

IRS Form 1095 Toolkit

Overview

The Affordable Care Act (ACA) requires IRS Forms 1095-A (issued by Covered California), B (issued by government agencies, such as Medi-Cal and Medicare, the insurance companies outside Covered California, and certain employers), and C (issued by large employers) be provided to consumers and a copy to the IRS.

A Covered California notice will be included with a consumer's IRS Form 1095-A as well as instructions. This form will help consumers determine whether the amount of Federal Advanced Premium Tax Credits (APTC) paid to Covered California Qualified Health Plans on their behalf in the 2024 benefit year was more or less than the amount they were eligible to receive based on their tax return data, such as income, family size, and tax filing status.

Form FTB 3895 will not be provided for the 2024 benefit year because enrollees did not receive the California Premium Assistance Subsidy.

According to the IRS and Franchise Tax Board, consumers who are determined APTC/State Subsidy eligible and then later determined Medi-Cal eligible and have overlapping coverage for a month or two during the transfer process, do not generally have to repay the APTC/State Subsidy received during the overlapping months. **However, if a consumer is currently enrolled in both Modified Adjusted Gross Income (MAGI) Medi-Cal and a Covered California health plan with APTC/State Subsidy, they must contact Covered California immediately.**

Dispute Process

If it appears that a consumer's dispute will not be resolved by the tax filing deadline and the consumer asks about what to do regarding their taxes, advise the consumer that Covered California cannot provide tax advice. Still, they may visit the [IRS website](#), which offers "Help and Resources" for taxpayers who need it, or view the [Tax Preparation Help for Consumers Handout](#), which includes details about where consumers can find a licensed or registered tax preparer or low-cost tax preparation services.

Reminder: DO NOT produce or give tax advice to consumers on how to file their federal or state income taxes. **DO NOT** fill out tax forms. Your role is to educate consumers about the purpose and importance of IRS Form 1095-A.
