, will submit full proposal by the due date per Table 1.7 Key Action Dates. (Note: Alternate benefit designs must be proposed and approved annually, even if there is no change in plan design),

2: No, not proposing alternate benefit designs

19.4 Delivery System and Payment Strategies to Drive Quality

Attachment 1 of the Covered California Qualified Health Plan (QHP) Issuer Contract embodies Covered California's vision for delivery system reform and serves as a roadmap to delivery system improvements. A number of the delivery system and payment strategy requirements in Attachment 1 meet the federal Quality Improvement Strategy (QIS) requirements.

The Patient Protection and Affordable Care Act (§1311(g)(1)) requires periodic reporting to Covered California of activities a QHP Issuer has conducted to implement a strategy for quality improvement. This strategy is defined as a multi-year improvement strategy that includes a payment structure that provides increased reimbursement or other incentives for improving health outcomes, reducing hospital readmissions, improving patient safety, and reducing medical errors, implementing wellness and health promotion activities, or reducing health and health care disparities. Per the final rule issued by the Centers for Medicare and Medicaid Services (CMS) on May 27, 2014, Issuers must implement and report on a quality improvement strategy or strategies consistent with the standard of section 1311(g) of the ACA.

~~New entrant~~ Applicants that are currently operating in Covered California are required to complete QIS workplans as part of the Application process. The following strategies meet the QIS requirements and Applicants must submit QIS workplans:

- Effective Primary Care
- Accountable Care Organizations (ACOs) and Integrated Delivery Systems (IDSs)

Certification Application Qualified Health Plan Covered California for Small Business Marketplace Plan Year 2023

- Appropriate Use of Cesarean Sections
- Hospital Patient Safety

QHP certification ~~and participation in Covered California is conditioned will be conditional~~ on Applicant developing a multi-year QIS and reporting year-to-year activities and progress on each initiative area.

If Applicants that are currently operating in Covered California have the same provider network for both the Individual Marketplace and the Small Business Marketplace, Covered California recognizes the responses may be the same or similar for both markets.

~~New entrant~~ Applicants that are not currently operating in Covered California are not required to complete the QIS workplan updates as part of the 2023 Application but must review Attachment 1 with the understanding that engagement in the QIS and Attachment 1 initiatives will be contractually required and measured in the future if Applicant contracts with Covered California.

19.4.1 Provider Networks Based on Value

All questions required for ~~new entrant~~ Applicants that are currently operating in Covered California. Only ~~Q~~question 19.4.1.1 is required for ~~new entrant~~ Applicants that are not currently operating in Covered California.

Applicants shall curate and manage ~~their-its~~ network(s) to address variation in quality and cost performance across network hospitals and providers, with a focus on improving the performance of hospitals and providers. Applicants shall measure, analyze, and reduce variation to achieve consistent high performance for all network hospitals and providers. Affordability is core to Covered California’s mission to expand the availability of insurance coverage. The wide variation in unit price and total costs of care, with some providers and facilities charging far more for care irrespective of quality, is a key contributor to the high cost of medical services. Applicants shall hold its contracted hospitals and providers accountable for improving quality and managing ~~or reducing~~ cost, and provide support to its contracted hospitals and providers to improve performance. The following questions address Applicant’s ability to track and address variation in quality and cost performance across network hospitals and providers.

19.4.1.1 In the following table, Applicant must identify key quality and cost measures and the criteria that the Applicant uses to evaluate providers and hospitals for network inclusion and continual network management and briefly explain how each measure is used.

19.4.2 ~~Effective~~ Advanced Primary Care

All questions required for ~~new-entrant~~ Applicants that are currently operating in Covered California. Only Questions-questions 19.4.2.1 and 19.4.2.2 are required for ~~new-entrant~~ Applicants that are not currently operating in Covered California.

