

Overview

State law enacted in 2019 authorizes Covered California to enroll consumers in a qualified health plan (QHP) automatically when they lose Medi-Cal coverage and gain eligibility for advanced premium tax credits (APTC). Covered California will begin its auto-enrollment program in June 2023 for consumers transitioning from Medi-Cal, with a July 1, 2023, effective date. Covered California will select the lowest cost silver plan available for qualifying Medi-Cal transitioning consumers to maximize premium tax credit and cost sharing support. This program will help to facilitate continuity of coverage for individuals losing Medi-Cal coverage if they effectuate their Covered California plan within a month of disenrollment from Medi-Cal.

Below is a list of program resources and support material for Covered California transitioning consumers, enrollment channel partners, and other stakeholders on the program and enrollment process. Check back frequently for updates.

Program Materials and Resources
