Background

Automatic plan selection is currently only triggered from the consumer’s initial transition from Medi-Cal to Covered CA transaction. Consumers transitioning from Medi-Cal to Covered CA with a tax filing status of “no” or “null”:

- Are not eligible for a Covered CA plan with financial help,
- Do not have a Covered CA plan automatically selected for them,
- May not understand why they are not eligible for financial help, and
- May be willing to attest that they plan to file taxes in order to get a Covered CA plan with financial help.

Overview

CalHEERS helps **single member household** consumers update their “planning to file taxes” question after their initial transition from Medi-Cal to unsubsidized Covered CA eligibility. This process:

- Only applies to single member household cases transitioning from Medi-Cal that are not eligible for financial help due to tax filing status.
- Places enrollees into one of three manual APS populations (Population 1, Population 2, or Population 3).

Medi-Cal to Covered CA – Manual Auto Plan Selection (Manual APS) Guide for Enrollers

- Consumer notices/educational flyers and the enrollee’s navigation path in CalHEERS are based on their assigned population.
 - Go to [Manual APS Basics](#) for more information.
- For **all three populations**, CalHEERS provides a new *Confirm Account Information* page for transitioning consumers to update their tax filing status.
 - Enrollees who confirm their tax filing status is “yes” on this page and meet all other financial help eligibility criteria are redetermined eligible for a Covered CA plan with financial help.
 - Once affected enrollees, confirm their tax filing status as “yes,” (and they meet all other eligibility criteria), CalHEERS will allow them to complete plan selection. They must then complete plan selection within 90 days after their loss of Medi-Cal.
 - Go to [Confirm Account Information Page Basics](#) for more information.
- For **only Population 3 consumers**, CalHEERS provides a new **Manual APS MCT Dashboard** for transitioning consumers.
 - Go to [Manual APS MCT Dashboard Basics](#) for more information.

[Back to Table of Contents](#)

Manual APS Basics

For affected consumers in all three populations, CalHEERS:

- Updates the *Consumer Information* page to display that the consumer does not have other health coverage and agrees to file taxes for the benefit year.
- Redetermines eligibility to show the consumer their APTC amount if their tax filing status for the 2024 benefit year is updated to “yes” on the *Confirm Account Information* page.
 - All affected consumers must confirm or update the information on the Consumer Information Page before they can complete plan selection.
- Generates eligibility notices based on the enrollee’s assigned population.

For **population 3 consumers only**:

- CalHEERS determines the lowest cost Silver plan to be displayed on the consumer’s *Manual APS MCT Dashboard* and in the consumer’s eligibility notice.

Medi-Cal to Covered CA – Manual Auto Plan Selection (Manual APS) Guide for Enrollers

- This Covered CA plan recommendation follows the same logic used for automatic plan selection. ([Medi-Cal to Covered CA - Automatic Plan Selection Crosswalk Guide](#))
- The 834 with the consumer's information is not generated or sent to the health care company at the time of recommendation.
 - The 834 is generated and sent to the health care company when the consumer confirms their information and chooses to keep the recommended plan (or selects a different plan).
- The consumer's coverage start date is prospective. The coverage start date will be the first of the following month following regular SEP plan selection logic. For example:
 - Consumer discontinued from Medi-Cal on February 13.
 - Does not select a plan in February.
 - Selects a plan in March.
 - Effective date is April 1.

Updated eligibility notices and educational fliers are generated based on the consumer's assigned population.

- Notices and educational flyers are viewable in the consumer's CalHEERS Secure Mailbox Documents and Correspondence page.
 - Go to the [Sample Manual Auto Plan Selection Consumer Notices](#) section to see sample notices and flyers.
- The Educational Flyer is not saved as an individual document. It is included at the end of the eligibility notice pdf file.

Confirm Account Information Page Basics

The *Consumer Account Information* page is pre-populated to indicate the consumer:

- Does not have other health coverage, and
- Agrees to file taxes for the benefit year, and
- Is American Indian or Alaska Native (AI/AN).

Consumers in all three populations must confirm the information on the *Confirm Account Information* page is correct before they can complete their enrollment.

Note the following:

- Confirming account information is different than the automatic plan selection process to opt-in (keep) or opt-out (cancel). Due to its complex rules, it is only available through the logged in CalHEERS account and not available through IVR or CiCi.
- If the consumer indicates the information on the *Confirm Account Information* page is not correct, clicking **No, I need to change my information** navigates the consumer to the existing report a change flow.