~~All questions should be answered at the product level, not Issuer level.~~

Covered California recognizes that providing high-quality, equitable, and affordable care requires a foundation of effective and patient-centered primary care. Advanced primary care is patient-centered, accessible, team-based, data driven, supports the integration of behavioral health services, and provides care management for patients with complex conditions. ~~Effective primary care is data driven, team-based, and Advanced primary care is~~ supported by alternative payment models such as population-based paymentspayment and shared savings arrangements. Applicant shall actively promote the development and use of advanced primary care models that promote access, care coordination, and quality while managing the total cost of care. The following questions address Applicant's ability to match at least 95% of enrollees with a primary care clinician and increase the proportion of providers paid under a payment strategy that promotes advanced primary care.

This strategy meets the QIS requirements.

19.4.2.1 Report the percentage of members in Applicant's Covered California business who either selected or were matched with a primary care clinician in 2021 in Attachment J - QHP IND Run Charts. If Applicant had no Covered California business in 2021, report full 2021 book of business excluding Medicare. Currently contracted Applicant must enter the number and percentage of providers paid under each model reported in the Certification Applications for 2016, 2017, 2018, 2019, 2020, 2021, and 2022 as well. 19.4.3 Integrated Delivery Systems and Accountable Care Organizations

All questions required for ~~new-entrant~~ Applicants that are currently operating in Covered California. Only Questions-questions 19.4.3.1 - 19.4.3.3 are required for ~~new-entrant~~ Applicants that are not currently operating in Covered California.

Evidence suggests the adoption and expansion of integrated, coordinated, and accountable systems of care such as Integrated Delivery Systems (IDSs) or Accountable Care Organization (ACOs) can lead to improved quality and reduced costs. An IDS is defined as an organized healthcare delivery system in which payers, hospitals, and providers coordinate to provide patient care, integrate care across

Certification Application Qualified Health Plan Covered California for Small Business Marketplace Plan Year 2023

settings, and share responsibility for patient outcomes and resource use. IDS partners are generally managed by the same organization. An ACO is defined as a system of population-based care coordinated across the continuum including multidisciplinary physicians and physician groups, hospitals, and ancillary providers with combined risk sharing arrangements and shared incentives between providers or between payers and providers. Ideally ACO partners are held accountable for nationally recognized clinical, financial, and operational performance. As providers accept more accountability under this provision, Applicant shall ensure that providers have the capacity to manage the risk. There are many variations of ACO implementation with evidence suggesting that there are key characteristics of an ACO model that influence its success.

The following questions address Applicant’s ability to increase enrollment in Integrated Delivery System (IDS) or Accountable Care Organization (ACO) models in its Covered California network.

This strategy meets the QIS requirements.

19.4.3.1 Using the definition for IDS or ACO above, report the number and percentage of Covered California ~~members-Enrollees~~ and total California ~~members-Enrollees~~ who are managed under an IDS or ACO in 2021 in Attachment J - QHP IND Run Charts. ~~Applicants~~ Currently contracted Applicants with Covered California must enter the percentage reported in the Certification Application for 2016, 2017, 2018, 2019, 2020, 2021, and 2022 as well. 19.4.4 Appropriate Use of Cesarean Sections

All questions required for ~~new-entrant~~ Applicants that are currently operating in Covered California. ~~Questions-Only questions~~ 19.4.4.1 - 19.4.4.3, 19.4.4.5 and 19.4.4.6 are required for ~~new-entrant~~ Applicants that are not currently operating in Covered California.

~~All questions should be answered at the product level, not Issuer level.~~

Applicant ~~will~~must: 1) Progressively adopt physician and hospital payment strategies so that revenue for labor and delivery only supports medically necessary care and no financial incentive exists to perform a low-risk Nulliparous Term Singleton Vertex (NTSV) Cesarean Section (C-Section). 2) Promote improvement work through the California Maternal Quality Care Collaborative (CMQCC) Maternal Data Center (MDC), so that all maternity hospitals achieve an NTSV C-Section rate of 23.9% or lower or are at least working toward that goal. 3) Consider a hospital's NTSV C-section rate, improvement trajectory, and willingness to engage in coaching as part of its maternity hospital contracting decisions and terms. Covered California does not expect Contractor to base poor performance, and potential network removal decisions, on one measure alone.

