your family's health insurance**

{CURRENT\_DATE}

Case number: {CASE\_ID}

Dear {FIRST\_NAME}{LAST\_NAME},

Thank you for choosing health insurance through Covered California. You are receiving this notice because you may not be eligible for help in 2016 with your Covered California health insurance costs. Without taking action now, you may lose premium assistance (a federal tax credit) and/or cost-sharing reductions (lower copayments, coinsurance and deductibles. This help may end because of one or more of the following reasons:

- Your **Consent** to allow Covered California to use computer sources to check your income and family size, including information from tax returns, has expired.
- You may not have filed a 2014 federal income tax return for your household to reconcile the Advance Premium Tax Credit (APTC) used to lower plan premium costs during 2014.
- Your household income may be too high.

Read below for information about how to keep your premium assistance.

**How to Get Help With Consent and Income Amounts**

You can give us permission to check your income and family size by any of the following ways:

- Call the Covered California Service Center at **1-800-300-1506**, or for TTY call 1-888-889-4500 (1-888-TTY-4500) where a representative can assist you.

- Contact your Covered California Certified Enrollment Counselor or Insurance Agent to get help. You can find a Covered California Certified Enrollment Counselor or Insurance Agent at [www.CoveredCA.com/get-help/local/](http://www.CoveredCA.com/get-help/local/) if you do not have one.

To see if you qualify for a Covered California health plan with premium assistance and/or cost-sharing reductions for 2016, we need you to give us permission to use computer sources to check your income and family size.

If you are currently enrolled in a Covered California health plan, your premium assistance and/or silver cost-sharing reductions will end and your health insurance will be automatically renewed without any financial help unless you give us permission to use computer sources to check your income and family size.

### **Why Filing Your Taxes is Required**

**Important: If you receive APTC in 2016, but later it is found that you are not eligible for premium assistance because you did not file a 2014 tax return, you will be responsible for paying back to the IRS some or all of the APTC you took in 2016.**

If advance payments of the premium tax credit (APTC) were made to your Health Plan for health insurance for 2014, to continue getting premium assistance, you should file a 2014 tax return as soon as possible, including a completed IRS Form 8962. You should have received a Form 1095-A, Health Insurance Marketplace Statement, to help fill out Form 8962 and file your 2014 federal income tax return. To continue getting premium assistance, you must file a tax return even if you don't usually have to file taxes or if you requested an extension. If you do not file your 2014 tax return, Covered California may remove your premium tax credits in 2016 and offer you a full-cost health plan. Also, if you do not file your 2014 tax return, you will be responsible for paying back any APTC sent to your health plan to the Internal Revenue Service (IRS).

### **What to do if my household received advance premium tax credits for 2014, but a 2014 tax return with IRS Form 8962 was not filed**

- You should file a tax return as soon as possible, including a completed IRS Form 8962. You should have received a Form 1095-A – Health Insurance Marketplace Statement to help fill out Form 8962 and file your 2014 federal income tax return.