The navigation path to the *Confirm Account Information* page depends on the consumer’s assigned population.

Medi-Cal to Covered CA – Manual Auto Plan Selection (Manual APS) Guide for Enrollers

1. Upon *Log In*, consumers in:

- **Populations 1 and 2** go directly to the *Confirm Account Information* page.
- **Population 3** are directed to the *Confirm Account Information* page by clicking the **Start Now** button on their *Manual APS MCT Dashboard*.
 - The [Manual APS MCT Dashboard Basics](#) section shows the navigation path.

The *Confirm Account Information* page looks like this:

2. The MEC question *Do you have other health coverage through a job, your family's job, or other source?* is first and guides next steps.
3. Additional account information displays for confirmation.
4. The following application information is updated to evaluate the consumer for financial help:
 - The consumer **will file taxes**

Medi-Cal to Covered CA – Manual Auto Plan Selection (Manual APS) Guide for Enrollers

- The consumer **will file taxes as Single**
 - The consumer **is not a tax dependent** of someone else
 - The consumer **is not AI/AN**
5. Clicking **Yes, my information is correct**, navigates to the next step based on their assigned population.
- **Population 1 and Population 2** consumers proceed to the existing *Enrollment Dashboard* to shop for a plan and complete enrollment.
 - **Population 3** consumers proceed to the new *Manual APS MCT Dashboard* to complete plan selection. **Note:** They also have the option to shop for a different plan, if applicable.
 - Go to [Manual APS MCT Dashboard Basics](#) for more information.

Manual APS MCT Dashboard Basics

The *Manual APS MCT Dashboard* only displays for **Population 3** consumers.

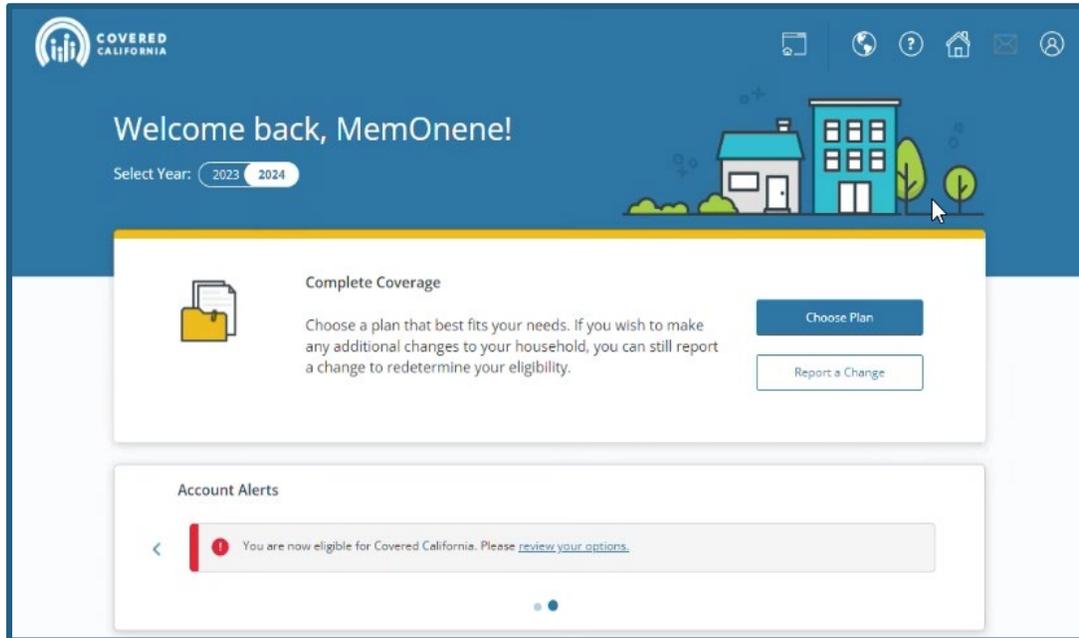

- It has slight differences from the *Auto Plan Selection Dashboard* that displays for consumers transitioning from Medi-Cal to Covered CA outside of this population.