~~4) New-entrant~~ Applicants thethat are not currently operating in Covered California are expected to adopt a payment methodology structured to support only medically necessary care with no financial incentive to perform C-sections for all contracted physicians and hospitals serving ~~e~~Enrollees by year end 2023.

Smart Care California has outlined three payment strategies to align payment with medically necessary use of C-sections:

- Adopt a blended case rate payment for both physicians and hospitals;
- Include a NTSV C-section metric in existing hospital and physician quality incentive programs; and
- Adopt population-based payment models, such as maternity episode payment models or inclusion in Integrated Delivery System, ACO or similar financial accountability arrangement.

The following questions address Applicant's ability to meet the requirements for the appropriate use of cesarean sections.

This strategy meets the QIS requirements.

19.4.4.1 Describe how Applicant is measuring overuse of Cesarean Sections and how it is implementing Smart Care California guidelines (<https://www.iha.org/wp-content/uploads/2020/12/c-section-menu-of-payment-and-contracting-options.pdf>) to promote best practices of care in these areas.

19.4.5 Hospital Patient Safety

All questions required for ~~new entrant~~ Applicants that are currently operating in Covered California. Questions Only questions 19.4.5.1 and 19.4.5.2 are required for ~~new entrant~~ Applicants that are not currently operating in Covered California.

~~All questions should be answered at the product level, not Issuer level.~~

Applicant will must: 1) Adopt a hospital payment methodology that places all acute general hospitals either at risk or subject to a bonus payment for quality performance. 2) Promote hospital involvement in improvement programs so that all hospitals achieve infection rates (measured as a standardized infection ratio or SIR) of 1.0 or lower for the five Hospital Associated Infection (HAI) measures outlined

Certification Application Qualified Health Plan Covered California for Small Business Marketplace Plan Year 2023

in Attachment 1 or are working to improve. 3) Promote hospital involvement in improvement programs so that all hospitals comply with Sepsis Management according to CMS guidelines.

The five HAIs and Sepsis Management are:

- Catheter Associated Urinary Tract Infections (CAUTI)
- Central Line Associated Blood Stream Infections (CLABSI)
- Clostridioides Difficile Infection (CDI)
- Methicillin-resistant Staphylococcus Aureus (MRSA)
- Surgical Site Infection of the Colon (SSI Colon)
- Sepsis Management (SEP-1)

The following questions address Applicant's ability to meet the requirements for hospital patient safety.

This strategy meets the QIS requirements.

19.4.5.1 Report, across all lines of business, the percentage of hospital ~~reimbursements~~ ~~reimbursement~~ at risk for quality performance and the quality indicators used in 2021 in Attachment J - QHP IND Run Charts. 20.1.8 In addition to standardized benefit designs, Applicant may submit alternate benefit designs (ABD) for Applicant's licensed geographic service area. Alternate benefit designs are optional. Applicants are not required to offer alternate benefit designs to participate in Covered California for Small Business. Alternate benefit designs must comply with state statutory and regulatory requirements. The alternate benefit design offering should incorporate the commission rate guidance utilized for all Covered California for Small Business plans.

Alternate benefit design proposals with preliminary rate information are due by the due date per Table 1.7 Key Action Dates. Covered California will scrutinize such proposals and may choose not to accept all alternate benefit design proposals if there is no meaningful difference in premium or cost sharing from the standardized benefit plan and a competitive advantage in the small business marketplace. Alternate benefit design proposal decisions will be communicated to Applicants by the due date per Table 1.7 Key Action Dates, contingent upon rate information due by the due date per Table 1.7 Key Action Dates. All contingently accepted alternate benefit designs must be included in proposed rates due for all plans by the due date per Table 1.7 Key Action Dates.

If proposing alternate benefit plan designs, use Attachment F - CCSB Alternate Benefit Design to submit all cost sharing and other details for proposed alternate benefit plan designs. Provide description of rationale and benefit to members of proposed ABD offer. Include description of the population ABD(s) are meant to benefit. Describe the differences in coverages that are incorporated into the proposed ABD. Complete Attachment F -CCSB Alternate Benefit Design to indicate benefits and member cost sharing design for each alternate benefit plan design you propose. In completing the matrix, Applicant must insert text to indicate:

- How does the proposed ABD differ from the Patient-Centered Benefit Design.
- Any additional or enhanced benefits relative to the Essential Health Benefits (EHBs).
- If plans include pediatric dental EHB.

Use Attachment G - CCSB Alternate Plan Rate Sheet to submit a single preliminary premium for a 40 - year -old for all plans proposed in all regions. Attachment G – CCSB Alternate Plan Rate Sheet will need to include total membership for each plan and region if the plan is currently offered in the Off-Exchange. While Applicants are not bound by preliminary rates submitted by the due date per Table 1.7 Key Action Dates, Covered California will make contingent approvals for alternate benefit plan designs based upon these submissions and shall reserve the right to issue final approvals of alternate benefit designs based upon rates submitted by the due date per Table 1.7 Key Action Dates. Applicant may not make any changes to its proposed Alternate Benefit Design templates (Attachment F) once submitted to Covered California without providing prior written notice to Covered California and only if Covered California agrees in writing with the proposed changes.

Single, Radio group.

1: Yes, proposing at least one alternate benefit design, will submit full proposal by the due date per Table 1.7 Key Action Dates. (Note: Alternate benefit designs must be proposed and approved annually, even if there is no change in plan design),

2: No, not proposing alternate benefit designs

20.4 Delivery System and Payment Strategies to Drive Quality

Attachment 1 of the Covered California Qualified Health Plan (QHP) Issuer Contract embodies Covered California's vision for delivery system reform and serves as a roadmap to delivery system improvements. A number of the delivery system and payment strategy requirements in Attachment 1 meet the federal Quality Improvement Strategy (QIS) requirements.

The Patient Protection and Affordable Care Act (§1311(g)(1)) requires periodic reporting to Covered California of activities a QHP Issuer has conducted to implement a strategy for quality improvement. This strategy is defined as a multi-year improvement strategy that includes a payment structure that provides increased reimbursement or other incentives for improving health outcomes, reducing hospital readmissions, improving patient safety, and reducing medical errors, implementing wellness and health promotion activities, or reducing health and health care disparities. Per the final rule issued by the Centers for Medicare and Medicaid Services (CMS) on May 27, 2014, Issuers must implement and report on a quality improvement strategy or strategies consistent with the standard of section 1311(g) of the ACA.

~~New entrant~~ Applicants that are currently operating in Covered California are required to complete QIS workplans as part of the Application process. The following strategies meet the QIS requirements and Applicants must submit QIS workplans:

Certification Application Qualified Health Plan Covered California for Small Business Marketplace Plan Year 2023

- Effective Primary Care
- Accountable Care Organizations (ACOs) and Integrated Delivery Systems (IDSs)
- Appropriate Use of Cesarean Sections
- Hospital Patient Safety

QHP certification ~~and participation in Covered California is conditioned will be conditional~~ on Applicant developing a multi-year QIS and reporting year-to-year activities and progress on each initiative area.

If Applicants that are currently operating in Covered California have the same provider network for both the Individual Marketplace and the Small Business Marketplace, Covered California recognizes the responses may be the same or similar for both markets.

~~New entrant~~ Applicants that are not currently operating in Covered California are not required to complete the QIS workplan updates as part of the 2023 Application but must review Attachment 1 with the understanding that engagement in the QIS and Attachment 1 initiatives will be contractually required and measured in the future if Applicant contracts with Covered California.