For Population 3 consumers only:

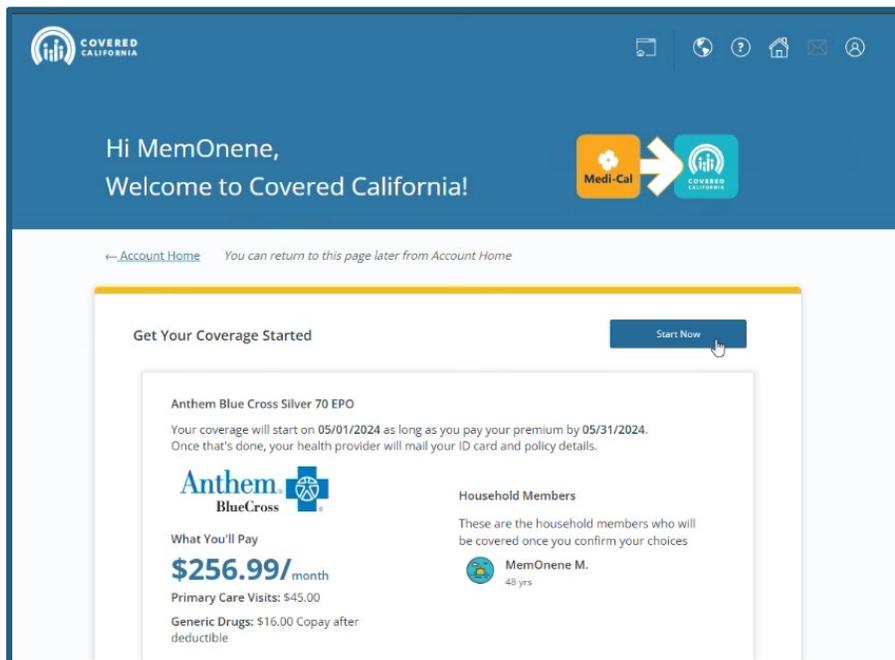

- A **Start Now** button displays instead of the **Keep** or **Switch** button.
 - The **Start Now** button navigates directly to the *Confirm Account Information* page.
1. From the *Account Home* page, click the **You are now eligible for Covered California. Please review your options Account Alert** link.

Important news about your health benefits

Case Number: 1234567890

Dear First Name Last Name,

This letter shows your eligibility for **2024**. Unless you told us not to, we checked to see if anyone in your household qualifies for Medi-Cal or Covered California programs. We also checked to see if your household qualifies for financial help. Look for the person's name below to see what they qualify for.

First Name Last Name

Your Medi-Cal ends on March 31, 2024. To help you stay covered, we used the household and income information you reported to Medi-Cal to see if you qualify for Covered California. Covered California is the only place to get federal financial help to buy a private health plan. If you do not have other health coverage, you should enroll in a Covered California plan to avoid a gap in health coverage.

Covered California Eligibility

You qualify for Covered California health and dental plans. Your household qualifies for \$474.33 per month of Advance Premium Tax Credit (APTC) to lower your premium (monthly cost). This amount is based on your household size and reported income of \$26,244.00 for the year.

You also qualify for cost-sharing reductions (CSR) when you enroll in a Silver plan. CSR saves you money. It lowers out-of-pocket costs such as copays, coinsurance and deductibles.

You qualify to enroll in a health and dental plan. If you are already enrolled, you may be able to change your current plan.

If you enroll in a plan that includes APTC

You must agree to file income taxes for your household. APTC is a federal tax credit that is based on your household size and income for the year. If you are not sure of your tax filing status for this year, or have questions about this requirement, call Covered California.

Medi-Cal Eligibility

You do not qualify for Medi-Cal because your income is above the limit of \$1,677.00 per month.

Next steps for members who qualify for Covered California

Choose a new health and/or dental plan or make changes to your current plan before **May 30, 2024**.

Covered California financial help programs

About financial help: Covered California offers financial help to lower the cost of health coverage. The **Advance Premium Tax Credit (APTC)** is one type of financial help available for those who qualify. APTC is a federal tax credit. The **California Premium Subsidy** is a form of financial help to lower your health plan premium (monthly cost). Both APTC and California Premium Subsidy are paid directly to your health insurance company. The amount you qualify for is based on your household size and income for the year.

Cost-Sharing Reductions (CSR) are a type of financial help available for those who qualify. CSR saves you money when you enroll in a Silver plan. It lowers out-of-pocket costs, such as copays, coinsurance and deductibles. For more information, visit CoveredCA.com/financial.

Keeping your information up to date: To help you get the right amount of financial help, you must report changes to your household or income within 30 days.

Filing taxes: When you file your tax returns, you must report your APTC to the Internal Revenue Service (IRS) and the California Premium Subsidy to the Franchise Tax Board (FTB). The IRS and FTB will use your final income and household size to decide if you got the right amount of financial help during the year. If your household size or income information is wrong, you may get too much and have to pay some or all of it back.