20.4.1 Provider Networks Based on Value

All questions required for ~~new entrant~~ Applicants that are currently operating in Covered California. Question 20.4.1.1 is required for ~~new entrant~~ Applicants that are not currently operating in Covered California.

~~All questions should be answered at the product level, not Issuer level.~~

Applicants shall curate and manage ~~their~~ its network(s) to address variation in quality and cost performance across network hospitals and providers, with a focus on improving the performance of hospitals and providers. Applicants shall measure, analyze, and reduce variation to achieve consistent high performance for all network hospitals and providers. Affordability is core to Covered California’s mission to expand the availability of insurance coverage. The wide variation in unit price and total costs of care, with some providers and facilities charging far more for care irrespective of quality, is a key contributor to the high cost of medical services. Applicants shall hold its contracted hospitals and providers accountable for improving quality and managing ~~or reducing~~ cost, and provide support to its contracted hospitals and providers to improve performance. The following questions address Applicant’s ability to track and address variation in quality and cost performance across network hospitals and providers.

20.4.1.1 In the following table, Applicant must identify key quality and cost measures and the criteria that the Applicant uses to evaluate providers and hospitals for network inclusion and continual network management and briefly explain how each measure is used.

20.4.2 Effective-Advanced Primary Care

All questions required for ~~new entrant~~ Applicants that are currently operating in Covered California. Questions 20.4.2.1 and 20.4.2.2 are required for ~~new entrant~~ Applicants that are not currently operating in Covered California.

Covered California recognizes that providing high-quality, equitable, and affordable care requires a foundation of effective and patient-centered primary care. Advanced primary care is patient-centered, accessible, team-based, data driven, supports the integration of behavioral health services, and provides care management for patients with complex conditions. ~~Effective primary care is data driven, team-based, and Advanced primary care is~~ supported by alternative payment models such as population-based ~~payments~~ payment and shared savings arrangements. Applicant shall actively promote the development and use of advanced primary care models that promote access, care coordination, and quality while managing the total cost of care. The following questions address Applicant's ability to match at least 95% of enrollees with a primary care clinician and increase the proportion of providers paid under a payment strategy that promotes advanced primary care.

This strategy meets the QIS requirements.

20.4.2.1 Report the percentage of ~~members-Covered California Enrollees in Applicant's Covered California business~~ who either selected or were matched with a primary care clinician in 2021 in Attachment J - QHP IND Run Charts. If Applicant had no Covered California business in 2021, report full 2021 book of business excluding Medicare. Applicants Currently-currently contracted with Covered California Applicant must enter the number and percentage of providers paid under each model reported in the Certification Applications for 2016, 2017, 2018, 2019, 2020, 2021, and 2022 as well. 20.4.3 Integrated Delivery Systems and Accountable Care Organizations

All questions required for ~~new entrant~~ Applicants that are currently operating in Covered California. Questions 20.4.3.1 - 20.4.3.3 are required for ~~new entrant~~ Applicants that are not currently operating in Covered California.

~~All questions should be answered at the product level, not Issuer level.~~

Evidence suggests the adoption and expansion of integrated, coordinated, and accountable systems of care such as Integrated Delivery Systems (IDSs) or Accountable Care Organization (ACOs) can lead

Certification Application Qualified Health Plan Covered California for Small Business Marketplace Plan Year 2023

to improved quality and reduced costs. An IDS is defined as an organized healthcare delivery system in which payers, hospitals, and providers coordinate to provide patient care, integrate care across settings, and share responsibility for patient outcomes and resource use. IDS partners are generally managed by the same organization. An ACO is defined as a system of population-based care coordinated across the continuum including multidisciplinary physicians and physician groups, hospitals, and ancillary providers with combined risk sharing arrangements and shared incentives between providers or between payers and providers. Ideally ACO partners are held accountable for nationally recognized clinical, financial, and operational performance. As providers accept more accountability under this provision, Applicant shall ensure that providers have the capacity to manage the risk. There are many variations of ACO implementation with evidence suggesting that there are key characteristics of an ACO model that influence its success.