Thank you,

Covered California

Financial help

Financial help is based on your age, family size, income, where you live, and the type of plan you choose. To learn more, go to CoveredCA.com/financial. Financial help includes:

Advance Premium Tax Credit (APTC)

APTC is paid directly to your insurance company to lower your monthly premium. Your monthly premium amount will be what APTC does not cover.

Cost Sharing Reduction (CSR)

CSR lowers the amount you pay for deductibles and copays. To get CSR you must meet income requirements and choose a Silver plan.

How APTC affects your taxes

At tax time, the Internal Revenue Service (IRS) compares the APTC you got during the year with what you qualified for based on your actual income. You will get tax forms that show the amount paid to your health plan. You will use the forms to fill out your tax returns. The IRS will make sure you got the right amount of financial help. Be sure to report income and household changes right away to Covered California so you will not have to pay back APTC when you file your taxes.

Words to know for your plan

Here are some words to help you use your new health plan.

Premium: This is the amount you pay every month to your health plan to keep your health insurance coverage.

Preventive care: This is routine health care to prevent illness, disease and other health problems. All Covered California plans include free preventive services like yearly flu shots, screenings and checkups.

Copay: This is a fixed amount you pay for certain covered services like doctor visits. There are no copays for preventive care services, screenings and vaccinations.

Deductible: This is the fixed amount some plans require you to pay before the plan starts to pay its share for covered services, like hospitalizations and procedures. Deductibles do not apply to free preventive care services.

Coinsurance: For plans that include coinsurance, some health care services will cost you a percentage of the total cost. Depending on your plan, your share of the cost can range from 10-40%. These costs apply after you have met your deductible.

Out-of-pocket limit: This is the maximum you will pay each year for covered medical services before your health plan starts to pay for 100% of services. This protects you and your family from very high medical expenses. Most copayments, deductibles and coinsurance payments count toward this limit.

About financial help: Covered California offers financial help to lower the cost of health coverage. The Advance Premium Tax Credit (APTC) is one type of financial help available for those who qualify. APTC is a federal tax credit paid directly to your health insurance company to lower your monthly premium (cost). We use the information we have about your household size and income for the year to decide the amount.

Keeping your information up to date: To help you get the right amount of APTC and other financial help, you must report changes to your household or income within **30 days**.

Filing taxes with premium tax credits: At the end of the year when you file your federal tax return, you must report your APTC to the Internal Revenue Service (IRS). The IRS will use your final income and household size to decide if you got the right amount of APTC during the year. If your household size or income information is wrong, you may get too much APTC and have to pay some or all of it back.

Thank you,

Covered California

Financial help

Financial help is based on your age, family size, income, where you live, and the type of plan you choose. To learn more, go to CoveredCA.com/financial. Financial help includes:

Advance Premium Tax Credit (APTC)

APTC is paid directly to your insurance company to lower your monthly premium. Your monthly premium amount will be what APTC does not cover.

Cost Sharing Reduction (CSR)

CSR lowers the amount you pay for deductibles and copays. To get CSR you must meet income requirements and choose a Silver plan.

How APTC affects your taxes

At tax time, the Internal Revenue Service (IRS) compares the APTC you got during the year with what you qualified for based on your actual income. You will get tax forms that show the amount paid to your health plan. You will use the forms to fill out your tax returns. The IRS will make sure you got the right amount of financial help. Be sure to report income and household changes right away to Covered California so you will not have to pay back APTC when you file your taxes.

Words to know for your plan

Here are some words to help you use your new health plan.

Premium: This is the amount you pay every month to your health plan to keep your health insurance coverage.

Preventive care: This is routine health care to prevent illness, disease and other health problems. All Covered California plans include free preventive services like yearly flu shots, screenings and checkups.

Copay: This is a fixed amount you pay for certain covered services like doctor visits. There are no copays for preventive care services, screenings and vaccinations.

Deductible: This is the fixed amount some plans require you to pay before the plan starts to pay its share for covered services, like hospitalizations and procedures. Deductibles do not apply to free preventive care services.

Coinsurance: For plans that include coinsurance, some health care services will cost you a percentage of the total cost. Depending on your plan, your share of the cost can range from 10-40%. These costs apply after you have met your deductible.

Out-of-pocket limit: This is the maximum you will pay each year for covered medical services before your health plan starts to pay for 100% of services. This protects you and your family from very high medical expenses. Most copayments, deductibles and coinsurance payments count toward this limit.