The following questions address Applicant’s ability to increase enrollment in Integrated Delivery System (IDS) or Accountable Care Organization (ACO) models in its Covered California network.

This strategy meets the QIS requirements.

20.4.3.1 Using the definition for IDS or ACO above, report the number and percentage of Covered California ~~members~~ Enrollees and total California ~~members~~ Enrollees who are managed under an IDS or ACO in 2021 in Attachment J - QHP IND Run Charts. 20.4.4 Appropriate Use of Cesarean Sections

All questions required for ~~new-entrant~~ Applicants that are currently operating in Covered California. Questions 20.4.4.1 - 20.4.4.3, 20.4.4.5 and 20.4.4.6 are required for new entrant Applicants that are not currently operating in Covered California. ~~All questions should be answered at the product level, not Issuer level.~~

Applicant ~~will~~must: 1) Progressively adopt physician and hospital payment strategies so that revenue for labor and delivery only supports medically necessary care and no financial incentive exists to perform a low-risk Nulliparous Term Singleton Vertex (NTSV) Cesarean Section (C-Section). 2) Promote improvement work through the California Maternal Quality Care Collaborative (CMQCC) Maternal Data Center (MDC), so that all maternity hospitals achieve an NTSV C-Section rate of 23.9% or lower or are at least working toward that goal. 3) Consider a hospital's NTSV C-section rate, improvement trajectory, and willingness to engage in coaching as part of its maternity hospital contracting decisions and terms. Covered California does not expect Contractor to base poor performance, and potential network removal decisions, on one measure alone.

~~4) New-entrant~~ Applicants that are not currently operating in Covered California are expected to adopt a payment methodology structured to support only medically necessary care with no financial incentive to perform C-sections for all contracted physicians and hospitals serving ~~e~~Enrollees by year end 2023.

Smart Care California has outlined three payment strategies to align payment with medically necessary use of C-sections:

- Adopt a blended case rate payment for both physicians and hospitals;
- Include a NTSV C-section metric in existing hospital and physician quality incentive programs; and
- Adopt population-based payment models, such as maternity episode payment models or inclusion in Integrated Delivery System, ACO or similar financial accountability arrangement.

The following questions address Applicant's ability to meet the requirements for the appropriate use of cesarean sections.

This strategy meets the QIS requirements.

20.4.4.1 Describe how Applicant is measuring overuse of Cesarean Sections and how it is implementing Smart Care California guidelines (<https://www.iha.org/wp-content/uploads/2020/12/c->

All questions required for ~~new-entrant~~ Applicants that are currently operating in Covered California. Questions 20.4.5.1 and 20.4.5.2 are required for ~~new-entrant~~ Applicants that are not currently operating in Covered California.

~~All questions should be answered at the product level, not Issuer level.~~

Applicant will/must: 1) Adopt a hospital payment methodology that places all acute general hospitals either at risk or subject to a bonus payment for quality performance. 2) Promote hospital involvement in improvement programs so that all hospitals achieve infection rates (measured as a standardized

Certification Application Qualified Health Plan Covered California for Small Business Marketplace Plan Year 2023

infection ratio or SIR) of 1.0 or lower for the five Hospital Associated Infection (HAI) measures outlined in Attachment 1 or are working to improve. 3) Promote hospital involvement in improvement programs so that all hospitals comply with Sepsis Management according to CMS guidelines.

The five HAIs and Sepsis Management are:

- Catheter Associated Urinary Tract Infections (CAUTI)
- Central Line Associated Blood Stream Infections (CLABSI)
- Clostridioides Difficile Infection (CDI)
- Methicillin-resistant Staphylococcus Aureus (MRSA)
- Surgical Site Infection of the Colon (SSI Colon)
- Sepsis Management (SEP-1)

The following questions address Applicant's ability to meet the requirements for hospital patient safety.

This strategy meets the QIS requirements.
